J. G. Haerberle's drug store had a great run the first of the week on school books. The new order of the school board requiring all pupils to purchase their books was the cause. The board had made Haerberle's store the depository for the books.

Geo. Schwake is in the city in charge of John & Knerr's stock of goods, which he informs us he has purchased. The recent attachments run on the stock by the Farmers Bank and others will, in all probability, prevent a reopening of the store for some time to come.

Serene Pike, formerly of this county, who has been residing at Neosho, Newton county, Missouri, came in Tuesday night on a visit. He is engaged in raising fruit in Missouri and is very much pleased with his new location. Strawberries is one of the paying crops there. He still has 80 acres on the Middle Loup, north of Gates, on which one of his sons lives.

The Callaway Courier says that on Tuesday of last week, one of their dealers in farm machinery sold fifteen corn binders and the dealer gave each of the purchasers a chance on a hay rake. Alfred Schreyer who was one of the purchasers drew the lucky number and took home with in addition to the corn binder a hay rake free of cost.

The Broken Bow Business College opened Monday morning with an enrollment of fifty-eight. This is regarded as a splendid start. Nearly twice as many more have contracted to enter within the year. The building and rooms are in elegant shape and every indication is that the school will be a success from the first. The earnestness which the pupils and teachers manifest in the start protends a successful year.

Ne George of Cumro, had the misfortune to have the wheat that grew on forty acres of land and a hundred or more bushels of oats in the sheaf burned a couple of weeks ago. It was caused by a stack of grain being set on fire by a spark from the engine which was used in threshing his grain. The machine was saved but all the grain not threshed and the straw stack were burned. He had his winter wheat, some of it which yielded 35 bushels to the acre, threshed, and was threshing the oats when the stack caught fire.

The Anthon Press of Iowa in speaking of a balloon ascension given in that town on a public occasion last week has the following in reference to Prof. Ward, the man who has been engaged by the managers of the county fair to give a balloon exhibition at the fair in this county. "Prof. Wards balloon ascension was all that anyone could desire, it darted up like an arrow until it reached point higher than the most of the audience ever saw a man go, when he cut loose the little red parachute which conducted S. S. English's little dog back to earth. The balloon went on and on with the Prof. until the gas gave out, when he cut loose from the balloon and started homeward. His parachute swinging to and fro on account of a broken rope which required his utmost skill to balance and land himself safe on the earth.

It was pronounced by all present a perfect success."

Last Saturday and again yesterday this locality was favored with nice rains.

All ministers of Custer county are invited to be present at the ministers meeting in the study of the U. B. Church, next Monday at 2 o'clock p. m.

Broken Bow schools opened Monday morning with an unusual large attendance. Prof. Macy with his able corps of assistant teachers starts out under most favorable auspices and we predict for them a successful school year. It is possible more teachers will have to be employed to provide for the increase attendance later on.

The Panoramic Pictures at the U. B. church last Sunday evening drew a fine audience and commanded excellent attention. The subject next Sunday night is one which has brought from the painter, the poet, and the orator his greatest effort. The pictures on "Jacob's Ladder" are of rare beauty showing the artists most skillful touches and finely blended tints and colors. It also contains deep spiritual truths and practical lessons of Christian life. The morning subject will be "Spiritual Surgery". A welcome to all. Come early and get choice of seats. Special music.

Call for Supervisors Convention.

The republican delegates in district No. 2, are hereby called to meet at the Round Valley school house, on Saturday, September 21, at 1 o'clock p. m., to nominate a supervisor to be voted for at the general election, in November, 1901. **W. S. METCALF, Com.**

The Farmers Bank Closed.

The Farmers Bank of this city closed its doors yesterday on an order from E. Royse, secretary of the state banking board.

The bank suspended payment at 11 o'clock Tuesday hoping to be able to secure currency to resume payment Wednesday morning. Failing in that the bank was not opened.

The closing of this bank will not effect the other banks of the city and it is thought the depositors of the closed bank will be paid in full. The county's deposit of \$4,500 is protected by a bond.

Slow collections and poor paper are said to be the cause. The July statement of the bank showed \$13,147.44 available cash. The liabilities at the present time are reported to be \$48,000, with assets sufficient to pay out.

The necessity for closing the bank is very much regretted by all, as it effects the whole community, and especially the depositors, many of whom, doubtless, can ill afford to do without the use of their money temporarily.

**Our Exchanges.**

Sargent Leader—

Mrs. Mary Rainard, of Pawnee, Oklahoma, a daughter of N. B. Predmore, of West Union, arrived here Monday night, and will visit with her parents and relatives.

A very painful and serious accident befell the young son of Wm. Vogelar last Thursday. He and his brother were playing with a corn knife, when by some careless movement the other boy brought it across his brother's face, cutting the eyeball open. He was brought to Dr. Hogan, who did his best for the little sufferer.—North Loup Loyalist.

Lorn McCargar returned last Friday to his home at Fort Scott, Kansas.

Mr. Sims of Berwyn, has moved his family into the Cottage hotel.

We understand that they intend to run a hotel.

Warren McRae and family passed through town in a covered wagon Monday. They were going on a visit to friends in York county.

Lightning struck the house of Will Smith last Friday night, but did no serious damage.

Moses Daniels, a son of Tip Daniels, is laying dangerously ill with typhoid fever at Alliance.

John, the three-year-old son of George Davis, was kicked in the face by a horse Tuesday, inflicting an ugly gash. The child was wandering to the stable and was playing around the horses.

Mary Sharpless went to Broken Bow Tuesday to get her teacher's certificate renewed. Saturday morning she goes to Litefield, where she will commence teaching Monday.

We understand that someone got into J. R. Lang's melon patch last Thursday and smashed up nearly all his melons and tore up the vines. This is a very little trick and shows how low some people stoop in order to do some low down coward trick.

Among the Anselmyites who will attend the Broken Bow Business College the coming year are Ogle Russell, Ruby Pinkley, Libbie Scott and Charles Davies.

Ray Zimmerman left this morning for Eldorado, Kansas, for a two months stay.

Gardiner Housel finished threshing last week. His wheat averaged 22 1/2 bushels and his rye 30 bushels per acre.

The garden spot of the world has at last been discovered and on it was located a small field of winter wheat belonging to James Fisk, who lives three miles east of town.

It threshed out 35 bushels per acre. Where is there a county in the state that can beat it.

Callaway Courier—

S. H. Yoder, formerly of this place, now of Lexington, is a candidate for the nomination of judge of Dawson county.

Allie VanAntwerp has contracted to commence a six months' term of school in the Lind district October 1.

Prof. Harry Kimball, of Broken Bow, made his appearance at Lodi last Monday. He will commence a term of eight months' school at the Gornish school house next Monday.

A yearling steer belonging to Clark Welliver, of Logan precinct Dawson county, came up missing, and although a hunt was made for several days no trace of it could be found. Sixteen days after its disappearance it was found. It had been feeding along when it got directly over a wolf den, which caved through, wedging the steer into the hole in such shape that it could not get out. The only food it had in the sixteen days was a little strip of grass on each side of the hole, near its head, and the only water was the occasional showers that wet the grass. The animal was taken out and although not in the sleek condition that it was, it was provided with water and food, and is now all right.

**\$500 Reward.**
