The Maryland house of delegates, by a party vote of 64 to 2, has passed the bill proposing a constitutional amendment limiting the franchise in Maryland to the purpose of which is to eliminate the negro vote. The measure has passed the senate and now goes to Governor Warfield for his action.

The University of Vienna has been closed in consequence of threats of disturbances among the students. The German students were much incensed at the demonstration of the Czechs against their German comrades at Prague, Bohemia, and threatened retaliation.

Lucien W. Perkins, a machinist who escaped from the insane asylum at Elgin, Ill., and who followed Miss Anten, daughter of a Chicago capitalist, across the continent in an effort to renew his unwelcome attentions to her, has been adjudged insane in the probate court at Los Angeles.

TRUST QUESTION

CONGRESSMAN HEARST WOULD HAVE IT INVESTIGATED.

RESOLUTIONS FOR COMMITTEE

Evil Effects of the Great Combinations Recited—Means Already Existing to Curb Trusts Ought to Be Rigidly Enforced.

WASHINGTON, D. C.—Representative Hearst of New York on Friday introduced resolutions providing for an investigation of the trust question by a committee of five members of the house. The resolutions contain ten clauses, reciting the evil effects of trusts on the country, among them being the following:

"Numerous illegal combinations known as trusts have been formed to absorb or eliminate competition and establish virtual monopolies with a view to controlling production and raising the price of their products.

"Such extortionate trusts as the beef trust and the coal trust and the ice trust have arbitrarily increased the cost of the necessities of life to the public.

"Such speculative trusts as the shipyards and the steel trust have inflated their stock to many times its actual value and sold to the public, transferring the people's money from banks and legitimate investments into the pockets of trust promoters and speculators.

"Industrial unrest has been fomented by the increased cost of living and by the consequent necessary efforts of labor to make its wages keep pace with the increased cost of living.

"Such trusts as the steel trust, in spite of the increased cost of living, have ruthlessly cut down the wages of hundreds of thousands of employes in order to pay dividends on watered stock, and other trusts have wholly collapsed, throwing hundreds of thousands of workmen out of employment.

"The purchasing power of the community has been diminished by the actions of the trusts by unsound methods, which have misled the people, swindled them and robbed them of their savings.

"All classes of the community are being made to feel the evil effect of the unrestrained greed and lawless practices of the trusts."

The committee is directed to inform the house fully on the trust situation, to the end that more effective laws may be prepared and passed by congress, regulating and restricting combinations. The committee is empowered to send for persons and papers.

An additional resolution states that "It is the sense of this house, and it does recommend, that the laws already existing against the trusts be in the meanwhile enforced by the executive branch of this government and the legal representatives thereof."

The resolutions were referred to the committee on rules.

IN THE UNITED STATES SENATE.

Information Asked Regarding Recent Pension Order.

WASHINGTON.—The senate adopted the following resolution offered by Mr. Overman:

"That the secretary of the interior be and he is hereby directed to inform the senate:

"First—Whether an order has recently been issued enlarging the pension act of June 27, 1890, and amendments, as to disabilities of applicants for pensions, and if so to send to the senate a copy of said order.

"Second—By what amount, if any, will said order increase pensions annually, particularly when the same shall become fully operative."

The senate passed the house bill approving the act of the territorial legislature of Arizona authorizing a bond issue of \$100,000 for the enlargement of the insane asylum of the territory.

The bill authorizing the incorporation of the American academy in Rome was passed. The senate then went into executive session and later adjourned until Monday.

CLERK HIRE IN POSTOFFICES.

Bill Introduced in the House Fixing Allowances.

WASHINGTON.—Two bills were introduced by Representative Birdsall of Iowa. One authorizes the postmaster general to allow to postmasters in third-class offices, out of the surplus revenue of the respective offices, an amount for clerk hire in addition to allowance for "separating service," as follows:

In offices where the salary of the postmaster is \$1,900, \$600; where the salary is \$1,800, \$500; where the salary is \$1,700, \$400; and where the salary is \$1,600, \$300.

The other bill authorizes the postmaster general to designate offices at the intersection of mail routes as distributing or separating offices, and making reasonable allowances for clerk hire for this work.

Miner's Vote to Accept Scale.

