 Entered at the postoffice at Broken Bow, Neb., as second-class matter for transmission through the U. S. Mails.
 SUBSCRIPTION PRICE:
 One Year, in advance, \$1.00
 THURSDAY, JULY 11, 1901.

At the old settlers' meeting in Lindley's grove yesterday the prospective candidates for office on the fusion ticket were thick.

Politics is getting to a red-hot heat in the fusion ranks of this county. The trouble seems to be that there are not enough offices to go 'round.

J. F. Foxworthy, of Ryno, is a candidate for the republican nomination for county clerk. Mr. Foxworthy has been one of the wheel horses in the past few years, a faithful worker, a good citizen, and is worthy of recognition. Should he get the nomination and be elected, he will prove a faithful officer.

The Beacon and Chief last week contained a letter from some poor unfortunate fellow who is sore. He has evidently been disappointed in his political aspirations and seeks to blame the present chairman of the county central committee for it. In fact there has been no plums given out since the present chairman has held his position, and none to give out. From the tone of the letter we infer that the writer can see no good in anything he does not control.

President McKinley has issued his proclamation which provides for the opening of the Wichita, Comanche, Kiowa and Apache Indian reservation Aug. 5, to settlement. Opportunity for applicants to register will be given from July 10 to July 29. Those who register will be given from July 29 to Aug. 1 to draw their numbers. On Aug. 6 will begin the filing of homestead entries and will continue from day to day until the land has all been filed on. Old soldiers can make application through an agent, but no one can file for more than one person.

Our friend J. C. L. Wisely, publisher of the Sargent New Era, Leader and Comstock Index, had a labored editorial in the New Era of June 29, on the question of legitimate news. From the tone of the article it appears that some had criticized him for publishing the fact that parties in Sargent had the smallpox. Mr. Wisely has been in the newspaper business for thirteen years, which is sufficient for him to learn that he cannot please every body. The man who commits a crime never wants it published. In fact many things are real news and of public interest, is chaffing to one or more individuals to have them published. A newspaper must expect criticisms and the only thing to do is to continue to publish the news. Some times he may be able to polish them up and take off the rough corners, so as not to wound too deeply, but publish the news just the same. It is a false idea that a town or community will be benefitted by suppressing matters of a public character. Such a policy, persistently adhered to, would bring the newspaper and its editor into disrepute in the community and materially cripple its business. We do not believe the public is benefitted by publishing every little personal matter that may transpire and many such things should be suppressed. For instance a personal encounter between A and B is better left untold. But it is of public interest to know that a town or village that has cases of smallpox is putting forth every legitimate means to prevent its spread and the publishing of the names of the afflicted is a means that will protect the public from running into it and becoming unnecessarily exposed. The newspaper that deal honestly with the public will never lack for supporters notwithstanding it will make an occasional enemy in so doing.

Political Prognostications.

From present information the fusionists will have no lack of candidates for the several offices to be filled at the fall election in this county. For superintendent of public instruction, several feel called upon to step in Supt. Tooley's shoes. Those already talked of are, John Murray, Geo. Gunn, and J. E. Adamson. This array of candidates have not caused Supt. Tooley to lose hope and he is still in the race and will be able to show considerable strength in the convention; in fact some of the more conservative of the fusion faith estimate his strength greater than all the others if combined, but they will never be able to combine.

For sheriff, Eli Armstrong has already received a sufficient following to secure the nomination on the first ballot, unless some unforeseen accident happens to the machinery. The wily sheriff has the matter well in hand and by a liberal application of water and oil, at the proper time, friction will be prevented, notwithstanding that Levi House will endeavor to show that the best of the machinery has some flaws, and that there has been some glaring breaks made in the office of the present sheriff in the past two years.

