GOOD ROADS SPECIAL.

The Burlington and Northern Pacific Roads Will Run Train to Pacific Coast, in Interest of Good Roads.

Arrangements have been completed between the National Good Roads Association and the officials of the Burlington and Northern Pacific roads, to install a Good Roads Special over these systems, to leave Chicago Wednesday, May 3. It is to be known as the Burlington & Northern Pacific Lewis & Clark Good Roads Special, and will cover an itinerary of 45 to 50 of the principal and most progressive cities of the systems.

The object of this itinerary is for the agitation, education and organization of communities for permanent improvement of primary roads, and to aid cities in questions of street paving, etc. Government experts and men of national reputation will go on this Special, and participate in the conventions. The entire arrangements, so far as the Burlington system is concerned, have been passed over to the charge of W. H. Mass, Industrial Commissioner. After completing the itinerary of Burlington cities the Special will continue from Billings to the Pacific Coast, over the Northern Pacific, and will hold a final convention the last of June, to be known as the Pacific Coast National Good Roads Convention. The full equipment of the Special is provided for by the Burlington and Northern Pacific roads, whose object is to aid the cities on their systems in the improvement of public roads. The first stops will be in seven or eight principal cities of Illinois, then a number of cities in Missouri, also in Iowa, Nebraska, Wyoming, Montana, Washington and Oregon.

Time is the great comfort of grief, but the agony by which it works is exhaustion.—L. E. Landon.

LYMAN COUNTY EXTENSION.

The Chicago, Milwaukee & St. Paul Railway has decided upon an extension of its line from Chamberlain west through Lyman County, opening up a region of cheap lands, rich in agricultural resources, and in which there is already much deeded land, also a large acreage that may be had under the homestead law. Lyman County is in the southern part of South Dakota, adjoining the Rosebud Indian Reservation on the north.

The soil of Lyman County is one of the richest in the state. It has produced corn of an excellent quality, having taken first prize at the Mitchell Corn Palace during several of the past exhibits. It is well adapted to the growth of wheat, oats, barley, speltz, and other small grains. Land is selling now at the rate of from \$5 to \$12 an acre, and as soon as the railway extension is made it is safe to say that such lands will increase in value from 100 to 200 per cent.

That Lyman County has lacked heretofore has been ability to get products across the Missouri river to markets. The extension of the Chicago, Milwaukee & St. Paul Railway will solve that problem and will make it one of the richest sections in the West.

If money didn't talk it would be useless to put a woman's head on the silver dollar.

NO TONGUE CAN TELL

How I Suffered with Itching and Bleeding Eczema Until Cured by CUTICURA.

"No tongue can tell how I suffered for five years with a terribly painful, itching, and bleeding eczema, my body and face being covered with sores. Never in my life did I experience such awful suffering, and I longed for death, which I felt was near. I had tried doctors and medicines without success, but my mother insisted that I try Cuticura. I felt better after the first bath with Cuticura Soap and one application of Cuticura Ointment, and was soon entirely well. (Signed) Mrs. A. Etson, Bellevue, Mich."

Washing Blankets.

Have ready three tubs of moderately warm water; for the first water make a strong suds by using plenty of Ivory Soap. In this put a pair of blankets and stir with the clothes stick until clean; then rise through the other two waters, putting a little soap in each. Wring by hand and stretch carefully on the line. —ELEANOR R. PARKER.

Baptize the mind with the passion of true ideals.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 4-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If a grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

More Flexible and Lasting, won't shake out or blow out; by using Defiance Starch you obtain better results than possible with any other brand and one-third more for same money.

Some sermons glisten because they are frozen.

Superior quality and extra quantity must win. This is why Defiance Starch is taking the place of all others.

All drug stores or by mail 25 cts. and 50 cts. Buy it to try. LANE'S Family Medicine moves the bowels and drives out the poisons which cause disease. Address, O. E. Woodard, La. Bldg., N. Y. C.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'BRIEN, 323 Third Ave. N., Minneapolis, Minn., Jan. 6, 1900.

To Fill Cracks.

To fill cracks in a floor, make a paste of one pound of flour, three quarts of water, and tablespoonful of alum; mix thoroughly and boil. Soak small pieces of newspaper in this paste until the mixture is as thick as putty, then force into the cracks with a knife, and it will harden like paper mache.

Cure for Insomnia.

One who suffered from insomnia recommends bandaging the eyes with a handkerchief when preparing to rest for the night. The explanation of the cure is that the bandage induces sleep by driving the blood from the eyes and relieving the strain of trying to see in the dark.

Mix With the People.

A teacher says that she has observed that in some school districts the people take no interest in the teacher beyond the work they exact of her. It will generally be found that the teacher is herself to blame, as she does not mix with the people.

Last of the Maine Pines.

Not all of the old growth pines have disappeared from the Pine Tree State, but the survivors are disappearing. Several of them went in North Waterford the other day, when Elton York cut three immense pines in the pasture and hauled them to the mill to be made into box boards. The largest was four feet in diameter and showed 150 annual rings. So passes the glory of the forest to be made into soap boxes.—Norway (Me.) Advertiser.

Bookmark Easy to Make.

For an easy to make bookmark take a square envelope of rather heavy, pretty paper. Clip off the corners and you have four little caps, any one ready to slip over the corner of a page to mark a stopping place. They can be painted with little flower designs if wanted or the edges touched off irregularly with gold or silver paint.

Insists on Getting It.

Some grocers say they don't keep Defiance Starch because they have a stock in hand of E-ounce brands, which they know cannot be sold by a customer who has once used the 15-ounce package. Defiance Starch for same money.

Left-Handed Shotgun.

A shotgun recently manufactured by a Connecticut firm was a special order for a man who uses his left eye to aim with, the right eye being sightless. The stock and lower frame of the gun were twisted so that the gun shot without discomfort. The gun is the third made for this man in the last twenty-five years.
