

# Admiral Hichborn Praises Pe-ru-na

REAR-ADMIRAL HICHBORN

**Admiral's Words Carry Weight.**  
Rear-Admiral Hichborn is one of the best-known officers of our navy. His statements concerning Peru-na will have much weight as they go out in the world. What he says is echoed by many other officers of high standing.

**What the Admiral Says.**  
Philip Hichborn, Rear-Admiral of the U. S. Navy, Washington, D. C., writes:  
"After the use of Peru-na for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic."—Philip Hichborn.

**An Ever-Present Foe.**  
The soldier and the sailor are especially subject to catarrh. In the barracks and on the field, Peru-na is found equally efficacious to overcome this physical enemy. If taken in time it will prevent colds from developing into catarrh. Even after a cold has settled in some organ of the body, Peru-na can be relied upon as an efficacious remedy to promptly overcome it.

Peru-na will relieve catarrh, whether acute or chronic, but a few doses of it taken in the first stages of the disease will be more effective than when the disease has become established.

**Doctor's Queer Idea.**  
Inventive was a certain Munich doctor, who holding that an equable heat was necessary for the brain, caused to be constructed on the top of his hat a small metal chamber, to contain ice in the summer and hot water in the winter. A small thermometer projecting through the side of the headgear enabled its wearer to ascertain the interior temperature.

**Might Have Been Jonah's.**  
Some one remarked to Edward D. Sohler, the Boston lawyer, that he had read in a paper that a dead whale had driven ashore at Nantucket containing in its stomach a pair of boots marked "J." Mr. Sohler instantly replied: "They probably belonged to Jonah, and he must have left them when he stepped out."—New York Times.

**The Common Bond.**  
None of us can boast that he is entirely independent of the people and the conditions about him for help and encouragement. We all depend in a sense upon the books we read, the minds we encounter, the scenes that meet our eye, for much of the happiness and inspiration we find in life. —Chicago Journal.

**"Neck Verse."**  
The first verse of the fifty-first Psalm is called the "Neck Verse," for the reason that in former times a man condemned to death sometimes had a chance to save his life by proving that he could read, and this verse was used as a test.

**Cats as Ships' Mascots.**  
Many of the large ocean greyhounds carry cats as mascots, these pets being well known to globe-trotters.

## HAVE A NEW TACK.

**The Claim Set Forth by Chicago Packers.**

CHICAGO—President Roosevelt has been made the central figure around which revolves the entire case involving the pleas of the indicted packers for immunity from further prosecution by the government on charges of being in a conspiracy to combine in restraint of trade and commerce. Attorney William J. Hynes, for the defendants, in his opening statement to the jury hearing the immunity pleas, read an excerpt from a letter written by President Roosevelt to Attorney General Moody, in the Atchison, Topeka & Santa Fe rebate case, which was a part of the communications between the two men called for by congress some time ago. This letter is taken by the packers as an admission by the president that the Department of Commerce and Labor and the Department of Justice worked together to indict the packers, supporting the contention of the packers upon which they rest for immunity.

The defendant packers will endeavor to interject the letter into the case of evidence, just as if the president was here and testified concerning it.

The letter was written by the president June 12, 1905, at the time the federal grand jury was sitting in Chicago on the Beef trust inquiry. That part of the letter read by Attorney Hynes and which will be introduced by the defendants, if possible, as evidence from President Roosevelt, follows:

"With my approval the Department of Justice, with the assistance of the Department of Commerce and Labor, has for some months been endeavoring to find out whether or not they can obtain legal evidence of such willful and deliberate violations of the injunction by any individual, if the grand jury now sitting in Chicago finds an indictment against any individual connected with the packing corporations it will be because in its judgment such legal evidence of the violation of the injunction has been laid before it."

The letter is purported to be signed by President Roosevelt and is taken by the defendants as proof of their contentions.

"That letter is a public document and we will introduce it as evidence in this case," said Attorney John S. Miller, one of the packers' attorneys. If the government contests it we can, of course, call for an original copy."

## DEWEY HEARD FROM BY WIRELESS TELEGRAPHY

WASHINGTON — The dry dock Dewey en route to the Philippines, has again been heard from, a message received at the navy department from the commandant of the coaling station at San Juan, Porto Rico, reporting that the Dewey had been spoken to Friday night by the armored cruiser Maryland, when 648 miles distant from that vessel. The Dewey was in latitude 27.52 north and longitude 48.29 west. She was traveling four knots an hour. Everything was going well with the expedition and all on board were well.

