

# Custer County Republican.

VOL. XIX.

BROKEN BOW, CUSTER COUNTY, NEBRASKA, THURSDAY, APRIL 25, 1901.--EIGHT PAGES.

NO. 45.

## Local Mention.

F. O. Wilson of Anselmo, was in the city a short time Tuesday evening.

Emil G'Schwind will leave tomorrow on a business trip to Chicago.

H. H. Andrews of Callaway, made this office a friendly call yesterday.

A. H. Ford of Walworth, made the Republican office a welcome call Tuesday.

G. W. Keller of New Helena, kindly remembered this office while in the city Tuesday.

Judge Hamer of Kearney, was a city visitor yesterday. This office acknowledges a friendly call.

M. W. McCandless of Rest, favored this office with a substantial call while in the city last Thursday.

J. E. Cavanne and wife of Georgetown, attended the A. O. U. W. banquet held in this city Tuesday night.

Born—Saturday, April 20, to Capt. V. C. Talbot and wife a boy. Mother and babe reported as getting along nicely.

H. W. Albert of Weissert, and John Govier of Elton, were in attendance at the A. O. U. W. banquet Tuesday night.

B. W. Sullivan is quite sick at Mrs. Martin's, with neuralgia of the stomach. His father came over from Sargent Tuesday to see him.

Judge Sullivan and Dr. W. E. Talbot went to Dunning Monday evening to assist in moving their cattle to their ranch near Halsey.

Arbor day was observed as holiday Monday by the city schools and several trees were planted. The citizens generally planted trees or shrubbery.

Mike Scanlon moved yesterday his restaurant to J. S. Baisch's place on the north side of the square which has been renovated and fixed up for the reception of the new business.

G. A. Harris of Berwyn, has disposed of his interests there and bought a farm near Almeria on the North Loup. He called Tuesday and ordered his paper changed to his new address.

Nellie Cline and her sister were down from Dunning Tuesday. They returned home on the five o'clock train. Miss Nellie may conclude to spend the summer in Broken Bow. For the past year she has been attending school at Peru.

J. J. Standford of Merna, was a city visitor yesterday. He reports a large acreage of small grain being sowed in the vicinity of Merna. Mr. Standford has not sold his stock of goods yet but has two or three customers and expects to close a deal soon.

Bill, Dr. W. E. Talbot's Filipino boy about twelve years old, took the Doctor's bounds last Saturday morning and went out for a wolf hat alone. To the surprise of every body, in a few hours Bill came in with a wolf he and the dogs captured north of town. To say he was the proudest boy in town but faintly expressed it.

Walter Hardy, a ranchman of Seneca, had his right hand badly mashed Tuesday while adjusting the rigging of a new wind mill he had just put up. The mill was different from the others he had in operation which he accounts for the accident. He came in on the mid night train Tuesday night and had his hand dressed. He thinks he will be able to save all the fingers except the third which had to be amputated.

O. P. Perley, one of Broken Bow's pioneers, left Sunday morning for Rowley, Mass., where he expects to engage in business for a while at least. Mr. Perley has been a very valuable citizen to Broken Bow and vicinity, and during his sixteen years residence here made a host of friends who regret to see him leave. It is to be hoped his absence will only be temporary. From a financial point of view the county will greatly miss Messrs. Perley and Rogers, who usedly were associated together in business relations. As they both have large interests here, it will afford them good excuse to return should they find the east too slow for them.

Walt George of Georgetown, was a city visitor Thursday.

George Greenwalt of Green, was a business visitor in the city Saturday.

John Swenson of Georgetown, was a friendly caller at this office Saturday.

John Myers of Upton, was transacting business in the city last Thursday.

The past week has been very fine weather and farmers generally have improved it.

Curt Weimer of Mason City, was a visitor in the city Tuesday, returning Wednesday morning.

This office acknowledges a friendly call from Mr. and Mrs. J. S. McGinn of Anselmo, Tuesday.

Walter Stack left Tuesday morning for California, where he will visit with his wife for a few weeks.

Wesley Thomas of Prairie Center was in Tuesday. He completed sowing 115 acres of small grain on that day.

Carl Schmidt of Rest, called Tuesday and favored this office by leaving a kind remembrance of the days that are past.

R. W. Buckner, one of the staunch republicans of Berwyn township, was a friendly caller at this office Saturday.

A number of the members of the M. B. A. lodge of Broken Bow expect to attend a banquet of the Anselmo lodge Saturday night.

J. N. Pershall has leased his farm and ranch to R. B. Sands, with the view of going to the state of Washington to spend two or three years.

Rev. S. W. Richards has been chosen by the graduating class of Broken Bow schools to deliver the class sermon. The services are to be held in the opera house, Sunday afternoon, May 26.

J. S. Baish left yesterday morning for Madison, where he will engage in business with a brother. He expects to be able to be home at least once a month.

