CHAIN CHAT.

Have you seen 'em?
The new stiffened gold chains—
two plates of solid gold on the
outside of a composition metal.
Better than solid gold because
more substantial, all the richness
of design, all the carefulness of
finish given the most expensive
chains.
Whatever one's occupation, or
social rank—the most satisfactory
to wear, the most profitable to
buy.
See 'em.

If the county must pay for the pop campaign we would suggest that there are plenty of farmers who would do the work for at least one third it cost to pay Mr. Schneringer.
