Read this:

Are you from Missouri? If so, I can show you. There is a buggy concern that just unloaded a car of buggies, with the expectation of trailing them through the country. Now I have told you all this summer in my adds that I could sell you a buggy Cheaper than you could buy it anywhere in the United States, and I meant every word I said. Now I want to make you this proposition: That I will sell you a Buggy, Spring Wagon, Carriage or Road Wagon

10 Per Cent Cheaper

than this concern that is trailing buggies through the country. Now this is just a simple business proposition. You want a Buggy and you want to buy just as good a Buggy for as little money as you can, and all I ask is the chance of showing you that what I say is true. Now when they call on you, don't complete your deal until you come in and see me. They have buggies here in town and the comparison as to price, workmanship, material and finish can be made. The time to buy anything is when every body else is wanting to sell. Now if you will give your home dealer a chance, there will be a hot time in the Buggy business in Broken Bow.

In Mr. Borg everyone will recognize the Varsity center, who always makes his opponent wish he had not come to the game. The team will greatly miss John Wilson, who was captain of the team the past two years and led his men to inter-class championship last year. Mr. Wilson is suffering from a badly sprained knee, which it is barely possible may be well in time to permit him taking part in the class games. Other Seniors who are counted

WAR! WAR! WAR!

On Buggy Prices!

FARMERS!

When you see strangers trailing buggies through the country with the purpose of selling them, think of the Home Comfort Stove people, who, by their misrepresentations, induced you to pay almost two prices for ranges about two years ago. The same deal is being played in the buggy line in this county by strangers claiming to be from Iowa, whom you will never see again after they have induced you to buy a buggy. Now, if you want a Buggy or Spring Wagon, do not buy of them while in the country, but come to town where they keep their supply and make them compete with your home dealer. If you will do this we will make them sell you a buggy for

\$20 LESS

than they will offer you one for in the country. As long as men who have lost the confidence of the people in their own town to such an extent that they cannot do business there, stay in our midst with the intention of disposing of a doubtful stock of buggies, we intend to fight them and fight them to a standstill, regardless of what our former prices on buggies have been. Now, if you want a buggy come to town and do your buying and get the benefit of the scrap, for we promise you that no tax-shirking peddlers can do business in this town at a profit as long as we have a buggy left. And we also promise you that we will make these tax-shirking peddlers sell you so low that you will get back some of the money that the Home Comfort Stove peddlers stole from you a few years ago. Come to town and get the benefit of competition.

We have the reliable Quick Meal Steel Range; also the Malleable Steel Range, the most durable range made.
