

The Biggest Little Thing

measured by the amount of nutritive value it contains, is the fresh soda cracker. Many people think a cracker an insignificant and easy thing to make—yet no one ever succeeded in reaching perfection until **Uneeda Biscuit** were introduced. To maintain the quality of **Uneeda Biscuit** requires the best of everything—wheat, flour, baker, and bakery.

Uneeda Biscuit furnishes every element necessary to bodily vigor; and, above all, they are fresh and clean. This is due to the **In-er-seal Package**—the package with red and white seal—which protects them from the air, moisture, dust, and other things not best to mention. There's a world of worry, work, skill and care in making a soda cracker like—

5¢ Uneeda Biscuit

NATIONAL BISCUIT COMPANY

ORTELLO.

M. Hill finished corn husking on Saturday.

Flo Thorpe resumed her control of the young "Ideas" last Monday.

Ed. Day, who was husking for his father returned home last Saturday.

J. F. Baker broke his corn shredder last Friday and will have to send for repairs.

A law suit is on for this week before Justice of the Peace J. M. Fodge and is a new thing for these parts.

Thos. Graham, who has husked corn all fall for Mr. Hill began to husk Monday morning for J. M. Fodge.

Owing to the rough traveling and intense cold Sunday there was no preaching service on Sunday evening.

Why does not some one start a store in this "Burg?" People are out of all the necessities of life and cannot get to town.

A cold blast from the Pollar regions struck this community on Saturday evening. Mercury down to eighteen on Monday morning.

There is a move on foot to establish a daily mail route between Arnold and Anselmo via Rest and Ortello and petitions are being signed therefor at all the offices.

There will be a meeting of the stockholders of the Local Telephone Company next Saturday to arrange for more perfect service and erection of new lines to connect at Merna.

RYNO

Arrangements are making to organize a literary at No. 141.

F. D. Pinnel will teach a three months term of school at No. 141.

Miss Downin has regained her health and has resumed her school at No. 236.

The Dutchman's description of a toad aptly describes the condition of the roads, he said it was smooth and lumpy.

The storm on last Wednesday unroofed Mr. Carrels house, blowing down stacks and blowing off considerable corn, followed by zero weather; is moderate this (Tuesday) morning.

R. C. Chumley lost ten head of cattle of cornstalk disease; his herd were in a field of corn for three weeks and as soon as the corn was eaten they died, this explodes the idea of a full feed method before turning in.

I. D. Shuman gives us his experience and success of brome grass culture; he paid \$7.50 for 50 pounds of seed, two years since; he cut and threshed 175 pounds of seed. He says it is adapted to an arid climate growing 30 inches tall; is early, making good pasture and hay. This is not written to advertise seed as he has none for sale.

Developing Better Seed.

Every farmer knows, of course, that one of the worst mistakes he can make is to plant poor seed, but every farmer does not know the difference between the very best seed and that which is not so good. Poor seed is a bad investment, because if it makes a difference of only a few bushels to the acre it is a loss of many dollars. Some of the most interesting experiments of recent years has been the work of breeding better seed and improving it, just the same as livestock has been improved by intelligent breeding.

The Twentieth Century Farmer is publishing a most interesting series of articles by Thomas L. Lyon of the Nebraska Agricultural Experiment station on breeding wheat and corn. These and other articles along the same line should be carefully studied by every farmer who uses his brains in making his farming pay.

You can get a free sample copy by sending your name to The Twentieth Century Farmer, 1859 Farnam St., Omaha, Neb., but it would be worth your while to send in \$1 for a whole year's subscription, or 25 cents for a three-months' trial subscription.

State University News.

Reverend P. S. MacArthur, Pastor of the Calvary Baptist Church, New York City, has been selected by the Senior Class as their Commencement Orator for next June. The subject of Mr. MacArthur's address will be "America's Greatest Place Among the Nations."

Dr. S. Avery of the Chemistry Department has been investigating the cause of cattle dying from eating kaffie corn. He finds it is due to a poisonous element in the corn itself and has written a pamphlet on the subject for distribution among the stockmen.