To be register of deeds is very much coveted by not a few. It is a four years' run without water or fuel, and the far-seeing pop sees that before another four years roll around that his party will not only have no offices to give but that the sexton will have performed the last duties for that once proud party of Custer county. V. J. Sierdy feels that he could fill the position credibly while G. W. Healy insists that the crowd owes him a balance of long standing that must be paid now or never. Then there is Abe Norton who passes the qualifications for a pop official who for his long years of loyalty has only been given the crumbs that Berwyn township could furnish in the office of township assessor. Jason Evans, of Sargent, has wept with those who wept time and again. He has ever been in the front ranks and usually furnished any majority that the central committee asked from Sargent, from 100 to 200 as the emergency seemed to demand. He insists it is his time at the bat and there are not a few of his faith who are ardent supporters of him for the position of register of deeds. The present incumbent sees no reason why a faithful officer should not continue for services rendered, rather than fill such an important office by one inexperienced. This view is shared by many of Mr. Jeffrey's friends yet we are informed that he does not contemplate suicide, should the "machine" rule him out.

C. G. Empfield has been a carrier of wood and a drawer of water for the party, for these many years. It is said that he will come up from Custer with a solid delegation urging his claim for the office of register and will urge in addition to his loyalty all these years, that he is especially qualified for the position from the fact that he but recently graduated from a business college in Lincoln. But as qualification is a secondary consideration in the fusion convention that will not help him besides he has recently married a wife which should be glory enough without being exalted into an office of four years' duration.

Several covet Joe Osbourn's position of County clerk, but the leaders have not yet determined whether to relegate Joe to the farm after this year or not. In fact he is getting some flattering support from unexpected quarters and they are a little afraid to turn him down. But that little ruling of his last fall in which he refused to allow mid-rollers a place on the ticket will not down, and they don't know just what to do with him.

As the present county treasurer holds the bag and funds are very much needed to lubricate the machinery, the ringsters have decided that no other applicant shall be considered unless he deposits a

handsome sum as a retainer with the committee. With the uncertainty of election no one is liable to do that, it now looks as if Mr. Schneringer will have a clear field.

There are several of the ring who would like to get rid of L. E. Koon as surveyor, but just who they can find willing to make the sacrifice, is giving them no little trouble, but the decree is that Koon must go.

The County judge problem is about settled. J. R. Dean has been selected for the sacrifice, and as chairman of the compromise committee, he is regarded as the Moses who will again lead their host into the promised land. His mid road tendencies last fall and close friendship for J. R. Rhodes, who is again in the saddle it is claimed will make him a strong candidate. All this does not discourage Judge Shirn's friends as they insist that this year the Judge should be vindicated, while there are others who think C. W. Beal would be better than either of the others.

Editorial Association.

The newspaper publishers of Custer county met Monday night in the club rooms over Haebler's drug store in this city, and organized the Custer County Editorial Association.

All of the papers but two in the county, were represented—M. C. Warrington, of the Mason City Transcript, and F. W. Conly, of the Callaway Tribune. Both signified their approval and will join the association.

A committee on rules and regulations were appointed, consisting of Tom Wright, Geo. Mair and E. R. Purcell.

After hearing and adopting the report of the committee, a permanent organization was effected by the election of the following officers: D. M. Amsberry, president; Tom Wright, vice-president; Roy Barnard, secretary-treasurer, and E. R. Purcell, Auditor.

The object of the organization is the social and financial welfare of its members.

A rule was adopted establishing a uniform rate for legal advertising which already is adopted in several counties of the state.

The executive committee, which consists of the president, secretary and auditor, was authorized to arrange for an excursion to the northwest some time in the near future, when convenient to the greater number of the members and ladies.

E. H. Dalbey, proprietor of the Broken Bow Cigar factory, sent his compliments in the shape of a box of his best cigars, which were appreciated by the members of the craft, and at the conclusion of the business the members repaired to Watson's restaurant, where the Broken Bow publishers had arranged for refreshments for the members of the association. The spread was an elegant one, and Mr. and Mrs. Watson proved themselves adepts in their line. The occasion was very much enjoyed by all.

