Gov. Mickey, judging from his instructions to the deputy oil inspectors, does not intend for the chief oil inspector to have all the say about inspecting oil.

The gossip in the state dailies about the location of the new normal school should be taken with due allowance. Men who have the responsibility of locating the school, as a rule, do not make public their opinions before they enter upon their duties.

The Loup Valley Queen was very wide of the mark in concluding that the REPUBLICAN had reference to it in giving the editors views on party loyalty. The Queen had not been published yet when the article appeared in the REPUBLICAN and it was farthest from our thoughts that the shoe would fit the Queen and we are sorry the editors of the Queen attempted to wear it.

The democrats and populists have called their state conven-

tion for the same day, but contrary to their custom they will hold forth in different cities. The democrats will meet at Columbus and the pops at Grand Island. The long distant telephone and telegraph that connects these towns will doubtless enable the convention to arrange their little differences satisfactory to the leaders.

The response to a request for his views by a reporter of the Lincoln News, Hon. Tom Majors the Nemaha county statesman says: "I believe that a short platform will be the best thing for the republican party this year. With the splendid record of the national administration to point to, the platform need not contain anything but an endorsement of the administration of President Roosevelt. The conditions prevailing throughout the state will furnish the best platform for the party." All of which is true.—Kearney Hub.

### TWELFTH JUDICIAL DISTRICT.

Call For Convention To Nominate a Candidate for Judge.

The republican electors of the Twelfth Judicial District of the State of Nebraska are hereby requested to send delegates from the several counties comprising said district to meet in convention in the city of Grand Island, Neb., on Tuesday, August 25, 1903, at two o'clock p. m., for the purpose of placing in nomination a candidate for judge of said district to be voted for at the next general election, and for the transaction of such other business as may come before such convention.

The basis of representation is the same as that fixed by the state central committee for the state convention, giving the following number of delegates:

Buffalo 18, Custer 19, Dawson 12, Sherman 6. Total 55.  
 F. M. Hollowell, Chairman.  
 E. D. Owens, Secretary.

### The New Normal School Location.

Tuesday the State Normal School board opened the proposals for the New school provided for at last session.

The board will now visit the several sites offered with the view of locating the school to the best interests of that part of the state that has not been favored with the advantages of higher education, that has been provided for the eastern part of the state or larger centers.

Just where this board will fix this location it is not probable any one, the members of the board included can say at this time. If the location depended upon the largest bonus the matter would now be settled and there would be no need of the board visiting the several towns that are aspirants. Fortunately the legislature did not limit the location to the town offering the largest bonus. The spirit of the law and its prime object is to provide educational advantages for the central and western part of the state that is now, by location deprived of the advantages deprived by the more populous eastern half of the state. From our view of the situation there is no town in the western part of the state that would accommodate a greater number of students with as little out-lay in reaching the school as Broken Bow. It is not only centrally located in the state but is the center of the population of the territory in which the law provides that the new school shall be located. Broken Bow has the advantage

# We Enjoy a Scrap!

And are glad to meet a man that has the gall to quote a price, even though he don't have what he advertises; that's his business, and the public should not expect too much from some people. The last man that scrapped us went broke for \$62,000.

\$25,000 stocks are getting wonderfully plentiful in Broken Bow of late, but we will bet a quart of butter-milk that if it was April 1st and the assessor would appear on the scene, not a mother's son of 'em would have a fourth of that amount of goods.

Just to make things interesting and for the purpose of reducing our stock of clothing as much as possible prior to the arrival of our fall stock, which will be larger and cheaper than ever, we will, beginning

## Saturday, Sept. 1st,

Offer such Bargains in Clothing as will make Johnnie Squeal.

### HOW COULD VE DONE IT ?

**Easy, like rolling over!**—Our eastern buyer who lives all the while in Broken Bow and draws such a small salary, he looks so much like a farmer man when he goes east all the big guns take him for a SUCKER, and he gobbles in all the good bargains that come to Broken Bow.

One lot Men's suits in broken sizes most all Wool goods, to close out the lot we quote for this scrap sale the remarkably low price of **\$4.68**  
 We also have a few mens suits in **2.89** and **3.15**  
 Broken lots at such prices as these

One lot Men's Suits, consisting of broken lots from the spring line—one to 3 suits of a kind—in all Wool Cassimeres, Cheviott Worsteds, Fancy Worsteds, etc., worth formerly \$9.90 to \$13.50 and good values at that. To make them hot hoppers, and clean out the lot quick, we include them in this scrap sale at..... **\$6.98**

## Special For Old Settlers Day

WEDNESDAY, AUGUST 5th, Only.

