NATIONAL BISCUIT COMPANY

Judge Gutterson.

Yesterday morning between the hours of 10 and 11 o'clock, Gov. Mickey accepted the written resignation of Judge Homer M. Sullivan and issued a commission to Charles L. Gutterson appointing him Judge of the twelfth Judicial District to fill the unexpired term. For some time Judge Sullivan has been threatening to resign in order that he might again engage in the practice of law, as he thinks he can make more money practicing and will have more freedom to look after his ranch business than he would had he remained on the bench.

The appointment of his successor could not have been more fittingly bestowed. Mr. Gutterson is a man ripe in experience, having practiced both in California and Arizona before locating in this city fifteen years ago. From 1888 until February 1897 when Judge Sullivan was appointed successor to Judge Green Mr. Gutterson was in partnership with Mr. Sullivan in the practice of law under the firm name of Sullivan & Gutterson. Since that date he has been in the business alone and has enjoyed a lucrative practice. He is one of the leading members of the Custer County Bar and enjoys the high esteem of those who know him for legal ability and honesty. For strict integrity he has no superiors in the district or state. The unexpired term of Judge Sullivan ends January 1, 1904. Mr. Gutterson has been a life long republican but in no sense a politician. He has frequently been urged by his friends to accept nominations in his party for various offices since he has been a resident of the county but he invariably declined. For nine years the district has had a populist judge. Judge Gutterson is the first republican to occupy the bench since Judge Hamer of Kearney was defeated in 1883.

Our Beef Supply.

It is very plainly seen by me that there is a rapid decrease in the west especially in the great Star state where ranches are being given up to home seekers, also in the Oklahoma district to wheat raising. Some ask me why I invested in the pure Herfords? Because as individuals they are the best of grazers and feeders in the lot. None are more prolific and they are very docile. And

Sold by all Druggists. CHICHESTER CHEMICAL CO. 3100 Madison Square, PHILA., PA. Mention this paper.

no breed cuts a larger per cent of high priced portor house stake and are always in prime condition with a reasonable amount of feed. As for certain individuals I found no other breed has outweighed them. Herford cows have made and tested 17 pounds of butter per week. What better do you want for a beef breed? As for hornless we have them in a separate Association. The point I wish to emphasize is we must increase our beef supply, not by numbers but by pure breed cattle. The country will come to this as it did, in pure bred swine, which is the rule. The stock raiser who does not adhere to these principles will be found wanting in that which goes to make up his purse, and that wise saying will apply to his purse: "Who steals my purse, steals trash." Pure blood will increase the beef supply by making 1,500 to 1,800 pound cattle in twenty-four months, whereas common beef requires as a rule thirty six months. Pure breed will require less acres of feed, and the next item to be considered is a balanced ration which has been thoroughly proven and tested at our experiment station and we must move in that direction with haste. The meat of a quickly maturing animal is more juicy and tender than a long maturing one. Years ago it was the plan to mature the animal then fatten it. We must progress with the times. Chicago has prime meat markets where only the choicest cuts are bought. None but prime beef is found. No common article is allowed in the shop. There is a decided difference in prime over our poor quality. G. E. CADWELL.

RYNO

Six weeks more winter. The ground hog saw his shadow and it has already commenced as 3 inches of snow fell last night and is badly drifted this (Tuesday) morning.

Rev. Holderman commenced a protracted meeting last night at Custer school house to continue over the coming Sunday, but is likely to be postponed on account of bad roads and inclement weather.

If you look at your calendar you will notice something peculiar about the month of February. The month begins and ends each day of the week occurring four times. In the last 132 years this has occurred but 15 times. In the next 50 years it will occur but 5 times, in 1914-1925-1931-1942 and 1953.

ORFELLO.

S. Waddington went to South Omaha last Monday with cattle.

We'll tell you next week about the Charivari if we are in with the boys.

C. H. Cass is canvassing for a Fairberry Nursery, until spring work begins.

The beautiful snow is falling at this writing, with about four inches on the ground.

