May save its life. Have your watch cleaned and oiled regularly if you wish it long life and good time. One wheel in your watch runs 4,000 miles every year. The best oil will gum and clog where there is such continued friction. Grinding when winding is a sign that your watch needs attention.

Wm. Abbot, of Tyndall, S. He gives a teaspoonful in water as directed on the bottle for an adult man, after each operation of the bowels more than natural. Usually one dose is sufficient. For sale by J. G. Haerberle. 5-2 1m

President McKinley and party are having enthusiastically received on his trip through the south. At Memphis, his first stop and where his formal speech was made, on the trip, it is said the weather was warm but did not compare with the warm reception extended to nation's president.

Will Frey was at Omaha last week with a car of fat steers of his own raising and feeding. They brought him \$1,000, which makes \$1,500 worth of hogs and cattle he has sold off his farm the past few months. Three years ago he started in with \$1,000 worth of cows, from the increase of which he has sold more than a thousand dollars worth and has the old stock and two years calves besides. What Mr. Frey has done every other farmer could do in Custer county, viz: Clear his investment in three years, and have the old stock and two years increase on hand whether he invested in one cow or fifty.

Jas. Callahan, who has been held a prisoner in Omaha for several weeks on the charge of kidnaping Ed. Cudahy, Jr., last December, had his trial last week. The jury brought in a verdict Sunday morning of not guilty. The verdict was generally a surprise to the public. Several witnesses identified him as being the man that accompanied Pat Crowe when he rented the house in which Cudahy was imprisoned; was also with him when he bought the "bay" pony, and young Cudahy swore positively that he was the man that put him in the buggy when he was carried away, and that Callahan was the man who stood guard over him most of the time while he was a prisoner. Judge Baker, the trial judge, was as much or possibly more surprised at the finding of the jury than the public. He remarked under the verdict was rendered: "It is impossible for me to understand how twelve intelligent men could have agreed upon such a verdict after listening to the testimony. The defendant could not have chosen more wisely if he had been selecting his own representatives and the community could not have made a more unfortunate selection. This jury is discharged without the compliments of the court."

Lamber Walker of Walworth, is a city visitor to-day.

The attention of our readers is called to our business and official directory started with this issue of the REPUBLICAN. We have been unable to see all who desire to have their business represented. There is still room and their cards can be inserted next issue if parties so desired will call and leave copy at this office. The REPUBLICAN is not only the best advertising medium in central Nebraska because of its large circulation but the directory makes a fine showing for the town and every profession and business should be represented. Parties wishing to transact business in Broken Bow are solicited to consult our directory for reliable and enterprising men with whom to do business.

Lightning's Destructive Work.

Last Saturday morning about four o'clock, lightning set on fire the barn of C. S. Lawrence, a farmer six miles east of the city, and burned the barn, four horses, a colt, harness and other contents of the barn. Only one horse escaped. By some means she managed to break loose. As Mr. Lawrence has only part of his crop in, it places him in hard circumstances with only one horse and no harness. Mr. Lawrence is an industrious young man and a good citizen and has the sympathy of the community in his severe loss.

Hogs Plentiful and Healthy in Custer County.

The South Omaha Stock-Journal of the 29th of April, contained the following complimentary report of the sale of a car load of hogs, by one of Custer county's most highly respected citizens. For the information of others who may want to ship to the same commission merchant who secured such good prices for Mr. Francis, we will state that Geo. W. Burke Co., of South Omaha, handled his hogs for him:

"C. S. Francis, a successful stock raiser of Merna, sold a load of 300 lb hogs at \$5.75. They were a nice lot of eleven-month-old porkers and were well fattened. Mr. Francis has lived in Custer county fifteen years and has had no trouble with cholera in all that time. They raised a good crop of corn out there last year and have a nice lot of hogs to market this spring. He says farmers are well up with their spring work and everything is in a flourishing condition."

TO MY - PATRONS

The ST. PAUL FIRE AND MARINE INSURANCE CO., has been engaged in the Hail business for the past seventeen years. Within that time it has paid for losses by Hail over three-fourths of a million dollars. This large sum of money has been paid to the satisfaction of the claimants.

The Hail policy issued is the fairest and most equitable ever issued by an insurance company. It carefully protects the interest of the insured and provides a just method for arriving at the amount of the loss in case the crop should be injured by Hail.

This is the only Stock Fire Insurance Company in the United States engaged in the Hail business. It has ample assets to cover all liabilities, and it pays its losses promptly and honestly.

Don't be humbugged by irresponsible companies and agents.

I solicit your business for 1901.

DR. PRICE'S Cream Baking Powder

Each time the United States Government has officially tested the baking powders the report has shown Dr. Price's Cream Baking Powder of superlative leavening strength, free from alum, absolutely pure and wholesome. This is gratifying, for Dr. Price's Cream Baking Powder is depended upon by millions of people to raise their daily bread.

NOTE.—These Government inquiries also developed the fact that there are many mixtures upon the market made in imitation of baking powder, but containing alum or other caustic acid whose use in food is dangerous.

PRICE BAKING POWDER CO. CHICAGO.

Fred Baisch, who has been trying his luck in the west for several months, returned to Broken Bow Monday night, and will resume his old place as clerk in Haerberle's drug store. While gone, Fred worked at Missoula and Great Falls, Montana. The Republican extends a welcome to Fred in behalf of his many friends who will be pleased to see him at his old place of business.