INDIANAPOLIS, Ind.—The tellers completed canvassing the miners' vote this afternoon. Total vote cast, 165,887. For accepting the scale, 98,514; against the scale and in favor of a strike, 67,373. Majority against a strike, 31,141. Secretary Wilson of the United Mine Workers said a meeting of the joint subscale committee would in all probability be called for Indianapolis next Monday, when the scale would be signed for two years and arrangements made to meet in joint convention two years hence.

DECISION IS SOUND LAW.

Is for the Benefit of All Legitimate Interests.

WASHINGTON.—The attorney general, being asked concerning the merger decision, said:

"My views of the decision cannot be better expressed than in the language of one of the best known railroad presidents in the United States upon the decision in favor of the government by the court below. He said: 'The decision is sound law, good and for the benefit of all legitimate interests and for the country's welfare, and it voices the judgment of probably nine-tenths of the most conservative business men of the country.'

"As to the bearing upon other railroads, I have this to say: The government has never claimed that the law is any broader than its language plainly indicates.

"During the trial and argument the government paid no heed to the defendant's contention that the makeup of substantially all the great American systems of railroads was on trial. The government's position was then, that the question before the court was as to the validity of the Northern Securities device."

DEWEY WIRES EXPLANATION.

Why He Failed to Call on President Morales at San Domingo.

WASHINGTON.—Admiral Dewey, who with several members of the general staff and Assistant Secretary Loomis of the State department, are now at Havana, has telegraphed the Navy department the reasons why he failed to call on President Morales of San Domingo when the party were in San Domingo waters several days ago. The failure to visit caused considerable surprise at the time. It appears that there was fighting in progress in the vicinity on the day the admiral did not deem it advisable to make an official visit. During the forenoon there were several casualties in San Domingo city from the fighting then in progress. This was caused from shots crossing the river, through which the boat must pass, and as more fighting was expected during the afternoon the admiral gave up the projected visit. The admiral, however, sent his respects to President Morales by United States Minister Powell.

ARE NOT GOING TO CANADA.

Hill Says They Would as Soon Go to Mars or the Moon.

NEW YORK.—In regard to the report that the Northern Securities company of Canada was to be the successor of the Northern Securities company of the United States, President Hill was quoted as saying:

"We have as much notion of incorporating a company in Mars or the moon as in Canada. We intend to conform to the law."

Later James J. Hill gave out the following:

"Until the full official copies of the opinions and decree of the supreme court have been received and our attorneys have had an opportunity to advise us as to our course of procedure, the officers of the company can make no further announcement than to declare their purpose to promptly and fully follow the law as now interpreted."

MILLARD SEES THE PRESIDENT.

No Change in U. S. District Attorney at Present.

WASHINGTON.—While at the White house Senator Millard talked to the president about the case of William S. Summers, United States attorney for Nebraska, whose removal from office it is said, has been promised by the president to Edward Rosewater of Omaha and Senator Dietrich of Nebraska. Senator Millard put the matter to the president in such a way that no change will be made in the office for some time at least, and Summers will remain where he is until Senator Millard is fully agreed that he ought to be succeeded by someone else. Senator Millard has not yet reached the point of assent to this proposition.

It is said there is no question that Summers will eventually fail of reappointment, but the president will not care to hasten his removal until Senator Millard is willing.

As to Lieu Land Entries.

The house committee on public lands agreed to amendments which it will recommend to the bill reported to the house January 21 prohibiting the selection of timber lands in lieu of land in forest reserves. The amendments agreed upon allow owners of lands in forest reserves, which lands have not been denuded of timber, to exchange the same for other vacant surveyed unmineral lands subject to homestead entries. The purpose of the bill is to prevent persons who have acquired timber lands and denuded the same from exchanging such lands for valuable timbered lands elsewhere. The amendment prevents an injustice to persons who have not denuded their holdings in forest reserves.

Russia Warns the Chinese.

LONDON.—The Standard's Tien Tsin correspondent says that Paul Lesar, Russian minister to China, has renewed his protest against the dispatch of Chinese forces outside the great wall and has intimated that unless they are withdrawn Russia may be compelled to act on the assumption that China is abandoning her neutrality. The minister is also reported to have renewed his threat that on the slightest movement on China's part Russian troops will march on Peking.

VESSEL IS BLOWN

TORPEDO BOAT DESTROYER STRIKES A MINE.