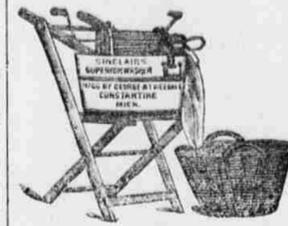

Why Live in Darkness, When You Can Buy a Lamp of John & Knerr So Cheap.

SOMETHING NEW!

The Folding Automatic Superior Washer.

A combined washing machine and folding stand,

(Patented, April 4th, 1893, and numbered 494705.)

Address,
A. A. COLLOM,
 BROKEN BOW, NEB.,
 Agent for State of Nebraska,
CARE OF
George & Tweedale,
 MANUFACTURERS,
 Constantine, Michigan.

This invention, though rather novel in construction as a washing machine, is gotten up on principles that give a great rapidity, ease of operation and thorough cleansing of all kinds of dirty fabric without the least damage to it.

Speed, Ease of Operation, Thorough Cleansing and without damage to fabric are the Four Main Points of advantage to be looked for in the purchase of a good washing machine, because,

- 1st. "SPEED." Saves time.
- 2nd. "Ease of Operation." Lessens the burden of wash day.
- 3rd. "THOROUGH CLEANSING." With most persons, is the main object in view.
- 4th. "DAMAGE DONE TO FABRIC BY WASHING." No doubt amounts to millions of dollars annually.

SPEED CLAIMED FOR IT.

A bed quilt in 1 to 15 minutes, (give you an hour with your wash board to do the work as well) 3 to 5 sheets in 2 minutes; 1 table linen and 50 napkins in 2 minutes; 20 towels to your 1 on the wash board; the dirtiest meal or wheat sack in 1/2 minute; 15 feet of carpet in 3 minutes, and all classes of other goods as fast, just in warm suds as prepared for hand washing.

EASE OF OPERATION.

The force or pressure to be applied in order to move this machine in washing even an ordinary bed quilt will run from about 5 to 10 pounds. Boys and girls from 10 to 15 years old operate it successfully.

THOROUGH CLEANSING.

There is no class of dirty fabrics it need ever shun, from the largest to the most delicate. It will thoroughly cleanse the dirtiest wristband, collars, cuffs, and most soiled hems of skirts, dresses, etc. The truthfulness of which assertion many ladies have their opinion, never having seen a machine that would wash such parts perfectly except the old washboard. To see it for yourself is proof of all the merit claimed for it.

NO WEAR, NO TEAR.

It will wash anything from the oldest and tenderest bed quilt down to the most delicate fabrics, or even a \$100 greenback bill, or piece of paper without damage.

Retail Price, \$7.00 Complete.

Inventive Genius has never gotten up for family use, a washing apparatus, as complete as the mind can imagine one should be. A Washing Machine that would do a large family washing in 20 minutes, without any labor, expense or damage to the fabric, would retail for all kinds of money—say from \$100 to \$2000 or more.

HIGHEST AWARD.

THE BEST IN FRANCE!
 BEST IN AMERICA!
 BEST AT WORLD'S FAIR!
 THE BEST IN THE WORLD!

Parisian Inventor's Academy,
 Arts, Mechanique and Scientific
 Society's Building, 57 Boulevard
 de Strasbourg.

You can save money by ordering your reading matter through the REPUBLICAN. We can furnish you nearly all the papers and magazines for less than publishers prices.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good. It used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail. —Mrs. Curtis Baker, Bookwater, Ohio. Sold by J. C. Haebler.

THE HOME GOLD CURE.

An Ingenious Treatment By Which Drunkards are Being Cured Daily in Spite of Themselves.
 No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure For Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to the directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of drunkards into sober, industrious and upright men. Wives Cure Your Husbands. Children Cure Your Fathers. This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Home Gold Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe to-day that they discontinued drinking of their own free will. Do Not Wait. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E 177, EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia. All correspondence strictly confidential.
