While switching in the yards at this place on Monday, fire from the engine, which fell in the grass east of the track, and just south of the stock yards, blazed up, and for a time it looked as if the southeast portion of the town, including the school house was doomed to go up in smoke. A high wind was sweeping down from the northwest, which, had it changed to the south or southwest, would have resulted disasterously. The people turned out enmass, and by so doing the fire was brought under control within an hour, and without damage, although it put on a very serious aspect for a time.

J. G. BRENIZER, Breeder of

Pure Scotch and Scotch Topped Short Horn Cattle. My herd numbers 40 cows. Will compare in breeding and quality with any west of Chicago. My experience has taught me that to give good satisfaction, breeding cattle must be raised in this altitude. I expect to raise them here the equal of anything raised in the U. S. I now have 25 bulls suitable for this, and next year's service. My cows weigh from 1400 to 2000 pounds. Come and see them.

Improve Your Horses!

You must know by this time where your interests lie. It is certainly not to your advantage to use small, inferior sires, no matter what class of stock you are breeding. A rare opportunity is afforded you to secure some of the best horses for breeding purposes that were ever shown in Custer county. Currie & Cummings of Sargent, Nebraska, have a

CAR LOAD OF THEM

and will be pleased to communicate with you or to show you these horses at any time. They will also assist you in forming a company and sell you a horse on terms that are within the reach of all. Call them up by 'phone or address them at Sargent, Neb., or what is better still, go at once and get your choice. These horses are for sale.