Messrs Hill, Embree and E. D. Beals have installed new 'Phones in their respective homes the past week.

Will some one tell us, what about the weather for the next six weeks since they have consulted Mr. Ground Hog.

J. A. Kellenbarger, wife and Grandma Hogue, also M. J. and Frank Beals, spent Sunday afternoon at the home of Ye Scribe.

Mrs. Isabel Cornish and boys drove over from Lodi on Monday to visit her parents and Uncle and Aunt from Aurora, as they were not able to make the trip to her home.

C. D. Day has lost four head of cattle in the past, three of them being Mr. Piernie's and one Mrs. Amelia Jones, the cause is charged to corn stalk disease, and has taken his herd out of the field for the present.

J. C. Baker took a sneak for Missouri the other day trying to keep his destination a secret. But dame rumor says that he will bring home with him a bride Wednesday of this week. Hurrah for Jim, and our best wishes to him.

Public Sale.

Since our last issue Mr. Wilburn has made some changes in his public sale to be held at the Rogers ranch one mile east of the city on the 18 of this month at 10 o'clock a. m. The horses for sale consist of one Black French Stallion, two stallion colts coming two years old, five head of heavy draft mares, ten choice mares 3 to 5 years old, a few extra good drivers, the remainder of the 38 head of horses to be sold are colts coming one and two years old. Five milch cows, farm machinery and household goods.

STOPS THE COUGH AND WORKS OFF THE COLDS. Laxative Bromo-Quinine tablets cure a cold in one day. No Opium. No Pain. Price, 50 cents.

Farmer's Wife Gets a Share

Most farm papers are gotten up with the idea that they are read only by the man who runs the farm. Probably they are, because there is nothing in most of them to interest anyone else, and very often it is pretty dry reading for him. There is one farm paper, however, that is not built on this plan—The Twentieth Century Farmer—whose editor has kept the whole family in mind in getting up the paper. There are two pages that are given over to the things that interest the farmers wife, and a page for the young folks. Besides this she always reads the stories, Frank Carpenter's letters of travel, the poultry department and some other departments.

You can get a sample copy free by writing to the Twentieth Century Farmer, 1850 Farnam street, Omaha Neb., or, better still, subscribe for the paper. Price, 25c for three month's trial subscription or \$1.00 for a whole year. It is a big dollar's worth, 24 to 48 pages every week, handsomely illustrated and chock full of the very best reading in every issue.

The Sergeant Leader Not Jealous.

The only proper place for a State Normal School is alongside the State University, where the greatest advantage can be had for the students. However, this is not the general idea, and if another Normal School must be built we favor the building of it at Broken Bow. We do not know of any use a State Normal School is to the people so long as the State University prepares plenty of better instructors for our high schools, and the district schools get no teachers from either source, but if the people want a Normal School, they should have one and Custer county is a good place for it. Whether a Normal School is headed or not, it will be an ornament to the city that gets the state buildings and income to the citizens of the place. If representatives Copey and Tooley can get together on this proposition, it will be well to spend some effort in that way; for doubtless it is the only thing they can agree upon and please their constituents. Yes, we favor the building of a State Normal at Broken Bow.—Sargent Leader.

The Heaviest Snow of the Season.

People were generally surprised Tuesday morning to find the ground covered to the depth of four inches of snow. Snow continued falling all day and part of the night and reached a depth of 8 or 10 inches. A strong wind prevailed most of the time which caused it to drift badly. From the reports we learn the storm was general over the state and the snow grew deeper from Alliance east.

WOMAN SUFFRAGE PROGRAM.

The Women's Suffrage Association of Custer county, Nebr., will celebrate the 83 birthday of Susan B. Anthony on the 16th, 1903, in the store building formerly occupied by John & Kuerr, Realty Block. The following program will be rendered:

Pam—To be written for this occasion by M. H. Marble of Table Rock.
Refreshments, and presentation of bouquets to each guest.

Notice of Special Election to Vote Water Bonds.