FOUR OF THE CREW SAVED

Russian Boat is Completely Wrecked by the Marine Bomb—Damage It Being Done by Bombardment of Port Arthur.

CHE FOO.—While entering Port Arthur the Russian torpedo boat destroyer Korri struck upon an unplaced mine and was blown up. Four of the crew were saved.

Viceroy Alexieff wires a report confirming our account of the damage done to Port Arthur during the bombardment of March 10. He says the story of a fire there is "a base fabrication."

The United States cruiser Cincinnati arrived at 5 p. m. from Chemulpo reports everything quiet, with no news from the front. At the request of Minister Allen the cruiser brought two former Korean officers, who had left Korea in consequence of their friendship for Russia.

Warnings have been received here confirming previous reports to the effect that the Russians have laid mines along the Liao Tung peninsula and that neutral vessels are obliged to show their colors five biometers off shore and await a Russian pilot.

NEW YORK.—Three Norwegian steamers—the Brand, Argo and Seirstad, released a few days ago by the authorities at Port Arthur, have arrived at Shanghai, according to a World dispatch from that city. The captains, who were put under oath by the Russians to reveal nothing they saw, refuse to speak of affairs at Port Arthur, but the correspondent asserts that members of the crews willingly told what they know. During the bombardment last Sunday the Argo lay alongside the battleship Retvizan in the harbor, and one of the Norwegians confirmed reports to the effect that a Japanese shell fell on the Retvizan's deck, where it exploded, killing nine teen officers and men.

Scarcely a residence in the new part of the town escaped damage. Many of the inhabitants attempted to construct rude bombproof shelters. One shell fell among a crowd of sightseers, who gathered at a point of vantage and were gazing out to sea at the attacking fleet. The shell killed twenty-five.

Three government clerks were killed while hurrying from the port admiral's office.

A cruiser lying at anchor a cable's length from the Retvizan, probably the Diana, was struck on the water line and set on fire. The sailors declare that eighty persons on board perished.

The supply of food in Port Arthur is still sufficient for the needs of the garrison, but it is entirely under the control of the military authorities, who issue daily rations.

CONGRATULATE THE PRESIDENT.

People Send Messages Showing Pleasure Over the Merger Jurors.

WASHINGTON.—Messages of congratulation from all parts of the country are being delivered to President Roosevelt by telegraph, by mail and in person on the supreme court's decision in the Northern Securities case. President Roosevelt personally congratulated Attorney General Knox Tuesday after the announcement of the decision and at the cabinet meeting he renewed his congratulations to Mr. Knox. In his cordial expressions he was joined by the attorney general's fellow cabinet members.

The attorney general, just before the cabinet meeting, declined to indicate what action, if any, he might take in the future in following up the supreme court's decision. He would not say whether he had formed any plans looking to prosecutions of further actions under the Sherman anti-trust act or not. Thus far he has not had opportunity thoroughly to digest the decision of the court and until he has considered it carefully he will not determine, much less indicate, what future action he make take.

CUTS THE APPROPRIATION.

Money for the Lewis and Clarke Expedition.

WASHINGTON.—The house committee on industrial arts and exhibitions considered in an all-day session the report of its sub-committee on the senate bill appropriating \$1,750,000 toward the Lewis and Clarke expedition to be held at Portland, Ore.

The sub-committee cuts the appropriation to \$200,000 for a government exhibit; \$225,000 for government buildings; \$25,000 for an Alaskan exhibit; and authorizes the coinage of 250,000 souvenir dollars. These dollars are to sell at \$2 each and the profit will go to the exhibition company. The full committee will consider the bill again Saturday.

Russia Looking for Contraband.

PORT SAID, Egypt.—The Russian armored cruiser Dimitri Donskoi is visible from this port patrolling in search of vessels carrying contraband of war. It mistook the Italian armored cruiser Marco Polo for a merchantman and stopped it by firing a blank cartridge across its bows. On discovering its mistake the Dimitri signaled apology. The Donskoi stopped the Norwegian steamer Standard this morning. It is said that the Standard was within the three mile limit.

WORK IN SENATE.

The Fortification Measure Has Passed.

