He has ordered a four-horse power Orient Buckboard from Waltham, Mass., and expects to use it on his mail route and also for other running about. The condition of the roads now will not admit of the use of the Auto but as the trip over the mail route can be made in three hours with it, it is hoped that the patrons will smooth up the rough places so that the better service can be secured. Mr. Amsberry has a letter from a rural mail carrier in Massachusetts who has served his route successfully with an "Orient" for more than a year and he is therefore greatly encouraged to undertake the project here. It is expected that the machine will be put on the route about July 1, Mr. Chas. Huckleberry, of Broken Bow, has been engaged as chauffeur to teach the new owner how to run the Auto.—Mason City Star.