Notice is hereby given to the legal electors of the city of Broken Bow, Nebraska, that on Tuesday, the 3rd day of March, 1903, a special election will be held in said city of Broken Bow for the purpose of voting upon the following proposition viz: "Shall the city of Broken Bow issue bonds to be known as 'Water Bonds' in the sum of thirteen thousand nine hundred (\$13,900) dollars, for the purpose of purchasing the Broken Bow Water Works system, together with all credits due said water works company for water rental under the contract now in force between said water works company and said city. Thirteen of said bonds to be issued in the sum of one thousand (\$1000) dollars each, and one of said bonds in the sum of nine hundred (\$900) dollars, all of said bonds payable to bearer and to become due in twenty years from the date of their issue, but payable at any time after five years from their date at the option of said city, said bonds to draw five per cent interest per annum, payable annually. The principle and interest of said bonds payable at the fiscal agency of the state of Nebraska in the city of New York, said bonds to be sold or exchanged at not less than par for the purchase of said Water Works system; and shall there be levied and collected each year upon all the taxable property of said city a general tax to an amount sufficient to pay the interest and principal of said bonds as the same mature."

By order of the City Council of the City of Broken Bow, Nebraska.
Dated this 30th day of January, 1903.
Attest:
Fred Rinne, Emerson R. Purcell,
City Clerk, Mayor.

It isn't the material that goes into your repaired watch that results in a perfect job. It is the Know How that does the business, any bungler can buy the fine kinds of material that are in repairing; but skill is the most valuable material that can be used in watch repairing; and the bungler can't buy it. I sell my skill for what it is worth and it will cost you less than hanging at lower prices.

Money Saver.....

Custer County Republican

and the Nebraska Farmer one year for \$1.25. The REPUBLICAN is the official paper of Custer county, and is the oldest paper in the county; and is an up-to-date newspaper. It was founded in 1852. It will continue in the future as in the past to faithfully chronicle and report all the home and neighborhood news, as well as to furnish weekly a budget of general news, entertaining miscellaneous reading and keen editorial comment on matters of current interest. It is indispensable in the up-with-the-times home.

THE NEBRASKA FARMER

is the leading general farm and live stock paper of the west. It was founded in 1869 and has outclassed the dozens of rivals which, since that time, have been started in this territory, all others having died or been consolidated with the Nebraska Farmer, except the latest brood, hatched since 1900, which are merely political papers masquerading under deceptive agricultural titles. Nebraska Farmer is exclusively agricultural, political matter and everything which divert attention from agricultural industry and home making are excluded from its columns. The editors and owners of Nebraska Farmer, each and every one, are practical farmers, owning land and farming or ranching in the west. It is a farmers' paper published by farmers—men who plow and plant as well as pen their thoughts and report their experiences to help other planters.

NO OTHER FARM PAPER

is published by men who have all their lives been doing the things they teach; no other farm paper is so closely in touch with the farm life of the west; no other farm paper can be so helpful to the farmers of the west, its 24 to 32 large pages, weekly, teeming with practical information and advice which will help to make the farm pay and the home pleasant. Nebraska Farmer is contributed to by all the leading thinkers and workers in agricultural industry. It gives all the news about agriculture and live stock affairs. The REPUBLICAN has succeeded in getting a special subscription price from the publishers of Nebraska Farmer. They have cut the best clubbing rate ever made almost square in two to accommodate us. Hence it is we can offer the Nebraska Farmer and the REPUBLICAN both together for \$1.25, almost the price of the REPUBLICAN alone.

Call on us at once with your subscription, or send it by mail. Remember the bargain combination price as shown below:

Regular Subscription Price of Nebraska Farmer Per Year.....	\$1.00
Regular Subscription Price of Republican.....	1.00
Regular Price of Both Papers.....	\$2.00
Our Special Combination Offer, Both Papers, Per Year, \$1.25.	

The publishers of Nebraska Farmer guarantee to us that they will positively stop their paper without notice when the time for which it is paid in advance expires.