WASHINGTON.—The senate passed the fortification appropriation bill Tuesday after a three hours' discussion of the amendment authorizing the purchase of an experimental torpedo boat and the provision for the purchase of sites of defense works in the Hawaiian islands. The torpedo boat provision was stubbornly fought, but the amendment suggested by the committee on appropriations was retained. The Hawaiian provision which had been eliminated by the committee, was restored and the sum increased from \$200,000, as fixed by the house, to \$526,100. Several other bills were passed. One of these appropriates \$1,000,000 for a public building at Atlanta, Ga.

In response to a request from Mr. Lodge, Mr. Perkins explained the reasons which actuated the committee in striking out the house provision of the bill, appropriating \$300,000 for the purchase of sites for defenses of the Hawaiian islands saying that the committee's action had been due to the fact that the government had no option on land for this purpose, which might have the effect of placing the government at the mercy of real estate owners. He also said the amount named was not sufficient.

Mr. Spooner and Mr. Foraker took the position that on account of the outlying position of Hawaii, the United States should be prompt in providing for its protection, and Mr. Perkins said he was willing, if a sum sufficient to accomplish the purpose sought could be secured. In accordance with Mr. Perkins' suggestion Mr. Spooner offered an amendment appropriating \$526,100, instead of \$200,000. This amendment was accepted without division.

By common consent the senate resumed consideration of the torpedo amendment, and Mr. Gallinger offered a substitute, providing for competition, insuring a vessel of the type desired. The amendment was defeated, 17 to 36.

The fortifications bill as amended was then passed and the senate went into executive session.

MERGER GIVEN DEATH BLOW.

Court Holds the Northern Securities Company a Trust.

WASHINGTON.—In the United States supreme court Monday an opinion was delivered in the merger case of the United States against the Northern Securities company in favor of the government's contention that the merger was illegal. The opinion of the court was handed down by Justice Harlan, and it upheld the decree of the circuit court for the district of Minnesota in every particular. Four of the justices dissented from the five constituting the majority.

The division in the court was due to a difference of opinion as to the right of the federal control of the state corporations. The majority opinion holds that congress has a right under the constitution to control interstate commerce, no matter by whom conducted, while the minority of the dissenting opinion was based on the theory that in the present case the effort is to regulate the ownership and is not interstate traffic.

An effort was made by the court to prevent the knowledge of the fact that the opinion was to be rendered Monday from getting to the public, but, nevertheless, it was quite generally understood among attorneys and others for an hour or so before the convening of court Monday that the decision would be announced. When, therefore, the members of the court filed into the chamber at noon they were met by an expectant crowd, which filled every seat, both inside and outside the bar.

DOES IT INCREASE CANCER?

Investigating Effect of Chilled or Frozen Meat.

LONDON.—The question was raised in the house of commons today whether chilled or frozen meat has any injurious effect on consumers, and especially whether such meat contributes to the increasing number of cases of cancer in the United Kingdom.

President Long of the local government board said that while he had no information to the above effect, he thought the matter might properly be referred to the royal commission of inquiry into the causes of cancer, which is now sitting.

DRAFTING STATEHOOD BILL.

Propose to Make Two States Out of Four Territories.

WASHINGTON.—The statehood problem was taken up by the sub-committee of the house committee on territories, recently appointed to draft statehood bills for Arizona, New Mexico and Oklahoma and Indian Territory. The bill making a state of the first two was practically completed. The difficulty of adjusting the taxation and other questions with regard to the admission of Oklahoma and Indian Territory as a state are next to be taken up.

Lining Up for the Fray.

WASHINGTON.—A call was issued for a caucus by the republican members of the senate and house, to be held in the hall of the house Monday evening next at 8 o'clock to elect members of the national republican campaign committee.

Three to One Against Strike.

SEELEYVILLE, Ind.—The seven local unions in this vicinity Tuesday voted against going on a strike. The majority against striking is estimated at three to one.

AGRICULTURE IN WESTERN CANADA.

Its Grain Fields. Ranching Lands. Dairying Resources.

The Editor of the Wisconsin Agriculturist, who was one of a party of editors of agricultural papers who took a trip through Canada during the past spring, writes to his paper in the following strain:

The reason of his visiting Canada was to satisfy himself that the reports coming to his paper regarding the wonderful resources of that country were accurate. In view of the wonderful settlement that was going on there, many from this country crossing the line in search of permanent homes and in view of what he had heard in regard to conditions of soil, water, climate, topography, fuel, grasses, rainfall, markets, etc., and also the influence which these have had on the present and future of agriculture, he deemed it necessary to make an extended trip through all of the above territory.

