There are styles in drinks just the same as there are in clothes. We would like to be able to get up a series of fashion plates, showing pictures of all the new drinks that are to be popular this season.

For a new drink to become the fashion, means that it must be more delicious, more inviting, more alluring than any of the old ones.

It has been difficult for us to improve upon last year's favorites, but we have done it. We offer you several new combinations of such quality that when you have tried them once, they will even afterwards entice the many nickles and dimes from your pocket whenever you find yourself in our vicinity.
