are sometimes ruined by improper glasses. You can get new teeth, new hair, but you can not get new eyes that you can see with. They will have to last you all your life.

Don't You Think

they should be carefully treated? Yet how many people recklessly wear any kind of glasses whether suited to their eyes or not. For your own sakes we urge you to let us examine your eyes. You will never be sorry in any way if you come in and see us.

J. G. Haerberle's.

A book of interest more absorbing than the most thrilling work of fiction is a bank book. Its tale is never too long, or its pages too many, and the long row of figures so dry in other books are intensely interesting in this. But in order to enjoy its pages each man must own his own book. The way to do this is to open an account with the

Custer National Bank which numbers among its depositors many of the richest and smartest men in the city. Let us take care of your money as we do theirs.

Imperfect Indigestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. It was in 1873, the writer visited his parents in Papillion, Sarpy county, on our first trip to this state. His ancestors stand high in the annals of National History. While lifting a pail of water one evening recently, Jas. Shroads dislocated one of the tendons at his elbow, which caused him no small amount of pain for some time after the doctor had replaced it. He is yet carrying his arm in a sling as a consequence.

So rapidly is the population of this city increasing that a new census will have to be taken every two weeks to ascertain just how rapidly we are growing. A new boy at Louie Anderson's, a girl at Dr. Hoskin's and a girl at E. E. Emal's have been recorded within the past week.

Monday appeared to be moving day in this city, James Greer, who is the representative of the Grand Island creamery at this place, moving to the eastern part of the city, while J. D. The Fourth Storm Period that was predicted to be central on the 20th, hit this locality the hardest on that date. It was decidedly cold and disagreeable. A portion of the day, the air was filled with snow, but not enough of it reached the ground to cover it at anytime. Early in the morning mercury dropped to zero but soon recovered and hung around 10 to 15 degrees above. With the night the weather moderated and a clear sky with a winter's sun makes it comfortable for out-door work.

HICKS' PREDICTIONS.

Fifth Storm Period—The 25th, 26th and 27th are the central days of this period. Except the continued influence of the Venus Equinox, this period is comparatively free from disturbing causes. The Moon is in quadrature, at first quarter on the 25th, and greatest declination north on the 26th. At this as well as other storm periods, a perceptible rise in temperature will set in early in the west, falling barometer will quickly ensue and cloudiness, with return of rain and snow will make their regular march eastward across the country. Before the cloud and storm areas have fairly reached the central to eastern states, high barometer, cold winds and clearing weather will be following close in the rear in the northwest.

ROUND GROVE.

Will Heapy and Albert Lang finished putting up their ice.

Dave Myers had a public sale last Wednesday at which he sold his personal property. He intends to move to some other part of the state but we have not learned the place.

The mail route is now in operation. All that you need to do is to walk out to your box, post your letters and receive your mail. The wonder now is how we have done without it so long.

J. R. Lang and Albert Dickerson shipped a car load of fat cattle to Omaha last Sunday. Also the Howard Bros. shipped a car. The latter gentleman have quite a number left for shipment later.

About 35 young people surprised Harve Lang last Friday. The party was given in honor of his 19th birthday. The surprise was pretty well planned. Harve had been induced to go skating that evening and on returning found the crowd playing games. The evening was very pleasantly spent. Surprises seem to be in order as Walter Simonson was taken unawares on the following Monday evening by a similar gathering.

Canman, Chicago, writes March 4, 1903: "Having been troubled with Lumbago at different times and tried one physician after another; then different ointments and linaments, gave it up altogether. So I tried once more and got a bottle of Ballard's Snow Linament, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former sufferers." 25c, 50c and \$1. For sale by Ed. McComas, Broken Bow and Merna.
