**GREAT ROOSEVELT**

Nebraska Gives Him About 75,000

STATE TICKET AND STATE LEGISLATURE REPUBLICAN.

GOV. MICKEY PULLS THROUGH WITH 7,000 TO 10,000.

Custer County Makes Republican Gains Except on County Attorney, Candidate for Representative Mathews and Members of the County Board of Supervisors.

The election Tuesday was a strong endorsement of the republican national administration. President Roosevelt not only carried all the doubtful states with large majorities but is credited with breaking into the democratic ranks and capturing Maryland and Missouri.

New York is reported 250,000 majority for Roosevelt and Indiana from 60,000 to 70,000.

The election in Nebraska shows the state to be safely republican. Governor Mickey defeats Berge. His majority will be at least 7,000. The other state officers are elected with majorities ranging from 15,000 to 20,000.

The six republican candidates for congress are elected by safe majorities. Kinkaid of this district will doubtless lead all the others in majorities.

The state legislature will be republican by a good working majority. This assures the election of Congressman Burkett to the United States Senate.

Custer county gave Roosevelt a majority of 1,736. Gov. Mickey was the lowest of the state candidates his majority being 140. Senator Fries carried the county over McLean by 322 votes. Copsy has a plurality over Mackey of 176. Mathews fell below Mackey 15.

The vote on county attorney was also a close contest with 16 in favor of Johnson, the fusion candidate.

Three populist candidates for county supervisor were elected. G. H. Thorpe, the present chairman of the board, is the only republican elected. His majority is 123, a gain of 24 over his election two years ago.

The vote on county attorney and representative is so close that the official count may change results.

Hall Schneringer, populist, was elected supervisor on the Callaway district over F. J. Drum by 22 votes, the result of a factional fight.

The fine vote in Victoria precinct for Roosevelt and Kinkaid was a deserved compliment as that township was the strongest democratic precinct in the county. Roosevelt's vote was 94 and Kinkaid's 84. Both McBrien and Mortesen got good votes in that precinct. Last year the vote on supreme judge in that township was 48 for Barnes and 108 for Sullivan. The vote for Fries and Copsy was 81 and 80 respectively which shows their popularity in that vicinity.

The great popularity of President Roosevelt has been fully established by the vote Tuesday. Nebraska, this Thursday morning is claiming a majority of 75,000 for him. These figures exceed the expectations of the most extravagant forecasts. No one thought of his majority exceeding 50,000. But when such old line democratic states as Missouri comes into line with a majority of 10,000 for Roosevelt there is no longer a question about his popularity throughout the country. The electoral college as is now estimated will give Roosevelt 343 votes to Parker's 151.

GOVERNOR MICKEY.

Probably a stronger political combination was never organized against a successful candidate than Gov. Mickey had to contend against.

Not only the democrats and populists were combined against him but nearly every corporation interest in the state as well as some of the corporations outside of the state that do business in the state.

These several interests succeeded in prejudicing a very large vote against him in the republican ranks. While a great many could give no good reason for opposing him yet they had got it into their heads that there was something wrong with the chief executive and for no special reason cast their votes against him.

Fortunately for the republicans with all the combined opposition in and out of the party he was re-elected with a majority of from 7,000 to 10,000.

This means two more years of republican administration and two more years of economic administration in the state institutions. For with all the opposition his opponents had to concede that the affairs of the state institutions over which he has supervision have been conducted in a most satisfactory and conservative manner. The same methods will doubtless be observed the ensuing term. His reelection over such a strong combination with a majority of 10,000 is not a bad showing.

**Constipation.**

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having tried Herbine, I find it a fine medicine for constipation." 50c bottle. Sold by Ed. McComas, Broken Bow and Merna.

**BREAK IN SOLID SOUTH**

RETURNS INDICATE REPUBLICAN VICTORY IN MISSOURI.

FOLK IS ELECTED GOVERNOR

Indications Are That a Republican Will Succeed Francis M. Cockrell as United States Senator—Gain Seven Congressmen.

St. Louis, Nov. 10.—With incomplete returns at hand and the result of the state and national election coming in slowly from the outlying counties, Roosevelt has broken the "solid south" by carrying Missouri for the Republican party for the first time in thirty years.

