Why remain in the North and stay in doors six months in the year consuming what you raise during the other six months?

Go South where you can work out doors every month in the year, and where you are producing something the year round. If you are a stock raiser you know your stock are now 'eating their heads off' and, besides, have to be protected from the rigors of winter by expensive shelter.

Economical stock feeding requires the combination of both flesh-forming and fat-forming foods in certain proportions. Alabama and Plorida produce in abundance the velvet bean and cassava, the first a flesh producer, and the latter a fat producer, and they are the cheapest and best fattening materials known to the world.

More money can be made and with less labor, in general farming, fruit and berry growing and truck gardening along our road in the South than in any other section of the Union.

So when Jones had forfeited his bond, remained in Cincinnati where he had gone and the governor of Kentucky sent a requsition to the governor of Ohio for Jones' delivery, but as the Lord would have it Solimon P. Chase was governor of Ohio at that time and they could not work the scheme on that old abolitionist. I believe I have heard of a scheme of that kind by the present governor of Kentucky trying to get Governor Durben of Indiana to give up one Taylor, but the Hoosier governor isn't built that way.
