Lincoln Letter.

Special Correspondent—

Lincoln, Neb., Jan. 30, '05.

The legislature is now well under way, with a number of important measures under consideration. The number of bills, however, is smaller than usual, indicating that the members are introducing only such, as seem to be necessary, and are not flooding the state with trivial bills for purposes of buncombe.

Some of the important matters under consideration are as follows: S. F. 30, by Shreck, providing for county option in the granting of saloon licenses, so that all the voters of a county may vote on the establishing of a saloon in any part of the county. It is said that the churches and temperance workers over the state have united in support of this bill.

H. R. 7, by Dodge, providing for direct primaries, along the lines of the Wisconsin and Minnesota laws. Also bills to the same effect by Senator Cady and Representative McMullen, these two being different from the Dodge bill in that they provide for the nomination of U. S. Senator, and do not provide for direct nomination of state officials. They, with many other members, argue that the important thing is the direct nomination of Senator. The Dodge bill omits that feature.

H. R. 13, by Voter, providing for a landlord's lien on crops to secure the collection of rents. This bill was killed in the House.

H. R. 2 and 4, providing for the election of precinct assessors.

H. R. 12, changing the assessment ratio to one-third the actual valuation, H. R. 59, providing for the re-assessment of real property in 1905, and several other bills affecting the revenue law, none of which have general support except the one providing for additional power in equalization by the state board.

H. R. 49, by Ernst, providing for a binding twine factory at the penitentiary, and appropriating \$45,000 for the establishment and \$50,000 for the running expenses of the factory. This proposition is attracting general attention, and a bill along the same line will be pushed forward in the Senate by Cady, who thinks a committee should investigate the work of similar factories in other states. It is proposed to work the state prisoners thus without competition with home labor, and at the same time aim an effective blow at the binding twine trust.

S. F. 19, by Epperson, providing for the detention and care of inebriates and morphine fiends at the Lincoln asylum at the expense of the state.

S. F. 33, by Griffin, providing for the election of prosecuting attorneys in the judicial district

to take the place of county attorneys.

H. R. 18, by Kyd, providing that all bridges must be contracted on competitive bids, after the utmost publicity.

H. R. 72, by Casebeer, prohibiting the sale of cigarettes and cigarette paper.

The above seems to be the bills on subjects that are attracting the most general attention. The direct primary bills easily outrank the others in public discussion, and it is probable that they will come up for early action in both houses. There is also much talk of new road laws, and it is certain that some important measure on this subject will get through.

The matter of a new apportionment of the state is just now much discussed. The last apportionment was made fifteen years ago. Now many of the districts complain that they are under-represented, and that some counties in the older part of the state are two well favored. The representation in the House ranges all the way from 1,300 votes per member in one district up to 6,000 votes per member in another district. Some of the Senators represents as high as 50,000 apiece, while others range down as low as 18,000. The constitution requires a re-apportionment every five years, but it has not been obeyed for a number of sessions.

Successful Farming.

Lodi, Nebr. Jan. 30, 1905.

EDITOR REPUBLICAN:—Nebraska is recognized as one of the great corn growing states, considerable of the corn being in the field yet. The corn-husking machine will probably be successfully used by the larger farmers within five years. Two row listers and cultivators have greatly increased the acreage of corn in Custer County. Still many farmers use the one row cultivator and a two horse team. The seed corn question has been ably discussed by our university men and the press.

The question, how many acres can one man cultivate well, must be considered by the intelligent farmer.

The writer is acquainted with three farmers farming in the same neighborhood. The first two farmed about 80 acres using one row machines. The third farmer bought a two-row cultivator last spring and laid his corn by with his machine. He raised more corn than both his fellow farmers.

Farmer number three did all his work in his corn until husking time. He used four horses in cultivating. After paying for his cultivator (about forty dollars) he was a thousand bushels of corn ahead. So much for his experiment and the use of the extra two horses. Farming needs skilled laborers as much as any business. A few additional dollars invested in up to date machinery would enable many of the farmers to be able to build barns next fall.