For the purpose of giving every old settler in Custer county a special benefit, we will on that day give all our friends choice of any Suit in our stock for..... **\$10.89**

Here is a novel opportunity for you to display your judgment and secure a genuine bargain. And here is where you can rely on our honor. No man will be permitted to buy a suit at this special price that is not worth more than the special price quoted: We thus supplement your judgment with our honor to prevent you from buying a Suit at a greater price than it is worth.

## COME TO US CLOTHING, DRY GOODS, CARPETS SHOES

Don't get excited over a few unseasonable rags carried over from the time Judas and his pals divided up the raiment of an eminent citizen and started out to peddle the same. We will be prepared to supply your wants in all kinds of Fall Goods, in due season, and at prices that are right.

Our buyer will go east for fall purchases August 15th, and will be glad to look up special items for any of our friends.

# WILSON & DRAKE.

of being located on the main line of the B. & M. R. R. to the north west, which, with its branches would accommodate the entire north and northwest portion of the state with easy access by railroad to the State Normal.

Another advantage in locating the school at Broken Bow is that it is in the center of one of the largest counties of the state and the school would have the direct support and patronage of the entire county which would equal in territory and population of four of the usual size counties.

In point of site Broken Bow can furnish a very desirable site conveniently located to the business portion of the town with natural drainage, with high elevation for the building and fine level campus.

The city has an inexhaustible supply of pure water of the best the state affords. The town is noted for its healthful climate and varied scenery and splendid citizenship. No town of the population of Broken Bow which now numbers 2000 can show a better moral atmosphere than Broken Bow. There has not been a licensed saloon in the city for more than four years. The temperance sentiment grows stronger with each year. Its influence has permeated the county until there are but two towns in the county that have saloons and the closest one to Broken Bow is 25 miles away.

The city has seven church buildings, representing as many different religious denominations all of which have pastors and are prospering. Broken Bow is far removed

from the State University and the State Normal School and with the school located here many would be accommodated that could not enjoy the accommodations offered by those institutions.

Broken Bow has the advantage of being located in the center of the North Platt country where there are no colleges and where the State Normal would accommodate the greatest number where the greatest need exist.

Considered from every point of view there is no place in the territory where a normal school would prove of greater benefit to the educational interests of the state or where exists a more moral and healthful atmosphere than Broken Bow.

### G. E. Cadwell's Herds.

The reliable and very enthusiastic breeder of Duroc-Jersey swine and Hereford cattle, G. E. Cadwell, of Broken Bow, Neb., was visited by the Breeder pilgrim recently and the stock that he found was more than pleasing to look upon and would do anyone else good to see. It would suit the most fastidious, no matter how critical he might be. As a point of vantage Broken Bow is a good location for this breeder as he can ship to the great range country lying to the west of him and his trade will be great in both of his chosen breeds; but this stock should go East and into the best of herds, as it is fit for any of them.

At the head of his Durocs is a boar known as Cadwell's Perfection. He is sired by Liberty Perfection, by Prince Marti,

while his dam is Belle by Liberty Jim, by that grand old sire of sires, Allison. Liberty Jim will be remembered as the sire of Corrector C., the great 1902 winner at Nebraska state fair. This boar's pigs are extra good in every way and would be a credit to any sire. They are from such sows as Rosalie 37774, by Prince by Prince Eric; dam, Neoma, by Victor. Lady Gibson II 31080 by Judge Haynes by Col. Snider, dam, Lady Gobson by Herr Most is a sow of exceptional good breeding quality and is as good individual as she is breeder.

As a breeder of Hereford cattle Mr. Cadwell is as good as the best, and can at all times be found standing up and maintaining the standard set for himself. His motto is "Quality" and he has spared neither time nor money in order that he might be able to have a herd ranking among the best. At the head of his herd is a September 25, 1901, called Roosevelt 139272, by Southington 111703; dam, Saint Donna 90097, by St. Louis 49428, dam, Donna 2d 41783. This bull is a grand, good individual, mellow as an apple and full of quality from end to end and top to bottom. He carries an exceptionally good top and bottom line, as well as A1 sides lines, a greatly developed heart along with a breast that any man should be proud of having on any kind of a bull. His head is par excellence and has an eye as bright as any star that ever shone in the heavens. In blood lines it is needless to say that he is a top-notch, coming as he does from the herd of C. A. Jamison and sired by that

grand old sire K. B. Armour's Southington. His dam is as good a cow as Jamison ever owned. She is St. Donna and traces direct to that great bull of all Herefords, St. Louis 46528, Roosevelt is in every way a well-bred bull and is full of Anxiety blood as well as the other good lines.

Cleopatra 96733 is a model cow of the herd and is sired by Rantin Robin, by Earl of Shadeland 12th 201091; dam, Queen 42870, by Star Grove 16763, by The Greve B. 2490. This cow is an exceptionally good animal and

**TO CURE A COLD IN ONE DAY**
