NEBRASKA STATE NEWS

BANKERS UNION IS SOLVENT.

Referee Says, However, Must Change

Method of Transacting Business. . . LINCOLN-The Bankers Union of the World will have to change its present methods of doing business in several instances if it is to continue as an organization, should the report filed by Referee Ryan in the supreme court be the decision of the court. The report finds for the state in most intsances, though it denied that that evidence sustained the allegation of the state that the company was insolvent. It denied also that the evidence showed that President Spinney had drawn a larger salary than he was entitled to.

Referee Ryan held that should the company continue to do business it should be enjoined from allowing its officers to appoint a board of directors; it should be enjoined from paying to President Spinney and President Spinney should be enjoined from receiving commissions on business done; the company should be enjoined from withholding information regarding the order that may be required by the auditor; the company should be en-joined from merging into its order other companies.

Deputy Attorney General Norris Brown, who prosecuted the case for the state, is well satisfied with the report of the referee and will file a motion for judgment upon the findings of facts submitted.

UNPROTECTED STATE PROPERTY.

Fire at the State Capitol Would Cause a Great Loss.

LINCOLN.-Millions of dollars in state property lies unprotected in Nebraska's capitol building, a veritable firetrap, and in case of a conflaxation the loss to the taxpayers would soar up into seven figures.

The state carries no insurance. There is a provision in the statutes for this, but the legislature has not made an appropriation for several years. The oiled woodwork, the draughty corridors and the peculiar construction of the dome renders the capitol dangerous should flames once get a start. Fire experts declare that a blaze not stamped out at once would soon be beyond control.

Books valued at more than \$1,000,-000 lie on wooden shelves unprotected from fire. Supreme court opinions are stored away in the building and their loss would cause much litigation. Land titles, abstracts and legislative and public records are poorly protected in antiquated vaults.

Students and visitors to Lincoln flock to the capitol dome. Many of them smoke and stubs of cigars and cigarettes can be found strewn along the rickety steps leading to the dome. Two water tanks are located on the roof of the capitol, but for a long time these have not been connected with hose.

Want a Receiver Appointed.

LINCOLN .- A large number of persons interested in the suit of Henry C. Rowntree against the National Life and Trust Company of Chicago have joined with him in asking that a receiver be appointed to take charge of the assets of the concern now in the hands of the Iowa state auditor. The suit was started several months ago and the petition of intervention was filed a few days ago.

Machine to Hang Paper. PAPILLION, Neb .- It is not often

that a preacher turns inventor, but Rev. J. A. Holmes of Gretna is an exception. He has invented a machine to be used in hanging paper. The paper is placed in the machine, a crank is turned and the paper is pasted, trimmed and hung neatly on the wall. With this contrivance about 200 rolls of wall paper can be hanged in a day.

Water and Light Statistics.

The Department of Labor is just now busy collecting statistics regarding water works and electric light plants throughout the state. When completed the tabulation will show whether the plants are owned by the municipality or by private parties, the cost of construction, the cost of light or water to the consumer, the amount of bonds issued and other matter that may be of interest to the people generally.

At Columbus Mike Mostek, who was convicted of assault with intent to commit rape, was sentenced by Judge Hollenbeck to three years and six months' penal servitude in the penitentiary at Lincoln, no part of the time to be solitary confinement.

James Malone, a special detective for the Burlington road, arrived in Plattsmouth with Charles E. Holmes. who is wanted there on the charge of perjury. Holmes was switching in the railroad yards in Springfield, O., when arrested. His wife was with him. Clay county last week held its first

farmers' institute. It was a success and well attended. The citizens of Clay Center, where the institute was held, provided entertainment and the lectures were very entertaining and instructive.

Helen Bechler, aged four, daughter of Mr. and Mrs. Albert Bechler, who live a mile and a half north of the Everett store, in Dodge county, was crushed to death by a ten-inch log falling upon her. The accident occurred at her home. The child lived but fifteen minutes.

