The Before and After Idea
is used considerable, but it illustrates the way some see a person before and after we have made a good pair of
GLASSES
The grinding of the glass is the most important, still, the fitting should be carefully done as it is here. You can have any kind of clips you want but we recommend the Anchor for most people.

IRRIGATION.
BIG HORN BASIN.
Your spare time will be spent well if you will use it in making a trip to this new irrigated country. The United States will not be long now in getting under irrigation all the land that is subject to this class of farming, as it is becoming the most popular way to farm for sure results. This country is yet in its infancy, and homeseekers should avail themselves of this opportunity to get a farm in the Big Horn Basin. Just now you can get the choice of this land at a very low price, and you will be surprised what a delay of a few days will do for you in the price of this land.
Post yourself on this country by writing for booklet descriptive of the Big Horn Basin and any other information you may desire.
We will make very low round trip rates to this country the first and third Tuesdays in May. J. FRANCIS, General Passenger Agent, Burlington Route, Omaha, Nebraska.

No Lack of Candidates.

The republicans are not likely to be short of candidates for for legislature timber in this district.

The Chronicle-Citizen announces the candidacy of A. H. Copssey of Westerville, for re-election to the house and M. L. Fries of Arcadia to the Senate. The Argorsy of Westerville, we are told has brought out the name of W. S. Mattley of Ansley, also as a candidate for the Senate. The Loup Valley Queen suggests the name of Ira P. Mills of Arnold, as a candidate for representative. There are doubtless others who would not decline the honor if tendered them. Those so far mentioned are among our best citizens and should they be chosen doubtless would be acceptable to the republican voters.