The school entertainment given recently netted over \$40. The money was used in replenishing the laboratory and papering some of the school rooms in need of repair.

The Broken Bow Equality club will give an evening with the Nebraska poets, with a May pole dance in connection, on the evening of May 15th. Look for program later.

R. S. Stretch, who recently arrived here from New Jersey, has rented Ham Rogers place one mile southeast of town. Mr. Rogers has moved to his ranch three miles southeast.

Joe Warner fell from one of John Henry's dray wagons Monday and sustained quite severe injuries about the head. He was holding a tall refrigerator in the dray when he lost his hold and fell.

S. D. Butcher is in Omaha this week looking after the publication of his Pioneer History of Custer County. It now looks as Butcher's Pioneer History is to be published. If he cannot get the work done at Omaha at once he has an offer from Denver that he will accept. Mr. Butcher deserves great credit for his perseverance in the matter. More than ten years ago he canvassed the county for material and views which he photographed for his book which anticipated publishing at an early day. Owing to crop failures the work was delayed. Then his house burned down and destroyed much of the valuable matter he had collected, and many of the negatives of views he had taken. For the past year he has been working the enterprise again. He has secured the matter and the financial backing to complete the book. He will have it ready for delivery just as soon as it can be printed. It, no doubt, will be an interesting as well as valuable history, worth several times its cost. Parties that want to get one of the first editions should get in their order at once as the supply will be limited. If you fail to see Mr. Butcher, you can leave your order with any of the newspapers in the county, as they are authorized to take subscriptions.

Nellie Cooper of Mont Rose, Colorado, of whom the REPUBLICAN made mention last week of being hurt regained consciousness after ten days and is otherwise improved.

She had not regained her memory the first of the week.

The Pan-American exposition will open at Buffalo, New York, Wednesday, May 1.

The concert given Friday night under the auspices of the Episcopal church in the north side opera house was well attended and the receipts quite satisfactory. The entertainment was first class and all enjoyed it very much.

Leslie Clay of Ansley, was in the city Saturday taking examination before the county superintendent for a first grade certificate, he having taught the required time to entitle him to a first grade, provided a satisfactory examination is made in the higher branches.

Bob Moore, a fireman on the B & M. railroad, who made Broken Bow his stopping place for some time, was caught in a wreck the latter part of last week at Pacific Junction. He was so severely mangled that in the process of amputation of his leg last Saturday he died, and was buried at Lincoln Monday.

Dr. L. D. Stilson of York, has been in the city several days, under the direction of the Nebraska Experimental Station, with the view of ascertaining the cause of the corn stalk disease that killed so many cattle the past winter. Yesterday he gathered weeds and corn in John Tyson's field where John Fuggitt lost 33 in one day, and fed it to two different animals without fatal results. He will try the stalks in a day or two.

Dr. L. D. Stilson of York, has been in the city several days, under the direction of the Nebraska Experimental Station, with the view of ascertaining the cause of the corn stalk disease that killed so many cattle the past winter. Yesterday he gathered weeds and corn in John Tyson's field where John Fuggitt lost 33 in one day, and fed it to two different animals without fatal results. He will try the stalks in a day or two.

No other article used in the domestic economy of the household has so many enthusiastic friends among the housekeepers of America. No other article of food has received such emphatic commendation for purity and wholesomeness from the most eminent authorities.

The great popularity and general use of the Royal Baking Powder attest its superiority.

The "Royal Baker and Pastry Cook" containing over 500 most practical and valuable cooking recipes—free to every patron. Send postal card with your full address. Avoid the imitation powders. They are sold cheap because they are made from alum. But alum is a poison dangerous to use in food.

## WE ARE IN BUSINESS FOR GLORY!

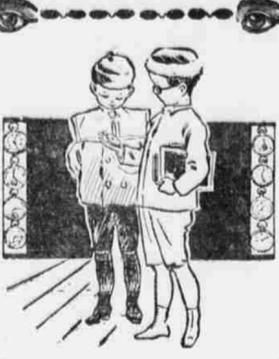

Our Business is to GLORIFY ourselves and our customers by furnishing BUILDING MATERIAL at a Much LOWER Price than our Competitors will do.

If you intend to build a HOUSE, or stable, or porch, or need a NEW FRONT DOOR, or VIEW WINDOW, remember that—

### Foster & Smith Lumber Co.

SPECIALISTS in all kinds of building material will convince you that they are right. Yours For Business,

### W. L. RULE, Manager.

**A Good Watch For Good Boys.**  
Your boy will be better for having a watch. There will be fewer tardy marks and fewer broken appointments. He will learn the value of time, that stuff from which life is made. As little scenes make great oaks, so moments of time put to good use, make life a success. Teach him to be on time—meet the car on time—go to school on time—to church on time—to use time as a means of shortening the cares of life. I have all sorts of watches to suit all sizes and conditions of boys.
