The Bridge and Bridge claims committee made the following report on county line bridge between Custer and Dawson counties.

MR. CHAIRMAN: W-, your committee on bridges, beg to make the following report: We have examined the bridge built on the county line between the counties of Custer and Dawson, and find very un-atisfrictory results. The bridge is not built in a workman-blp manner, is not 16 feet wide, the plank are not laid properly, being isid alagonally with the bridge, thereby narrowing the bridge some 2 feet, and only using 36 foot plank on a 46 foot bridge. The floor plank are 2x12 hard pine in place of the 3 inch fir used on our own bridges. The bub planks are 2x6 instead of 2x5's. The supporting posts to our bannisters are set 8 feet apart, and we find them set in feet on this orlige. We find 8x3 caps used in place of 8x10 and are only to feet in length, thereby doing away with the brace on the supporting posts to the banister which we find a greelous defect. The caps are fastened by drift pins only, making a much less secure joint than where the caps are strapped to the piling. The pice asked for by Dawson county is \$134,80, making \$6.74 per foot, which is an exhorbiant orloc.

Now, Therefore, We, your committee, do move tha Dawson county be allowed the sum of \$77,40, which is \$3.87 per foot, the price Custer county pays the Standard Bridge Co. for building better bridges. We as o include in this motion that the county clerk be, and hereby is instructed to send a copy of this report to the commission-cre of Dawson county.
