Every Niece and Nephew of Uncle Sam should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar. Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour. This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked bettermore scientifically. They are packed better-more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries. Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think Uneeda Biscuit the best of that food, nearly 400,000,000 packages having already been consumed. **Uneeda Biscuit** NATIONAL BISCUIT COMPANY

Broken Bow and the Missouri Pacific.

There has always been a desire of the people of Broken Bow and community to have the Missouri Pacific extends its road from Prosser to Broken Bow. It is now currently reported the M. P. Railroad contemplates extending its line in the Broken Bow, Neb. near future from Prosser to Shelton, a town located in the south-east corner of Buffalo county. Shelton is on an air line from Prosser to Broken Bow. Shelton is about twenty-five miles from the South Nursery at Fremont is in the city with Loup, where it passes out of Custer coun-

ty. The route is an ideal one for a railroad. After reaching the Loup Valley a trying to have the M. P. officials extend without success. As a matter of fact by doing so. The M. P. railroad is owndimensions would of necessity employ a The only object in extending to Shelton

once before it is too late." This would indicate that the road has determined to build toward Broken Bow and that the only hopes Kearney has to prevent it is to build a connecting line from Kearney to Prosser,

If this is is the real situation steps should be taken at once by the people of Broken Bow, Deer Creek, Box Elder and the South Loup to encourage the officers of the M. P. in their contemplated extension to the north-west. It is a matter that should be taken up at once by the Business Men's Association of the city. The Hub says furter that "there is but small doubt but what the plans for the lines above referred to will be finally adopted within a very short time and Kearney's interests require that the city's representatives be heard before such action is taken.'

As Broken Bow interests are equal to those of Kearney the reasoning is equally appliable to Broken Bow. The situation demands prompt action. Will we wake up to the situation or shall we continue in our Van Winkle sleep?

U. P. Will Extend its Line From Callaway to Arnold. It is reported from Callaway that U. P.

last Saturday and commenced to set stakes along the old survey, that wae one time graded for several miles towards

Arnold. This move is a confirmation of the REEUBLICAN'S report some six weeks ago that the K. & B. H. branch of the I. P. would be extended late this fall or early next spring as far as Arnold. How much farther the extension may be pushed is only a matter of conjecture. Should the Black Hills be made the objective point it is possible the extension may continue on next year. At any rate the people of Arnold and vicinity are to be congratulated on the prospects of at least one railroad in the near future.

Should the B. & M. extend a branch from Broken Bow to Bridgeport in compliance with articles of incorporations recently filed with the State Auditor, Arnold will stand a fair chance of getting a cross road in the near future.
