#### Feeds the Hair

Have you ever thought why your hair is falling out? It is because you are starving your hair. If this starvation continues, your hair will continue to fall.

There is one good hair food. It is Ayer's Hair Vigor. It goes right to the roots of the hair and gives them just the food they need. The hair etops falling, becomes healthy, and grows thick and long.

Ayer's Hair Vigor does enother thing, also: it always restores color to faded or gray

the following story: "I have suffered for the past eighteen years with Kidney Trouble and Rhenmatism. I have tried doctors, patens medicines, plasters, liniments, electric treatments, and nothing did me any good, I had nearly lost all faith in anything, when I sent for six boxes of Dodd's Kidney Pills. I said to my husband I expected that it was some more money thrown away, but when I had taken them a week I could see that they were helping me. # Sore Hands

### One Night Treatment

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful, and points to a speedy cure of the most distressing cases when physicians and all else fail.

## **Cured by Cuticura**

WAS troubled with hands so sore that when I put them in water the pain would near set me crazy, the skin would peel off, and the flesh would get hard and break, then the blood would flow from at least fifty places on each hand. Words never can tell the suffering I endured for three years. I tried at least eight doctors, but my hands were worse than when I commenced

doctoring. I tried every old Granny remedy that was ever thought of without one cent's worth of good and could not even get relief. I would feel so badly mornings when I got up, to think that I had to go to work and stand pain for eight or nine hours, that I often felt like giving up my job, which was in the bottling works of Mr. E. L. Kerns, the leading bottler of Trenton, N. J., who will vouch for the truth of my sufferings.

Before I could start to work, I would have to wrap each finger on both hands, and then wear gloves, which I hated to do, for when I came to take them off, it would take two hours and the flesh would break and bleed. Some of my friends who had seen my hands would say, "If they had such hands they would have them amputated"; others would say "they would never work," and more would turn away in disgust. But thanks to Cuticura, the greatest of skin cures, it

ended all my sufferings.
Lust to think, after doctoring three years, and spending dollar after dollar during that time, Cuticura cured me. It has now been two years since I used it and I do not know what sore hands are. I never lost a day's work while I was using the or since, and I have been working at the same business, and in acids, etc.

Barn Conveniences. There should be in every stable a closet large enough to allow the hanging up of all harnesses, whether for carriage or work teams, and so snugly made that when the doors are shut the closet will be nearly air-tight. The cost of such a closet will be more than repaid by the saving of leather from the fumes of ammonia, if there is a cellar for manure under the building, and from the dampness caused by the breath of animals or in other ways. Another and smaller closet, or box with shelves, near the animals, or two-one for the horses and one for the cattle-in which to keep currycombs, brushes, cattle cards, sponges, hammer and nails, often needed, and little bottles or packages of simple remedies that may be needed for a sick animal, to save calling a veterinarian, or to save the animal until he can be brought there. Tenant Farming. Why should not the American system of tenant farming be abolished? asks a correspondent of the Prairie Farmer. It is already a fruitful source of wrong and a menace to free lustitutions, dethroning the goddess of justice and supplanting her with the goddess of greed, keeping in a state of servility our disinherited fellow-farmers, many of whom were robbed of their birthright before they were born, when their rightful heritage was given to the railroad magnates, who in turn have robbed and now continue to reb their beneficiaries, the people, by exorbitant rates. We, the surplus landowners, both rural and urban, hold in our grasp the destiny of this republic for weal of wee. Then why not heal the mortal disease that is gnawing at her vitals?
