out on the world in a new way with my glasses. What you have seen may be only a hint of what you may see. Seeing a thing with your own eyes is not always conclusive evidence that you see correctly. You see through a window, but the glass may be imperfect or the window soiled. You see with your eyes, but their refractive power may be faulty; thus you see but half what you might with properly adjusted glasses—my kind. My business to remedy eye defects which if neglected may prove serious.

WAGONS

We have just received a car load of the **Celebrated Burg Wagon** direct from the factory. We guarantee the Gear of this wagon to be made of Oak and Hickory, thoroughly air-seasoned and soaked in oil, before being painted—in fact one of the best wagons made. We sold two cars of them last season and never had a complaint, and while the other fellows were furnishing new wheels, we never had five cents of repair bills on all we sold. There is a few of those **Minnie Mowers** left, that we have had such a run on. It's not often you can get a mower, guaranteed to be as good as any mower made, for.....

\$35.00

And don't forget we are headquarters for Plano, Deering and McCormick sickles, sections, leger plates, guards, etc., at one-half the price asked by other dealers—in fact, this is the house that saves you money on all kinds of farm machinery. We have a second-hand Horse Power Threshing Outfit in the very best repair, which we want to sell cheap.

BROKEN BOW Business and Normal College.

The fall term will begin Sept. 7, 1903. Pupils may enter at any time, but better work will be accomplished by being present the first day. Our school is complete in each department. We have the best equipments that can be found in the state for good work. We own our own buildings, site and equipment, and we are here to stay. We employ none but first-class teachers. Our school is different in many respects from the ordinary high school or university. We aim to develop the mind by teaching subjects that can be used in our every day life. Our school is not intended for those that have the time and money to spend six or eight years in getting an education. We select those subjects that a man or lady will use in their daily life whether in professional work or on the farm. To those that wish to get work after completing our course and preparing themselves for the work, we will say that there has been no difficulty in finding places. There is no better place to secure an education that will aid you in a practical way. There are many reasons why the young men and women of this locality and abroad should attend this school in Broken Bow. We have no saloons, no gambling dens, no bowling alleys, no place for idleness and vice. We have three complete courses: **Business, Short-Hand & Typewriting, and Telegraphy.** Tuition for Life Scholarship, \$60.00. Any two courses, \$100.00. Further information given upon application.