Fifty-eight widely scattered counties, out of 114, give the national ticket a plurality over Judge Parker of 12,692. Joseph W. Folk (Dem.), for governor, running in the neighborhood of 35,000 ahead of the state ticket, is given a plurality of 31,643 in the same counties, which include the city of St. Louis.

Carried with the Republican landslide are the candidates for congress in eight of the sixteen districts, a Republican gain of seven, and the semi-official returns from the state legislative districts give a Republican majority of fourteen on joint ballot in the next generally assembly.

This will mean the defeat of United States Senator Cockrell for reelection. His probable successor will be either Cyrus R. Walbridge, Republican candidate for governor, or Thomas K. Niedringhaus, chairman of the Republican state committee.

The returns on other than the heads of the respective state tickets are meager and it is impossible to predict with any degree of certainty the outcome when the official vote is received. It appears, however, that, except the candidate for governor, the entire Republican state ticket is elected by small majorities and that the election of Mr. Folk is a great personal record victory, as he went out of St. Louis 5,000 to 10,000 ahead of his ticket, and with 8,000 greater plurality than was given Roosevelt, who carried the city by 2,000 plurality.

Just previous to the closing of the Democratic state headquarters here, Chairman Evans of the state central committee stated: "From the incomplete returns in our possession, we don't concede, but we do look for a Republican majority in the next state legislature."

Few additional returns were received at either Republican or Democratic headquarters, although the few that did come in strengthened the belief that the legislature would be Republican by a majority of six to twelve on the joint ballot to elect a successor to United States Senator Cockrell.

Mr. Folk sent replies to the telegrams from William J. Bryan and Judge Parker, congratulating him on his election as governor. Mr. Folk's messages were identical, as follows: "I sincerely thank you for your congratulations. My plurality will be between 30,000 and 40,000."

Kansas City, Nov. 10.—The Star says: Roosevelt has carried Missouri by 10,000 to 15,000. The only Democratic state candidate elected is Folk for governor, who made a remarkable race against the Roosevelt landslide. His plurality will be about 25,000. The legislature is in doubt, with chances favoring a Republican body to select Senator Cockrell's successor. Chairman Evans of the Democratic state committee concedes the election of eight Republican congressmen in Missouri. They are: Frank D. Kiepper, in the Third district; Frank B. Fulkerson, in the Fourth; Edgar C. Ellis, in the Fifth; John Welborn, in the Seventh; Richard Barthold, in the Tenth; Marion R. Rhodes, in the Thirteenth; William T. Tyndall, in the Fourteenth, and Cassius M. Shartel, in the Fifteenth.

Chicago, Nov. 10.—Vice Chairman New, Secretary Dover and National Committeeman Lowden were confident at western headquarters that Missouri had been landed safely in the Republican column and the Mason and Dixon line once more broken.

**Rhode Island.**

Providence, R. I., Nov. 10.—Complete state returns show that President Roosevelt received the largest vote ever cast in Rhode Island, and his plurality of 16,000 is greater, with the exception of that of 1896, than any presidential candidate was given here. Lieutenant Governor George H. Utter (Rep.), who succeeds Mr. Garvin (Dem.), candidate for a third term, had but 594 plurality over his opponent. Representatives Granger (Dem.) and Capron (Rep.) were re-elected to congress.

Debs' Vote Is 600,000. New York, Nov. 10.—William Mailley, national chairman of the Socialist party, wires to a local newspaper that incomplete returns justify an estimate of 600,000 votes cast for Debs and Hanford. He says Illinois leads, with 75,000 votes, of which 42,000 were cast in Chicago.

Prohibitionists Are Satisfied. Chicago, Nov. 10.—"Prohibition is well satisfied with the showing in the election," said Oliver W. Stewart, national chairman of the party. "Returns received at national headquarters in this city indicate that Dr. Swallow, our presidential candidate, polled at least 300,000 votes."

**A Featureless Special Sale**

Is usually without interest to anyone, but our **Every Day Special Prices** GIVES A BENEFIT TO EVERY PURCHASER.
