his own merits and should he succeed there will be no sore spots.

We anticipate a large attendance at the republican convention Saturday, notwithstanding the busy season of the year.

Wisdom would dictate to those seeking office that it does not pay to try to build up their own chances by trying to destroy the reputation of their political rival.

The pop candidates, who are praying for a rip roaring row in the republican county convention, are destined to have the jim jams when the convention is over.

Custer county will have one of its old time republican convention next Saturday where business and enthusiasm will be marked features. Come out if you want to enjoy a day worth all it costs.

Next Saturday the republicans will meet in Broken Bow to name the county officials for the ensuing term. By selecting the best and strongest men for each of the offices their hopes will be realized. Should local prejudice, personal ambition, control the convention conform to everything but facts. keep the fourth commandment on M. Kimberling, I. A. The populists of Custer county have again "resoluted" against fusion. And when the democratic leaders of the party have again forced fusion in the state the populists of Custer county will bob up serenely and again vote for that which they have so strongly "resoluted" agains'. We are speaking now of the majority of them. If there is a socialist ticket in the field it will be apt to get a good many of their votes .- Sargent New Era, (Pop)

Office seekers are bobbing up all over the county, and in one or two instances have sent announcements of candidacy to this paper for publication, which we refuse to publish unless accompanied by the necessary cash. If things of this nature are worth publishing they are worth paying for, and the office seeker who cannot afford to help the paper vention to be held at Lincoln need not expect much help from Angust 28, 1901, and also for the the paper. While They Talk We Do Business.

The astronomers at the Court of Spain in the fifteenth century proved quite to their own satisfaction. first, that the earth was not round and secondly, that, if it were, Columbus could not sail around it or even half way around it. But even while they were proving this, Co. umbus went ahead and did sail half way around and discovered a new world. The Free-Trade press proves daily to its own satisfaction that we can never have an export trade worthy of the name; that we cannot sell our goods to other coentries so long as we maintain our protective tariff system and refuse to let the rest of the world come in and monopolize our home market; and while they talk we go on selling our goods to other countries to the extent of more than a hundred million dollars worth a month. There is nothing in any way remarkable about this divergence be-

Although Custer county populists have turned their backs on fusion. by nominating a straight populist ticket, yet it is resonable certain that fusion will be the program on the part of the state organizations In the matter of election for supreme judge it will depend somewhat upon the action of the conventions as to weather any great intrest will be taken in the election or not, Should some canidates be nominated on the order of Judges Holcomb and Sullivan, it is not anticipated that corporative infigences will exert much energy or spend much money in defeating him, but if the press and political workers in antagonism to populsim can defeat him nothing will be thrown in the way to prevent their doing so. However, should the conventions get away from the managers and nominate some crazy headed ignoramus, as was done at the time Edgerton was nominated, there will likely be a hot campaign with chances all against the man on the populist ticket. What may be looked for, however, is that the Bryan men, hoping of preserving fusion until next year to run him for governor, will see that a man is nominated for supreme judge against whom no serious fight may be made, Republican leaders may agree to this program for they would like to see Mr. Bryan run for governor as much as the national leaders wanted him to ran for president. The work of electing a republican governor would be much easier with Mr. Bryan as an opposing candidate than it would be against others whose names could be mentioned .-Alliance Grip. (Dem.)

The democratic auti-expansionists, who two years ago were denouncing the republican party for extending our national boundaries are now trying to change front. While the Ohio convention, which repudiated Bryan, declared against annexation, the leading newspapers of the east are showing signs of conversion and are urging that expansion was originally of demoratic origin. They evidently see hat their anti-expansion theories have exploded and as it has been their custom they are falling in line with the republican idea after the republican party has established the principle and gone on to new fields of exploration. The republican party, since its organization, has been the party of progress, and the poor old democratic party's fate has been to follow a few years behind. The writer remembers when they declared the civil war a failure, the union soldiers, "Lincoln hirelings" and Abraham Lincoln, was denounced in strongest terms at heir command. Now they seek to honor the union soldier as the hero of his day and acknowledge Abraham Lincoln as one of our greatest presidents. The demo pop wisdom is a marvel and the great surprise is why so many, otherwise intelligent, people continue to affiliate with a party that presists in keeping so far in the backgrounds. Such wisdom is not equal to the boy's pup; which was a democratic pup until he got his eyes open, but after the nine days he was a republican pup. The democraric party when its eyes are open it has so much to see in the past they seem to be unable to correctly diognos the future until after the republican party has developed all there is in

ACCUMULATION OF GOLD

United States Treasury's Slock the Largest in Its History.

Washington, July 30 -The stock of gold in the treasury today is the largest in the history of the government, and is accumulating at the rate of four million five hundred transaction of such other business thousand to five million dollars a month. Teday's figures are \$504,-354,297, of which \$248,660,698 is 000,000 gold reserve. Since July , 1900, the stock of gold on hand as increased about eighty one milon dollars.

he difference between the treasury under a republican protective tariff system and the democratic free trade system that we passed through from 1893 to '97. Instead of issuing bonds to replenish the reasury as we were compelled to do then, we are increasing the stock of gold at a ratio of five million : month, or eighty-one millions in thirteen months. Who is it that wants to go back to free trade day of democracy?