The extensive grain, lumber and coal business of H. Hunker & Bro. in West Point changed hands last week, Weller Bros., of Kansas City becoming the purchasers. This is one of the largest and oldest established lumber yards in the Elkhorn valley, Hunker Bros, having established it some thirty-five years ago and have run it continuously ever since.

The state board of public lands and buildings will accept an offer of the Van Dorn iron works to put 240 cells in the state prison for the sum of \$80, 000. The members had made a contract to allow the concern to place 159 cells in the penitentiary for \$69,030 State Auditor Weston refused to issue the warrant, claiming that the legislature meant to pay \$333.33 for the cells and the state board had contracted to pay \$442.50 a cell.

A COMRADE OF GENERAL GRANT

Says: "I Do Not Believe Pe-ru-na Has a Superior for Catarrh."

Benjamin F. Hawkes, of Washington, D. C., is One of the Three Living Comrades of General Grant In His Cadet Days at West Point

In a recent letter from 611 G Street, S. W., Washington, D. C., this venerable gentleman says of Peruna:

"I have tried Peruna after having tried in vain other remedies for catarrh, and I can say without reser-vation that I never felt a symptom of relief until I had given Peruna the simple trial that its advocates advise. I do not believe it has a superior, either as a remedy for catarrh or as a tonic for the depressed and exhausted condition which is one of the effects of the disease."-Benjamin F. Hawkes.

Pe-ru-na Used in the Family for Years.

Mrs. E. West, 137 Main Street, Menasha, Wis., writes: We have used Peruna in our family for a number of years and when I say that it is a fine medicine for catarrh and colds. I know what I am talking about. I have taken it every spring and fall for four years and I find that it keeps me robust, strong, with splendid appetite, and free from any illness. A few years ago it cured me of catarrh of the stomach, which the doctors had pronounced incur-"Peruna exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in feets of sudden changes; it keeps me in the doctors had pronounced incurable. I am very much pleased with Peruna. Peruna corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Peruna becomes a life-long stand-by with old and young.

Mrs. F. E. Little, Tolona, Ill., writes: "I can recommend Peruna as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled severely with it for over a year, and also a cough. Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellow Stone Park this coming season. How is that for one 71 years old?"

In a later letter she says: "I am only too thankful to you for your kind advice and for the good health that I am enjoying wholly from the use of your Peruna. Have been out to the Yellow Stone National Park and many other places of the west, and shall always thank you for your generosity."—Mrs. F. E. Little.

Strong and Vigorous at the Age of Eighty-Eight.

Rev. J. N. Parker, Utica, N. Y., writes:

"In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much affected but that I could hold converse with my friends; but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with severe rheumatic pains in my limbs. I commenced taking Peruna and now my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Peruna, and now when eighty-eight years old can say it has invigorated my whole system."—Rev. J. N. Parker.

the Durabale Wall Coating,

Won't Rub Off; WHY?

Because it cements to, and is not stuck on the wall with decaying, animal glue, as are the various so-called "wall finishes," which are kalsomines sold under fanciful names.

You can apply Alabastine.

-ABASTINE

The Only Sanitary and Permanent Wall Coating

LABASTINE is not a disease-breeding, hot water give wall finish, furnishing a lodgment and harbor-ground for disease germs; it is a natural, rock-base composition, in white and many exquisitely beautiful tinte; in pewder form, ready for use by simply mixing with cold water. Anyone can brush it on.

ALABASTINE cements to walls, distroys disease germs and vermin, and never rubs off or scales. Other wall contings, under fanciful names, and usually mixed with hot water, are unhealthful kalsomines, stuck on the wall with glue, which soon rots, nourishes germs of deadly disease, rubs and scales, spoiling walls, clothing and furniture.

When it is necessary to refinish, the old coats must be washed off-an expensive, nasty, disagreeable job, making the rooms damp and unfit to live in. When walls are once coated with Alabastine, succeeding coats may be applied, year

after year, without washing the walls, thus saving great expense and annoyance. Hot and Cold Water Kalsomines Have No Merit Some dealers try to sell them, buying them cheap, and trying to sell on Alabastine's demand