The cold weather and snow are very encouraging to the would-be farmer. A few dollars invested in forest or fruit trees would encourage farmer's sons and daughters to like the home and country life. During the long evenings the discussion of some plan for farm work would not only interest but with a well directed effort would repay in money value.

Get a hobby and ride it successfully!

College News.

Jessie Brown of this city, enrolled in the shorthand department Monday.

Granville Rapp was called to his home at Berwyn last Friday by the serious illness of his mother Mrs. Peter Rapp.

Olive Griffith, one of our seniors in the shorthand department is absent this week, owing to la-grippe and overwork.

Supt. Epley is busy this week canvassing for the college. Mr. Epley is a live superintendent and takes a great interest in the college.

The first formal meeting of the College Literary Society was held in the commercial room of the college building last Tuesday evening. The following officers were elected: Pres., John Gillings; Vice Pres., Edw. E. Alexander; sec., Alice Huffaker; treas., Prof. C. E. Huff; Sergeant-at-arms, Clarence Johnson; doorkeeper, Frank Robinson; Critic, Prof. C. Mohler. The society is exclusively a college organization and will hold its meetings every Thursday evening at the college rooms. The students greatly appreciate this phase of college life and an interesting society is promised. In connection with the organization of the society, the "Economical Boomerang" the official college paper made its appearance and although some what expensive the Boomerang promises to take its place among our leading magazines.

ORTELLO.

J. F. Baker is building a granary on his farm.

About seven inches of snow has fallen since our last items a week ago.

Albert Hill was not at school Monday of this week, on account of sickness.

C. D. Day and E. D. Baels were doing business at the "Hub" a couple of days last week.

F. C. Embree's children of whom mention was made in our last, are all up and around, after all the scare.

Mrs. Fodge visited at Mr. Amos Lewis at Custer Center one day last week, returning home on Saturday evening.

Harry Kellenbarger and bride made their first appearance among us Sunday and were receiving congratulations of friends.

Nellie Mill came over home after school Friday remaining until Monday morning. She says she didn't know home was so nice; we guess she was a little homesick.

Jasper Beals and John Teahan captured a coyote Monday in Fred Anderson corn field after a short race. Jasper says this is the third one he has helped to catch within a week.

The severe weather of Tuesday and Wednesday prevented many from attending "The Farmers Institute," among those who were in attendance however, we see J. B. Waddington, J. K. Kellenbarger, G. O. Joyner, F. L. Beals, F. C. Embree, A. D. Hunt, wife and daughter Clara and Acsah.

The second quarterly conference for this charge was held Saturday and Sunday, Presiding Elder Boyd of Hastings, conducting same. Owing to inclement weather, there were no members from other classes present. Rev. John Street of Custer Center was in attendance that he might take the Eld-

er to Hoosier Sunday night.

He preached Saturday evening at request of Elder and was attentively heard by a small audience.

Surprise Party.

The home of E. D. Marquiss, 17th and Ash streets was the scene of a very pleasant surprise party on last Friday, January 27. That date being Clifford's 18th birthday, quite a few of his old friends and schoolmates, determined a surprise. The usual number of games, new and old were indulged in. Supper at 12:00 p. m. All present wish Clifford many such birthdays.

Following is a list of those who were bidden and accepted:

Mesdames, Myrtice Miller, Helen Osborn, Emma Johnson, Merle Miller, Milla Luce, Olive Osborn, Doris Rector, Milla Smalley, Violet Osborn, Bertha Shackelford, Muade Marquiss, Mrs. Nellie Marquiss, Elsie Osborn, Clella Shackelford, Ota Reeder and Glen Rector.

Messrs. Ross Humphrey, Ira Bass, Clarence Johnson, W. E. Roberson, Chas. Robinson, Will Reeder, Prof. C. E. Huff, Prof. Chas. Mohler, Jas. Thomas, Ashville Vanice, Willie Shackelford, Artie Pittway, Clyde Marquiss and Frank Robinson.

A Business Change.

W. S. Kennedy and H. A. Watts have bought the entire interest in the Watts, Kennedy Co. dry goods store. Mr. W. S. Kennedy to new member of the firm is one of our well to do and substantial citizens and his association with Mr. Watts in this business will give the firm financial strength and increased business. We bespeak for the new firm a successful career. See their ad in this issue.

