Give Her a Ring.

It matters not whether 'tis your best girl or second best girl, your pride should suggest a good ring.

She will appreciate it and you will feel better about it.

If you've got the girl, I have the rings.

Those who know indorse the quality of the finger rings I sell as enthusiastically as those who judge only my appearances.

Critical examination merely tends to enhance the value of the rings I show.

Mrs. Mable Austin, formerly a resident of this city and for a long while waiter at the Grand Central and later at the Commercial Hotel, died at Lincoln Sunday. She was married about two years ago to Mr. Austin, who is general agent for the Lincoln Mutual Insurance Co. She died with cancer in the side.

F. E. Taylor has an advertisement in this issue of the REPUBLICAN in which he solicits students to learn to play on band instruments. He is desirous of organizing a large class so as to be able to give band concerts and provide the public with music when required. This is a splendid chance for young men who desire to learn to play an instrument at nominal cost.

The official vote of Custer county at last week's election appears in tabulated form on the editorial page of this issue and is absolutely correct, having been taken from the official count. Notwithstanding the apathy of voters the 1905 vote compares favorably with that cast during the four previous elections, as the table shows, and the increase in population of the county goes steadily forward.

The Nebraska Farmer has been moved to Lincoln. The publishers wanted to get close to the Nebraska Agricultural Experiment Station and they believe they will be able to keep in closer contact with the farming interests of the state at Lincoln than at Omaha. The new office of the Farmer is on North Eleventh Street, only a block and a half from the State University Campus. If taken advantage of at once we will take subscriptions for the Nebraska Farmer at The REPUBLICAN office at 50 cents per year.

At the regular meeting of the city council Wednesday night of last week an ordinance was put on its first reading granting the B. & M. railroad the right to extend its side track from Turner's Lumber yard west past Lonergan's mill to main track west. This extension is to be made to accommodate Mr. Lonergan in shipping out his flour and feed and shipping in his fuel. It is an extension that has long been needed. At an adjourned meeting of the council Monday night the ordinance was passed and ordered published.

Alex McGrew was a welcome caller at this office Saturday.

Mayor Apple made a business trip to Omaha the first of the week.

Silas Thompson of Georgetown, kindly remembered this office Friday with a call.

The foot-ball game between Broken Bow and Mason City resulted in a tie, 5 to 5. Another game will be played today between them at Mason City.

The road committee, "Messers Thorpe, Schneringer and Fenni" more left Monday morning for the west on the early train on a road viewing expedition in the north part of the county.

We notice in the Daily Nebraskan that Herbert G. Myers of Georgetown, this county, was honored with the chairmanship of the membership committee of the Republican Club of the students of the State University.

This office acknowledges the receipt of an invitation to attend the silver wedding of Mr. and Mrs. E. J. Pittaway at Zion City, Illinois, Friday, November 3. Mr. and Mrs. Pittaway lived here for a number of years and they enjoy an extensive acquaintance in Custer County. Their many friends here will join with the REPUBLICAN in extending to them congratulations.

A proposal has been made by Charles R. Dudley, secretary of the state historical society of Colorado, that Governor McDonald issue a proclamation setting aside November 26 and 27, 1906, for the celebration of the centennial anniversary of the discovery of Pikes Peak. The governor is in favor of such an observance, and within a few weeks will probably issue the formal proclamation.

W. J. Woods, wife and son, who have been west for the past two months, sight seeing, returned home Monday morning. They visited all the principal towns of the north-west from Denver. They planned their trip to do all their travelling in day light so as to see the entire country through which they passed. Mr. Woods says the only night they travelled while gone was the last night before arriving home. They enjoyed their trip very much.

At the regular meeting of the city council last week a representative of the manufacture of boilers and engines were present and gave figures on necessary engine and boilers for installing an electric light plant in connection with the water works plant. He estimated that the engine, boiler and all necessary apparatus could be put in place for \$6,000. Mr. Churchill, who was here three weeks ago, representing the electric works, estimated he could furnish all necessary goods in his department for \$3,500 or install them ready for operation for \$4,00. If those figures are correct the plant can be installed complete for \$10,000. This amount being about \$5,000 more than the city has provided for it would require a bond of \$5,000 to put in the plant. Mr. Churchill returned to the city the first of the week with the view of asking more accurate measurements and may be able before he leaves to make a definite proposition on the plant complete.
