**THE CENTER OF THE EYE**  
Should come directly in the center of the lens—sometimes not always. Whether your eye should look through the upper, lower, inner or outer part of the lens is immaterial to you, but that you should look through the right part is of the utmost importance. A knowledge of the eye that will enable us to place the lens properly is what I offer you. The wrong glass wrongly placed will injure your eye, the right one rightly adjusted will strengthen it.

Fred Rinne turned over his lunch room and fixtures, including what stock he had on hand, to Mr. Watson, of Grand Island, for the sum of \$250, June 1. It was just fourteen years today since Mr. Rinne engaged in that business in this city. His place was a popular resort and he made money. He expects to leave soon for California where his family resides. Mr. Rinne has made many friends while a resident of this city who will miss him and regret his departure.

J. G. Brenizer has recently bought 1900 acres more of land joining his Fleming valley ranch south of town. His new purchase gives him 2400 acres in a body. It comes within a mile of town and extends south to S. B. Thompson's ranch. It contains some of as fine farm land as there is in the county, and the rest is excellent pasture. Mr. Brenizer is one of the pioneers of Custer county, and his late investment is a strong testimonial for Custer county real estate. He is a conservative and successful business man, and those who want to invest their money where they are sure to realize a good interest on their money, will do well to follow his example and buy Custer county land while it is yet cheap.

J. B. Osborn, county clerk, was a Mason City visitor Tuesday.

In the upper rooms will be conducted the normal department, and the lower rooms for the commercial and banking departments. The proprietor has offered to put the building in shape for occupancy on a lease of five years. The club thought the enterprise worthy of assistance, and appointed a committee consisting of Messrs. Bowen, Wilson and S. P. Groat to see the business men of the city on the proposition as the building would be a most elegant building for the school and there will doubtless be but little trouble to secure the required amount. The promoters of the school have received very flattering encouragement and already have a large list of prospective students enrolled. Later—The
