It is the fashion now to go up on the Dismal fishing and plugging. Don't fail to follow the fashion.
The crowd that went fishing up to the Dismal started out happy and merry as larks, but their return home after a week's stay was very different. They came home one by one and a more woe begone set would be hard to find. They don't want to fish any more this year. "It is against the law any way."

The supper will be one week from Friday, the 16th of September. Every one is invited. A small sum to cover expenses will be charged to those who did not attend the bee.
The Custer Baptist Association.
The eighteenth annual meeting of the Custer Baptist Association was held Friday, Saturday and Sunday, of last week, with the First Eudell church, near Camro. All but two of the churches in the association, viz: Burwell and Taylor, were represented. The attendance of delegates and visiting members was the largest for years. In addition to the delegates and ministers, within the boundaries of the association, that were present, were Rev. M. L. Goff, district missionary, Rev. E. A. Russell, Sunday school missionary, Rev. The sessions were all very inter-

esting, and a profitable time was enjoyed by those present.
The generous hospitality extended the delegates and visiting members by the community was highly appreciated by all. Mr. and Mrs. No George and Mr. and Mrs. Ike Mason especially are entitled to much credit for the successful way in which they provided for the entertainment.

South African Situation.
London, Aug. 28.—The editorial in the Times today on the South African situation reflects the cold fit which has followed the optimistic hopes as to the effect of Lord Kitchener's proclamation. Commenting on the meager news from the front, the Times says: "It is quite clear that if we want an end of the war we must strike hard and often. Proclamations and block-houses are all very well and may be useful, but the experience of the Spaniards has shown that the most sonorous proclamation is without little good without plenty of men and horses."
Whitecappers to be Prosecuted.
Liberty, Mo., Aug. 28.—Whitecappers, who on Friday night last, dragged Mrs. Etta Fiske from her house and ordered her to leave town, are to be prosecuted. Merriman Shelton, a blacksmith, has been arrested on a state warrant, charging him with complicity in the affair. Mrs. Fiske has identified him as the alleged leader of the gang, and her father is aiding her in the prosecution of the other members. Mrs. Fiske, who is a widow, had left her second husband, and it was for this that the whitecaps attacked her.

Fully 20 persons fell when the sidewalk gave way, most of them striking on a pile of bricks and stones. The distance was over 20 feet.

CHICAGO POLICE SCANDAL.
Chief O'Neill Tells of Confession of Accused Detectives.
Chicago, Aug. 28.—The connection of Sergeant Cramer, Detective Tracy and Lieutenant Joyce with the bogus expense account which has enveloped in scandal the detective bureau and its chief, Captain Collieran, was told yesterday by Chief of Police O'Neill, who took the stand during the afternoon session of the civil service commission, sitting as the trial board to investigate the matter. The denunciation created a sensation when Chief O'Neill told of the confession of his subordinates. The chief also told how Captain Collieran and Lieutenant Joyce, as he alleges, received their share of the spoils. The only thing not revealed was the source of information that led to the unearthing of the scandal. Attorney Gash, representing Lieutenant Joyce, made many attempts to confuse the evidence of the chief of police. Gash charged that the chief was making false statements and said that the witness was actuated by an unfriendly feeling toward Lieutenant Joyce, all of which Chief O'Neill denied indignantly.

OIL GUSHER KILLS ANOTHER.
Peter Gallagher Drowned in Attempt to Control Beaumont Geyser.
Beaumont, Tex., Aug. 28.—The Palestine Beaumont oil well is still throwing a stream of petroleum 70 feet high and it has added the death of another to the two it caused yesterday. Peter Gallagher and two companions about 2 o'clock went into the spray of gas and oil and Gallagher was drowned. F. W. Chase, an expert submarine diver, came in from Galveston yesterday morning. He found no difficulty in staying in the spray while encased in his diving suit, but he had to work slowly. At 7 p. m. the pipe had been raised sufficiently to permit the unscrewing of a joint. This will be done today and it is believed that the well then will be closed with little difficulty.

Abrams, state superintendent of the Iowa Anti-Saloon league, was dismissed from office by the league at its state convention in Des Moines yesterday because he had publicly announced that he would for A. REPUBLICAN CLUBS MEET
Walter Leese of Lincoln Elected President of League.
SHAW TALKS ON COMMERCIALISM
Delegates to State Convention Gather at Lincoln—Choice for Supreme Judge Open to the Field—Ernst Leads for Regent of State University.
Lincoln, Aug. 28.—The annual meeting of the Nebraska League of Republican clubs was held at the Auditorium yesterday afternoon, with the largest attendance in its history. The address of the retiring president, E. M. Pollard, was a summary of the work of the league in the past campaign, which he declared was a potent factor in wresting the state from Populist control. The report of the committee on resolutions was brief, congratulating the party on its victory and commending the national and state administration.
Walter A. Leese of Lincoln was elected president. Last night the league members were addressed by Governor Shaw of Iowa, who said in part: "By the application of Republican policies we have won mercantile independence and are well started toward the conquest of the commercial world. The same purpose must actuate Republicans in the future. American labor must have employment and to that end American capital must find avenues of profitable investments. But American markets are no longer sufficient. The time is on us when we must secure new outlets. In 50 years our agricultural products have multiplied by four, while our manufactures have multiplied by 11. We are consuming an ever-increasing proportion of the products of our farms and exporting an ever-increasing proportion of the products of our factories. The demand for new markets now is but a whisper compared to the cry of coming years. The best that can be done for our industrial interests is to open the ways and broaden the channel of trade. How can this be done? I answer, in many ways and all ways. Reclaim the arid portions of the states bordering on the Rocky mountains and if no more feasible plan be presented charge the expense to the lands benefited, encourage a merchant marine, construct an isthmian canal, continue to improve our consular service, and above all, secure convention rights in the ports of Europe and an open door throughout Asia. The principle of reciprocity must be put in operation or it will never again require the declaration of a party platform to convince the American people that the whole theory of reciprocity when it comes to actual practice is a failure. The future of reciprocity must not depend upon the ratification of any particular treaty, but reciprocity as a policy, if not already, will soon be on trial, and on trial for its life. It must be either applied or abandoned. I do not say that commercialism and statesmanship are synonymous terms. But if legislating for the protection of our own markets and the acquisition of others is commercialism, then commercialism is by no means an unimportant element in American statesmanship."
No Change in Cuban Tariff.
Washington, Aug. 28.—It is probable that there will be no change in the Cuban tariff. The commission which has been revising the present tariff has not yet reported. It was stated at the war department yesterday, that such good progress is being made on the formation of a Cuban government that the revision of the tariff for Cuba probably will await action by that government.

Her captor, driving at breakneck speed, was pursued by policemen in a patrol wagon to Ravenswood, a distance of two miles, where the officers' horses were distanced and all trace of the kidnaper lost.
Shot by Jealous Husband.
Frankfort, Ind., Aug. 28.—Al Kemp was fatally shot last night by George Matthews. It isn't the material that goes into your repaired watch that results in a perfect job, it is the way you know how that does the business. Any bungler can buy the fine kind of material that I use in repairing; but skill is the most valuable material that can be used in watch repairing; and the bungler can't buy it. I sell my skill for what it is worth and it will cost you less than bungling at lower prices.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH by removing the cause, stopping the discharges, and curing all inflammation.