Up to the beginning of this week seventy five students had registered for the winter course in agriculture. This term lasts from January 5 to March 7. The subjects in which instruction is given includes the following: Soils, field crops and farm management, butter and cheese making, breeds and breeding of livestock, orcharding and gardening, diseases of livestock, english, shop work and a special course in dairying.

Custer County Editorial Association Meeting.

The Semi-Annual meeting of the Custer county Editorial As-

sociation was held in this city Monday night at the Grand Central Hotel.

The entire membership was represented and a profitable and a pleasant meeting was enjoyed. Two more persons were elected to membership. The Association is now composed of the entire newspaper family of Custer county with one exception. It was decided at the next meeting to hold a banquet for the editors and their wives and guests. A committee on program consisting of D. M. Amsberry, E. R. Purcell and E. E. Wimmer were elected.

The association has demonstrated the wisdom of organization and grows stronger with age and experience. In its meetings all local and political differences are obliterated and a good social time is enjoyed.

The New Board

The new board of Supervisors met Tuesday in regular session and was called to order by the county clerk. J. W. Conley was elected temporary chairman. The chair appointed on credentials Supervisors Daily and Greenwalt. They reported that G. H. Thorpe of District No. 3, G. Hiser of District No. 7, J. H. McGuire, District No. 5, and Thos. Arthur of District No. 1, were duly elected and had filed the proper bonds which had been accepted and they were entitled to seats on the board. The order of business last year was adopted. At the afternoon session the chairman announced the appointment of the following committees: Finance, Alvin Daily, G. H. Thorpe and J. W. Conley; Claims, G. H. Thorpe, J. T. Arthur and Geo. Greenwalt; erroneous and delinquent tax, G. Hiser, J. H. McGuire and J. T. Arthur; poor farm, court house and jail supplies, J. W. Conley, G. H. Thorpe and Alvin Daily. On motion of McGure the claim of L. E. Kirkpatrick for \$85.27 that was reconsidered at last meeting was allowed. Voting aye—Arthur, McGuire, Thorpe, Hiser and Daily. Voting nay—Greenwalt and Conley. This fee was for detective work of a detective from Lincoln that Kirkpatrick employed about the time of the county fair in this city last fall. Adjournment was taken to Wednesday morning.

A New Idea in Farm Papers.

Farmers are getting over the idea that farm papers are edited by some man sitting up in an office in the city, trying to tell them how to make farming pay

and that the articles are written by theorists and dreamers, who know nothing of the needs of practical farming. That may have been the case some years ago, but with a modern farm magazine like the Twentieth Century Farmer the editor is a man who is closely in touch with all of the questions that come up regarding how to make farming pay better. The articles in this paper are all by practical men and the farmers who are reading what they say find that it pays to keep posted on the progress which is being made in their own line of work. No doctor would think of practicing medicine without taking several medical journals; neither can a farmer keep up with progress in farming unless he takes a magazine like The Twentieth Century Farmer. For example, some of the contributors whose articles will appear during the next few issues are: F. D. Coburn, secretary Kansas State Board of Agriculture; Prof. C. F. Curtiss, Iowa Agricultural college; B. O. Aylesworth, president Colorado Agricultural college; Colonel F. M. Woods, the noted live stock auctioneer; Charles E. Bessey, the great botanist; John Gosling, the noted beef expert; Frederick W. Taylor, director of agriculture at St. Louis World's Fair, and many other well known men, whose ideas are worth dollars to every progressive farmer and stock raiser.

If you are interested send 25 cents for three months' trial subscription or \$1 for a year's subscription, addressed to The Twentieth Century Farmer 1859 Farnam street, Omaha, Neb., or send your name and address on a postal card asking for a free sample copy if you have not looked one over at your neighbors.

