the pop ticket, notwithstanding we have been urged to do so by some of that party supporters against more than one of their candidates. This policy we propose to adhere to the end, unless forced upon as by the opposition papers. There are times when it is necessary to meet the devil with his own weapons.

Many of the fathers who named their babies Bryan four and five years ago will not be among those who will greet him here next Wednesday, as those who have not, are thinking of changing the names of their boys.

Under republican county board, your taxes are less than ever before, and every dollar of the current expenses has been met. If you want to keep the expenses of the county as low as possible you can do so by electing the republican candidates for supervisors in their several districts.

Jesse Gandy, who announced himself against the pop machine, has evidently been seen, as he is now making regular visits to the Beacon, with accusations against the republican candidate for sheriff. Like a drowning man, the Beacon is ready to grasp at a straw, and is ready to promulgate any charges that Jess, or any other disappointed office seeker, may concoct, with a hope of fooling the people one more time for the sake of revenue only.

The Nebraska School of Agriculture is especially planned to suit the needs of the farm boy. It opens for a six months' course on November 11, 1901, at a time when the boy can be spared from the farm. This course gives boys and girls some knowledge of English and mathematics and at the same time gives them instruction in the practical subjects which are essential to successful life on the farm. Write to the University of Nebraska for information.

Jesse Gandy called Monday and had his name enrolled for the Republican. Jess has been borrowing it of R. D. Sullivan all fall, but as Darr will not promise him the deputyship, he has joined with the Beacon to defeat him, and he "wont play in his back yard anymore," nor Sullivan "can't slide down his cellar door." Thus it is, and the old adage, that "it is an ill wind that blows nobody good," has again proven true, as Jess has contributed fifty cents to the republican campaign fund, which, we think is sufficient, when used by the Republican search light to nullify all the cock and bull stories he may relate to the Beacon.

"The authorities at the state penitentiary have just discovered that a convict who has been there well onto a year, and who was supposed to be a man, is really a woman. This is another evidence of the fact that our redeemer liveth."—Beacon. The Beacon very studiously avoids saying that this woman was admitted to the pen while the pops were in charge last year. It is owing to the incompetency or knavery of the pop management that she was accepted without exposing her sex. Had there been no change in the administration, doubtless her sex would not have been exposed, but would have still remained in the men's apartments instead of the women's, where the republican management had her transferred immediately.

The Beacon has now changed its tactics and is seeking to prejudice the Catholic voters in favor of Murry on his religious belief. It not only shows poor judgment, but poor politics. No man should be elected to office because of his religion, but upon his qualifications for the position to which he aspires. We claim for Mr. Lewis superior qualifications for the office. He is regarded by the teachers of the county as one of, if not the best, educator we have had in the county. He is a college graduate. He is a young man of practical experience as an educator. He is a gentleman of strict morals, and is the best man for the position.

During the last few years a great change has taken place in the attitude of the farmer upon the subject of agricultural education. This has been due to two causes. First, agricultural education has become much more practical as the schools have realized that the farm boy needed to know how to cultivate the soil, to care for an orchard, or to feed cattle in the best manner, or to do some other particular thing. If the farm boy can be taught how to breed or select a good steer for feeding purposes and how to feed him at greater profit, this surely makes his business more profitable. If he can be taught how to handle animals to prevent disease or to cure the simpler and more common diseases of animals, this certainly is a practical kind of education which should be added to a knowledge of arithmetic, geography, etc. Write to the University of Nebraska for information.

Every man nominated on the republican ticket in Custer county is competent for the position he seeks. They are all honest, capable men, and if elected will conduct the affairs of their respective offices in a manner that will meet with the approval of the people.

The republican candidate for sheriff will carry Eli Armstrong's home township by a good round majority.

The Beacon is claiming the republicans burned the Norfolk hospital intentionally. Wouldn't that cork you?

If we were editing a populist newspaper, we would keep very still about third terms, after having supported Hiatt and Kem for a third term.

committeeman of his own party and followers, sat down upon him, and sat down hard, Jason's popularity in the southwest quarter is ninety-nine degrees shy. Candidly, now Eli, don't you wish you had the former populist organ of this place fighting your battles for you in the southwest quarter just now? Don't you wish you could have looked ahead just one short year? Think of the votes you have lost by killing the populist paper here. You would dish out a whole lot of your patronage in this direction if you could recall that step, wouldn't you, Eh? But don't worry over spilled milk, old fellow. The boys (your former friends, Eli) are going to send you out on the farm where you won't get into just this kind of a sorap again. Reciprocity, Eli, RECIPROCIETY.

Winter Reading on the Farm. Long evenings are here again and naturally one thinks of a good family agricultural weekly, because its regular visits are welcomed by the whole family.

The Twentieth Century Farmer is out of the rat in which most agricultural papers travel. This is true particularly of the splendid illustrations from photographs taken by their own artists and special articles by the best known and most practical men in every branch of agriculture, such as N. J. Harris, secretary of the Iowa Seed Corn Breeders' association; H. W. Campbell, the authority on soil culture; James Atkinson of the Iowa experiment station at Ames Ia.; Frank G. Carpenter, famous for his letters of travel; C. R. Thomas, secretary American Hereford Breeders' association; B. O. Cowan, assistant secretary American Shorthorn Breeders' association; Dr. A. T. Peters, Nebraska experiment station; E. F. Stephens, president Nebraska Horticultural society; Woman's Department, conducted by Mrs. Nellie Hawks, Friend, Neb. J. J. Edgerton of the Iowa Experiment Station will answer all questions relating to live stock matters.

This is a weekly agricultural family paper, in which the farmer's wife is particularly interested on account of the pages devoted to her particular interests. In fact, there is no paper published either in the east or west that meets so well the wants of the western farmers and stock raisers and their families.

If you do not get it send 10 cents for a ten weeks' trial subscription to The Twentieth Century Farmer, 1559 Farnam street, Omaha, Neb., and you will have an opportunity to become acquainted with it. A dollar will bring it for a whole year. 10-10-24

We have seen the frail infant when the faint struggle for existence seemed almost ended, resuscitated and made strong by the use of WHITE'S CREAM VERMIFUGE. Price, 25 cents. Ed. McComas, Broken Bow and Merna.

It Happened in a Drug Store. "O e day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. K. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by J. G. Haebler.

The fact that Prof. John Lewis will be the next superintendent of Custer county's public schools is a dead sure certainty. Not only is he best qualified to fill the position—but the Beacon is fighting him hard. What more evidence that he is a good man does any voter want?

We are told that Jason Evans was in town one day recently but only remained a few minutes. The reason of his short visit is no doubt sufficient cause, as the ex-central