In speaking of the Province of Manitoba, he says:

"The province of Manitoba comprises within its limits the far-famed grain-growing valleys of the Assiniboine and Red rivers. Although called the Prairie Province of Canada, Manitoba has large areas of forests, numerous rivers and vast water expansions.

"The soil is a rich, deep, mould, or loam, resting on a deep clay subsoil. It is well adapted to wheat-growing, giving a bountiful yield of the finest quality, known the world over as No. 1 hard wheat. During the past ten years the growth of wheat and other grains has steadily increased, until now the production, by 35,000 farmers, reaches over 100,000,000 bushels. Of the 23,000,000 arable acres in Manitoba, probably not one-half of it is occupied. Cultivated grasses yield about two tons per acre and native grasses a ton and a half.

"There can be no question but that dairying will become a great industry throughout the Northwest, and especially cheese-making, as the climate is favorable and similar to that of Ontario.

"Crops grown are wheat, barley, oats, flax, rye, peas, corn for fodder, brome, potatoes, roots, etc. The soil is very fertile and moisture ample. The climate is good and the growing season, while not quite so long as in Wisconsin, matures crops as the sun shines much longer, rising about 4 o'clock and shines until about 9 at night. One can easily read a newspaper at 10 p. m. The long days make growth fast and push crops to maturity ahead of frost.

"The ranching, the wheat-growing and the mixed farming belts all cross over Assiniboia. The yield and the quality of wheat raised along the main line of the Canadian Pacific railway, at such places as Indian Head and its allied districts, have become famous. Its possibilities are shown by the averages of tests made at the experimental farm in 1902, when eleven varieties of the most suitable wheat, sown on April the 19th, were cut in 130 days and yielded 4,314 pounds of straw and 43 bushels and 2 pounds of grain per acre. Its mixed farming area is excellent, its range cattle, horses and sheep are the equals of any seen in the Northwest, and its treeless portion is underlaid with coal. The town of Medicine Hat is heated and illuminated with natural gas. There are abundant deposits of brick, pottery and fire clays."

Agents of the Canadian Government will be pleased to mail an Atlas to any one interested and also all other information regarding railway rates, etc.

When a man marries he wants something clinging to cling to.

Teosinte and Billion Dollar Grass. The two greatest fodder plants on earth, one good for 14 tons hay and the other 80 tons green fodder per acre. Grows everywhere, so does Victoria Rape, yielding 60,000 lbs. sheep and swine food per acre.

JUST SEND 10c IN STAMPS TO THE John A. Salzer Seed Co., La Crosse, Wis., and receive in return their big catalog and lots of farm seed samples. (W. N. U.)

Self-conquest is the greatest of victories.

Pleasure is but a weed, joy a fruit.

FREE TREATMENT to every Sufferer of Stomach, Heart and Nervous Disorders.

The Eimo Chemical Company, 360 Good Rock, Des Moines, Iowa, has discovered a new and wonderful medicine which they call "Eimo-Castine" which gives immediate relief and permanently cures every case of Stomach, Heart or Nerve Diseases that have tried it. They have made arrangements to give away 50,000 25-cent boxes of Eimo-Castine in the United States to people afflicted with any disease or weakness of the Heart, Stomach or Nerves. They want every body to try it at their expense. Send no money or stamps—just write your name and address plain and say what paper you saw this in and get a box of this wonderful medicine free, get well, and tell your friends, that's all we want. Write today.

Talents are tools, not merchandise. Love is always far sighted.

RED CROSS BALL BLUE Should be in every home. Ask your grocer for it. Large 2 oz. package only 5 cents.

Give a woman authority and you convert her into an autocrat.

When Your Grocer Says he does not have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12 oz. packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 16 oz. to the package and sells for same money as 12 oz. brands.

Opportunity is the cream of time.

Are you going to the World's Fair and don't see the Christian Endeavor Hotel because it will be headquarters for Christian people, educators, etc. Now is the time to arrange for low rates. Write at once for booklet giving particulars. Address Christian Endeavor Hotel Co., Chemical Building, St. Louis, Mo.
