Your doctor will tell you that thin, pale, weak, nervous children become strong and well by taking Ayer's Sarsaparilla. Small doses, for a few days.

Sarsaparilla

The change is very prompt and very marked. Ask your doctor why it is. He has our formula and will explain.

"When 13 years old, for many months no one thought I could live because of thin blood. But, in a few weeks, Ayer's Sarsaparilla com-pletely restored me to health."

ARNOLD,

Mr. and Mrs. Conant of Yucan Valley. was on our streets a few days ago. They brought in cream.

Mrs. G. Walker is having a wind mill erected on her farm south of town. Mr. Hutchms is doing the work. Meade & Belts furnished the mill.

Mr. Meade has moved a building, pur-chased lately, on the west side of the old sod parsonage of the Methodist church, where he will be at home next week to welcome his friends

Will Judkins has rented his farm to Bart Morrs. Mr. Judkins will put his time in milking his cows, shipping cream, feeding hogs and building him a fine barn and making other improvements.

Rev. Wise, pastor of the M. E. church is assisting Mr. Hoffman in his store, what time he can spare from his flock. Mr. Hoffman has a gasoline engine erected in his creamery to assist him in his

Windy, dry, cool and clear weather with little rain. If more moisture would penetrate the earth, so that real estate could not change hands so often, we could become better acquainted with our neighbors. Yet think of our eastern brothers in the clutches of icy winter with two feet of snow and good sleighing. The farmers are busy hauling up their summer's wood; while in Nebra-'a. farmers are sowing wheat. Who could not stand up for Nebraska.

Attention Farmers____

Why remain in the North and stay in doors six months in the year consuming what you raise during the other six months?

Go South where you can work out doors every month in the year, and where you are pro-ducing something the year round. If you are a stock raiser you know your stock are now 'eating their heads off' and, besides, have to be protected from the rigors of winter by expensive shelter.

Economical stock feeding requires the combination of both flesh-forming and fat-forming foods in certain proportions, Alabama and Florida produce in abundance the velvet bean and cassava, the first a flesh producer, and the latter a fat producer, and they are the cheapest and best fattening materials known to the world.

More money can be made and with less labor, in general farming, fruit and berry growing and truck gardening along our road in the South than in any other section of the Union.

Assessors Meeting.

Broken Bow, March 29, 1904. A meeting of the deputy assessors of Custer County, was called by Jules Haumont, county assessor, at the cunty seat on the above date, for instructions relating to their duties. James Chittick was elected secretary, The different items on the schedules were discussed pro and con and decided to the satisfaction of all, by County Attorney Humphrey.

Numbers 3, 4, 13, 15 and 85 on the schedule are the only ones from which deduction may be allowed for bona fide debts.

Moved and seconded to adjourn to 1 p. m.

1:30 p. m. meeting came to order with Jules Haumont, county assessor in chair.

The discussions were continued on the different items clear through the schedule, and the opinion arrived at, that under the law, no classification of any kind of personal property is possible, but that everything of value, must be listed at its fair cash value, and assessed at 20 per cent of that value. Real estate assessment was discussed. Classification of real estate was found to be undesirable and impracticable under the law and it was decided that every piece of property, should be considered by itself, and assessed according

to its value. Deputies were instructed to use their best judgement and absolute impartiality in assessing property. JAMES CHITTICK,

Secretary.

Death Loves a Shinning Mark

Little Mable Beatrice Johnson, daughter of P. C. and Julia Johnson, was born January 28, 1902, in Custer county, Nehraska. She left the cares of this world behind her for that brighter shore above, at 10 p. m., Friday, March 25th, 1904, after one week's illness with lung fever. The little girl was compelled to endure much suffering before her patient little soul took its flight. Her sweet winning ways made her doubly dear to her loving parents, and now that she has left them only the memory of her fair face and merry laugh rethe Armory on Thursday, April mains to cheer them, while they 7, instead of the 6th as per for- linger here awaiting the summer notice. Every member is mons from on high when they can meet her where sorrow and death are unknown.

How charming was that lonely flower, Tho' it bloomed to fade and die, It withered at an early hour, Then soared to God on high

Of all the flowers it seemed most fair, With tint and smile so gay; The object of its parents care, Till it was called away.

How ardently we loved that one, Whom God to us had given; A lovely, smiling little one,

But now she dwells in Heaven How oft the lips were pressed to ours, Of that angelic form But oh! how swiftly fled the hours,

And we are left to mourn. What! mourn? Because "the Lord had

Nay, better praise God's holy name, For calling her to rest; And spread abroad our Savior's name, Who said that "Such are blessed.

Yet human nature finds it hard, When such a tie is broke: The thoughts and feelings well to guard

And thank God for the stroke. But God can all our sorrows heal, His grace can well reme; The anguish that our spirits feel,

And fill our hearts with love. As job, with troubled heart could say So we can say the same; "The Lord who giveth, took away, And blessed be His name."

Colonist Rates.

During March and April the Burling on will sell one way tickets to the Pacific coast at very low rates. Here are some of them

\$27.40 to San Francisco and L Angles. \$25 to Portland, Tacoma and Seattle.

\$25.50 to Spokane. \$20.00 to Butte and Helena. \$16.75 to Big Horn Basin, Wyoming. Proportionally low rates to hundreds

of other points. These rates offer an excellent opportunity to see the great Northwest which presents unusual attractions to the home seeker. It possesses the iron and lumber of Michigan, the wheat of Minnesota, the wool of Ohio, the fisheries of New England and a seaboard rivaling the At-

lantic Coast If you will tell me where you are going shall be glad to give you full information about rates and train service and send you advertising matter descriptive of these wonderful sections.
