# WORK IN THE SENATE

This Will Be a Busy Week for Upper

Branch of Congress.

IMPORTANT MEASURE COMES UP

War Revenue and Ship Subsidy Bills Will Receive Consideration - Speech by Towns on Philippine Question Awaited With Keen Interest.

WASHINGTON, Jan. 28.-A variety of subjects, including appropriation bills, the war revenue reduction, ship subsidy bill and to some extent the Philippine question will claim the attention of the senate the coming week.

Monday Mr. Towne will speak on the problems involved in the government of the Philippines. There is somewhat more than usual interest in this speech, not only because of Mr. Towne's reputation as an orator and the fact that it will be his only speech in the senate on a political subject, but because of increased interest in the Philippine question aroused by the president's request of the senate for early legislation on this subject. It does not appear probable that the Minnesota senator's speech will call out other speeches immediately on this subject because even the senators who would like to see legislation during this session admit the impossibility of taking up the matter seriously until the report of the Tatt commission can be printed, or so long as there are other pressing questions before the senate. Still, straggling references to the subject are not improbable at any time during the remainder of the ses-

Senator Aldrich, chairman of the finance committee, has given notice that the will ask the senate to take up the war revenue bill early in the week. The understanding is that he will press that question to the exclusion of all other bills, except appropriation bills. Being a revenue measure, it will take precedence over all other measures.

There is no real opposition to the war revenue bill, but it appears probable that there will be some discussion of it as an easy means of delaying consideration of the subsidy bill. I there is opportunity the subsidy bill will be taken up, but it is not expected that anything more definite will occur in this connection during the present week than the making of speeches.

The week in the house is likely to be monopolized by appropriation bills. Seven of the fourteen general appropriation bills have already passed the house, namely, the executive, legislative and judiciary, pension, military academy, Indian, naval, river and harbors and District of Columbia bills. Three others, the postoffice, agriculture and fortifications bills, have been reported to the house, and the remaining four, the army, consular and diplomatic, sundry civil and general deficiency, are still in the committees having them in charge. The three reported to the house and the consular and diplomatic, which is practically completed, probably will be disposed of during the week. Whatever time remains will be occupied with the bill to promote the efficiency of the revenue cutter service, which has been made a continuing special order, not, however, to interfere with appropriation bills.

The postoffice appropriation bill is likely to be made the occasion of much debate. All the questions raised by the report of joint postal commission are likely to be dragged into the arena. An effort undoubtedly will be made to continue the appropriations for pneumatic tube service, which were eliminated from the bill and there probably will be the usual fight on the appropriations for special mail facilities,

#### FAVORS THE SPOONER BILL.

Filipinos Uurge Legislation for Permanent Form of Government.

MANILA, Jan. 28.—The executive committee of the federal party has filed a petition requesting the Philippine commission to urge upon President McKinley that the passage of the Spooner bill by congress is an urgent necessity, as the progress of the archipelago demands an authority which can legislate and control the incorporation of concerns, regulate mining claims, dispose of public lands and perform other functions not vested in either the military or executive authorities.

The petitioners state that the time is ripe for a general civil government, the establishment of which will win over those favoring the insurrection while, at the same time, it will encourage the natives to subscribe in favor of the settled government in the Philippines under American sovereignty. Therefore they urge that the Spooner bill, which empowers President McKinley, in his discretion, to declare the insurrection ended and to establish a civil government, be passed by the present congress.

LINCOLN, Neb., Jan. 28.-Railroads and telephones are the burdens of four bills introduced in the state senate. Senator Weber is father of three of them. #### THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City.

SOUTH OMAHA.

Union Stock Yards—Cattle—There was a fairly liberal run of cattle on sale aud although Chicago was reported generally loc lower, the market here was quite active and just about steady all around. Buyers seemed to be anxious for good beef steers and the more desirable bunches were picked up in good scason at practically yesterday's prices. The common kinds were not sought after as much as the finished cattle, but still sellers did not experience any great trouble in disposing of their holdings at steady prices. The cow market was in very satisfactory shape and no particular change was noticeable from yesterday. The demand seemed to be fully equal to the supply and as a result the market was fairly active and it was not long before the pens were cleared. The feeder trade continued in good shape today and anything at all desirable changed hands early at good, firm prices. There are very few good cattle coming, and as there is a very good demand for cattle showing weight and quality, those answering to that description bring good prices.

lie snowing weight and quality, those answering to that description bring good prices.

Hogs—There was a good average run of hogs and the market opened 5@@10c higher. The first sales were largely at \$5.27½ and \$5.25, with a top of \$5.27½. At those prices the hogs moved toward the scales at a good rapid rate, but before half of them had changed hands packers lowered their bids, owing to less favorable reports from other points. Heavy-weight hogs were at a premium and were sold first. The lightwelchts were left until the last and anything on the pig order was hard to move at satisfactory prices. The close of the market was very slow and weak, light hogs selling largely at \$5.17½ and the general run of mixed hogs at \$5.20.

Sheep—There was not a heavy run of sheep here, but the market was slow and a big dime lower than yesterday. Eastern markets are reported as being in bad shape and the demand for mutton is none too good at the present time and as a result packers are not very liberal buyers. #### Ruskin on the Bicycle.

This is what John Ruskin thought of the bicycle: "Some time since I put myself on record as an antagonist of the devils own toy, the bicycle, I want to reiterate, with all the emphasis of strong language, that I condemn all manner of bi-, tri-, and 4-. 5-, 6-, or 7-, cycles. Any contrivance or invention intended to supersede the use of human feet on God's own ground is damnable.