Union Young Peoples Society Meeting

The Union Young peoples Society will hold its next meeting February 1, in the U. B. church at 6 o'clock p. m. The topic for the evening, "Self Mastery or Slavery" will be led by Mr. A. Johnson. At the joint meeting of the several societies in the Christian church on Jan. 4, it was decided to Organize a Union and the following officers were elected: President, Ramah Ryerson; 1st Vice President, Essie Holcomb; 2nd Vice President, Sadie Whitehead; 3rd Vice President, tie; treasurer, S. K. Warrick; secretary, Chas. H. Windnagle; President lookout committee, Florence Shetler; president social committee, Myrtle Lyell; president prayer meeting committee, Gertie Orr; president music committee, Mauris Ryerson. In a meeting of the executive committee it was decided to hold a convention every three months for the purpose of discussing plans for the advancement of Christian work among the young people. These meetings will be held in the afternoon, the first being on March 1, for which plans are already being laid.

CHAS. H. WINDNAGLE, Sec'y.

A Good Corn Yield.

Nels Lec, just east of town, raised last season 51 bushels of corn per acre on fifty acres of ground. He weighed the corn and measured the land, so there would be no guess work about it.

America's BEST

Editorially Fearless
Consistently Republican
News from all of the world—Well written, original stories—Answers to queries—Articles on Health, the Home, New books, and on Work about the farm and garden.

The Weekly Inter Ocean

Is a member of the Associated Press, the only Western Newspaper receiving the entire telegraphic news service of the New York Sun and special cable of the New York World—daily reports from over 2,000 special correspondents throughout the country.

YEAR ONE DOLLAR

Subscribe for the REPUBLICAN and the Weekly Inter Ocean one year, both papers for \$1.50.

Money Saver.....

Custer County Republican

and the Nebraska Farmer one year for \$1.25. THE REPUBLICAN is the official paper of Custer county, and is the oldest paper in the county; and is an up-to-date newspaper. It was founded in 1882. It will continue in the future as in the past to faithfully chronicle and report all the home and neighborhood news, as well as to furnish weekly a budget of general news, entertaining miscellaneous reading and keen editorial comment on matters of current interest. It is indispensable in the up-with-the-times home.

THE NEBRASKA FARMER

is the leading general farm and live stock paper of the west. It was founded in 1869 and has outlasted the dozens of rivals which, since that time, have been started in this territory, all others having died or been consolidated with the Nebraska Farmer, except the latest brood, hatched since 1900, which are merely political papers masquerading under deceptive agricultural titles. Nebraska Farmer is exclusively agricultural, political matter and everything which divert attention from agricultural industry and home making are excluded from its columns. The editors and owners of Nebraska Farmer, each and every one, are practical farmers, owning land and farming or ranching in the west. It is a farmers' paper published by farmers—men who plow and plant as well as pen their thoughts and report their experiences to help other planters.

NO OTHER FARM PAPER

is published by men who have all their lives been doing the things they teach; no other farm paper is so closely in touch with the farm life of the west; no other farm paper can be so helpful to the farmers of the west, its 24 to 32 large pages, weekly, teeming with practical information and advice which will help to make the farm pay and the home pleasant. Nebraska Farmer is contributed to by all the leading thinkers and workers in agricultural industry. It gives all the news about agriculture and live stock affairs. The REPUBLICAN has succeeded in getting a special subscription price from the publishers of Nebraska Farmer. They have cut the best clubbing rate ever made almost square in two to accommodate us. Hence it is we can offer the Nebraska Farmer and the REPUBLICAN both together for \$1.25, almost the price of the REPUBLICAN alone.

Call on us at once with your subscription, or send it by mail. Remember the bargain combination price as shown below:

Regular Subscription Price of Nebraska Farmer Per Year... \$1.00
Regular Subscription Price of Republican... 1.00
Regular Price of Both Papers... \$2.00

Our Special Combination Offer, Both Papers, Per Year, \$1.25
The publishers of Nebraska Farmer guarantee to us that they will positively stop their paper without notice when the time for which it is paid in advance expires.