Highlander's Program.

The Highlanders have arranged a program for their next meeting which will be held the first Tuesday in February which is the 7th. H. A. Phelps, deputy organizer is here and will be present to assist in tower building.

The committee has arranged for the following program.

Address..... D. M. Amsherry
Vocal Solo..... Mrs. Eliza Sheppardson
Select Reading..... Harry Kimball
Recitation..... G. H. Tuttle
Address..... A. H. Phelps
Vocal Solo..... Howard Kennedy

As the Deputy has a special offer to make the members it will be to their interest to be present. The refreshment committee will supply the entertainment at the next meeting.

The Fifth Sunday Meeting.

The missionary committee of the Baptist Custer association has planned for the year to hold special meetings with some church of the association on each fifth Sunday. The first of the series was held in the Broken Bow church last Saturday and Sunday. The meetings were presided over by the chairman of the committee, Rev. J. R. Woods of Mason City. The weather being very unfavorable not many of the churches of the association were represented, but the sessions were interesting

and the topics presented Saturday afternoon and night were quite generally discussed. The churches represented by delegates were Ansley, Mason City and Merna.

The question of the Nebraska Wheel plan was ably presented Saturday night, by Mrs. J. H. Kerr of Ansley. The subject of the need of a B. Y. P. U. in every church was ably presented by Prof. A. L. Pierce of Mason City.

C. H. Cass of Merna was among the number who entered into the discussion of the several subjects presented. The pulpit was occupied Sunday morning by Rev. J. R. Woods and Sunday night by Rev. Barrett. Both sermons were able and highly appreciated. At the junior session Sunday afternoon, Mrs. J. H. Kerr, Revs. Woods and Barrett gave interesting talks. It was decided to hold the next fifth Sunday meeting at Merna.

Luther Pickett of Overton was a welcome caller at this office Monday. He came over Sunday to see his father Dr. C. Pickett who has been in poor health for the past week or two with an attack of the Lagrippe. He returns Monday by the way of Callaway so as to visit his brother L. N. who lives in Custer Canyon.

Mrs. Dr. D. W. Young of Ansley who had been visiting Mrs. Kate Mullins and other friends in the city returned home Saturday.

LEAVENED BREAD

Has Been Man's Constant Mainstay From Time Immemorial.

Some writer has said that "The first miller emerging from his savage state, with no thought save hunger, plucked the wheat from the stock, and first grist for a customer who would not be denied—his stomach." Thus gaining experience by test in the food line, it would be only natural for this miller to lay up a quantity of grain against an hour of need. Just when he commenced grinding his wheat in the rude stone mortar and moistening the flour preparatory to baking it in the ashes of his camp fire, and just when it was found that an old piece of dough in a fresh batch made it better or "leavened" it, is beyond the reach of historians. Certain it is that though the principle was the same thousands of years ago as it is to-day, it has remained for the makers of Yeast Foam to supply a yeast with all the true leavening powers minus the properties that produce sour, "runny" or soggy bread. This is the yeast that took the first grand prize at the St. Louis Exposition, and revolutionized the bread making in every home where it is used because much better bread can be made with it from any flour.

Yeast Foam is purely vegetable, being made of the best malt, corn, hops and other healthful ingredients. The factory is also the cleanest and best equipped in the world. This yeast is the only kind that preserves in the bread all the delicious flavor and nutritive value of the wheat. The bread made with it is always sweet and wholesome and stays moist until used. Forty loaves of bread can be made from one 50c package. The makers of Yeast Foam are giving out a new book called "Good Bread; How to Make It." This little book, invaluable in its way, has twenty-six illustrations in colors, and tells how to make all kinds of bread, biscuits, buns and rolls, as well as containing other recipes which will be found invaluable in the home. The way of preparing the different recipes is very clear and comprehensive. The book will be sent free to any one sending their name and address, with a request for same, to the Northwestern Yeast Company, Chicago, Ill. Every woman who bakes should secure a copy.
