

CUSTER COUNTY REPUBLICAN.

ESTABLISHED 1882. THE OFFICIAL PAPER OF CUSTER COUNTY. LARGEST CIRCULATION OF ANY PAPER IN THE COUNTY.

VOL. XXIII.

BROKEN BOW, CUSTER COUNTY, NEBRASKA, THURSDAY, JULY 20, 1905.--EIGHT PAGES.

NO. 6.

P. T. Barnum said: "The American people like to be humbugged." We should dislike to believe in the truth of this assertion. Yet the people almost prove its truth in their treatment of traveling spectacle peddlers. The rural districts especially are filled with these so-called "Doctors," "Occultists" and "Opticians" who make a good living by imposing on the credulity of humanity. These quacks are all glib talkers, and can convince any one who will give ear, that the listener is on the verge of blindness. I have people visit me almost weekly, who have paid \$3 to \$10, and often more, for glasses any located dealer could furnish for 50c to \$1

The past several days have given the corn a new impetus and it is fairly cracking, so rapidly is it growing.

Much of the corn in Custer county has necessarily been laid by on account of the small grain being ready to harvest.

The parents of the Weesner boys left for their home at Marian, Ind., last week after a pleasant visit of three weeks here.

We now have been without rain for two weeks, which has given the farmers a chance to catch up with their work, partially at least.

Miss Lottie Simms, who has been at Omaha for some time for medical treatment returned home last Saturday very much improved in health.

Miss Mary Holderman of Morris, Illinois, who has been visiting, with her sister, Mrs. Willis Cadwell for several weeks returned home Wednesday of last week.

R. G. McGrew, cashier of the Callaway State Bank, accompanied by his wife and a cousin, drove over Tuesday to see the latter safely started for her home in Iowa.

G. R. Street, who has for a number of years been with the Lumber Yard, now owned by the G. L. Turner Lumber Co., has been transferred to Merna, where he has charge of the company's new yards.

Farmers report the prospects for a good corn crop greatly improved in the past ten days. The rain let up in good time for the grain and alfalfa harvest. The latter was partly damaged before the rainy weather ceased.

An interesting road case was up before the county board for consideration last Friday from Algernon township. The petition was headed by Jas. Gouley and others through J. O. Jackson's farm north east of Mason. Both the petition and remonstrance were largely signed and most of the day was taken up in hearing the case. The board granted the petition and allowed Jackson \$300, damages. The witnesses in the case for Jackson were John A. Hall, Geo. Runyan and for the petitioners Jas. Gouley, Hugh McAllister, Wm. Bray, John Spencer and John Walker.

W. G. Purcell and wife who have been on an extensive trip south and west for the past six weeks returned home Sunday. They went by way of St. Louis and as far north on the Pacific slope as Portland, Oregon, where they spent a couple of days at the exposition. They spent two weeks in California, returning through Oklahoma and Texas. They report seeing former residents of Broken Bow in nearly every town they stopped on their trip. Howard Graham was at Portland in charge of his counties exhibit. In Oklahoma he saw Joe Holcomb and in Texas Dr. Wirt and his son Roy. They included Mexico in their trip. They report a pleasant trip.

Mrs. John Lowe went to Ansley Monday to attend the funeral of Fanny, the four year old daughter of Mr. and Mrs. Perry Foster, who died at Omaha, Sunday from being kicked by a horse last Thursday, near Ansley.

The Summer school, which has been conducted here for several weeks past under the auspices of Broken Bow Business and Normal college closes this week. There has been an average attendance of between sixty and seventy and a profitable time has been enjoyed by those attending.

The old settlers meeting and base ball tournament held at Merna last week proved an attractive card and the attendance was probably the largest ever witnessed in that place. The Arnold Ball club come out best and carried off the prize money. Broken Bow was largely represented.

The Alliance Times says—"Congressman Kinkaid predicts that brome grass will revolutionize the sand hill country and make it 100 per cent better. Brome grass is going to do better than that for this part of the state." The editor of the REPUBLICAN has done a little experimenting with "brome" grass on sandy land and we have great faith in its utility in the sand hills. The second year it forms a perfect sod. We believe all is necessary for sandy soil is to get it started. If the soil is very sandy and liable to blow it would probably be best to only disk the sod before sowing. It stands pasturing and is the earliest and latest feed we have.

R. T. Baker of Green, was among the friendly callers at this office Saturday.

Jas. Boggs of Weissert, was a city visitor Saturday. The REPUBLICAN acknowledges a friendly call.

Harvest is in full blast this week in every part of the county and in a few instances the wheat is in the stack. Rust has done very little damage, much less than was anticipated by many farmers.

Miss Edith Stevens, book-keeper in Dierks Lumber Co's. office at this place left Monday on a visit to Forest Grove, Oregon. She will visit the Exposition at Portland while gone and will be absent several weeks.

The Chronicle Citizen says, that Mrs. Huxtable of Broken Bow, who has been visiting her brother Geo. Paine the past two weeks started last Thursday for Fondulac, Wisconsin, to spend the summer with her sister.

A Mr. Johnson, an old gentleman hailing from the north-east part of the county, was in the city Tuesday, soliciting aid of our citizens, he having lost his barn and a cow by fire. From the looks of his list we infer that most people he met contributed to his needs.

Dr. E. W. Myers recently of Des Moines, Iowa, a homeopathic physician, made this office a general call Friday, in company with A. J. Elliott. The Dr. has decided to locate in Broken Bow and engage in the practice of medicine, as no other one of his school is in business here.

Florence and Charley Cushman of Watertown, South Dakota, who have been making their home with their Aunt, since their mother's death a number of years ago, arrived in the city Tuesday night to make their home with their father, L. Cushman, who resides near King school house south-east of the city.

W. W. Cowles informs us that he is making a collection of grains and grasses for the County fair exhibit. This is a laudable enterprise in which the public should lend all the assistance possible. Mr. Cowles is an experienced hand in handling exhibits for fairs and what is contributed to him will be exhibited in the best condition possible.

J. C. Haney returned Sunday from Alliance, where he had gone the previous day to attend the first meeting of the Order of Railroad Telegraphers, which meeting was attended with a representation from every station of the Alliance division of the Burlington. Mr. Haney was the representative from this city and came home "all swelled up" with the success of the meeting and the thought that arrangements were made by the convention for frequent small meetings over the division, to be followed by a large division meeting at stated periods. We have not learned whether it was he or some other delegate who introduced the resolution asking that a raise of \$5 per month be attached to the salaries of telegraphers.