## Buried Treasure Recovered.

EMPORIA, Kan. — Marion Turner and Otto Freshwater, Emporia men, claim to have found buried treasure to the value of \$100,000 in or near Phoenix mound, southwest of Emporia. Part of the treasure, they say, is in gold coin and the remainder in gold-bearing quartz.

## INDICATIONS POINT TO JAPAN ACCEPTING CHRISTIANITY

NEW YORK—Current events indicate the coming acceptance of Christianity by Japan as one of the fruits of the recent war, according to the annual report of the American Tract society, which was made public recently. Among the cities which during the last year have arranged for the permanent support of the administrative secretaries is Tokio, the Japanese capital. The report says that the schools in Japan, and also in Turkey, China and other foreign countries, are creating 1,000,000 new readers every year for Christian literature is needed. A permanent endowment of the society is required. During 1905 the society circulated nearly 3,000,000 periodicals.

## Court Division Bill.

WASHINGTON — Representative Kennedy introduced a bill providing for the division of Nebraska into two federal judicial districts. Mr. Kennedy's bill is a duplicate of Senator Burkett's bill introduced in the senate last week.

## Insurgents Enter Quito.

QUAYAYUIL—The revolutionaries have entered Quito (the capital of Ecuador). Vice President Bequerizo Moreno has assumed executive power and will appoint a new cabinet.

## Gifts to Chicago University.

CHICAGO — Announcement was made at a special meeting of the University of Chicago board of trustees that John D. Rockefeller had just given the university \$1,450,000. Of this sum, \$1,000,000 is for the permanent endowment.

## Pendleton's Sentence Lightened.

MANILA—The sentence of Lieutenant Pendleton, who was condemned to life imprisonment for murder, has been reconsidered and changed to imprisonment for twenty years.

## Etiquette and Courtesy.

Etiquette is a mask, a barrier, a cloak, a disguise, a pretense, a lie; it enables us to hide our real characters from each other. It is acquired; it comes from the head; courtesy is spontaneous, it comes from the heart. The first has as much in common with the second as has law with justice, medicine with hygiene or theology with sanctity.—Portland Oregonian.

## Eggs Poisonous to Some.

A correspondent says that if he eats eggs in any form he has all the symptoms, more or less pronounced of irritant poisoning. Many persons are affected in like manner by articles of food. Some persons can not eat strawberries, to others mutton is poison, and many persons dare not eat crab.—The London Lancet.

## Paste Over the Kitchen Sink.

A leak in a water or gas pipe may be temporarily stopped with a paste made of soap and whiting. This, of course, should not prevent one's sending immediately for the plumber, but it will make the waiting for him much less trying than it usually is.—Boston Saturday Evening Gazette.

## Why Most Cats Are Mean.

Perhaps the reason there are no good cats is that when a woman gathers up the kittens and decides which to save she always selects the prettiest.—Atchison, Kan., Globe.

## "By de time you's old enough."

Uncle Eben, "to tell de difference between a broken heart an' disappointed vanity, you's old enough to realize dat it doesn't make much difference, nohow."

When a man begins to get bald he always keeps his hair cut short because he realizes that he can't have it long.

## NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pava, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for the good you have done for me and I certainly give it highest praise."

"Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be 'just as good.'"

## THE COUPON BELOW IS GOOD FOR \$1.00 IF SENT AT ONCE.

It is Wrong for You to Neglect Your Duty to Yourself—Constipation, Bowel and Stomach Troubles Grow More Dangerous Daily.

There is now a remedy called Mull's Grape Tonic that cures these troubles absolutely.

A full sized bottle is furnished you free to prove it—see coupon below.

Have you noticed the large number of cases of Typhoid Fever lately? Typhoid Fever, Malarial Fever, Appendicitis, Impure Blood, Pimples, Skin Diseases, Sick Headache, Biliousness, Piles, Female Troubles, etc., are the result of Constipation. Don't allow it to run on without proper treatment. Mull's Grape Tonic cures Constipation, Bowel and Stomach trouble in a new way, different from any other, and it is permanent.

Alcoholic, opium and morphine preparations are injurious and dangerous. They destroy the digestive organs, and literally tear the system to pieces. Mull's Grape Tonic strengthens and builds them up. It cleanses the system of impurities, facilitates the digestive system to natural action, and cures the disease in a short time. To prove it to you, we will give you a bottle free if you have never used it.

Good for ailing children and nursing mothers.

A free bottle to all who have never used it because we know it will cure you.

## Would Have Pleased Queen.

A characteristic little story is told about Princess Charles of Denmark, which, if not new, is well worth repeating. When she was quite a little girl, a woman asked her whether it was true that the Queen once boxed the ears of a boy whom she saw ill treating a dog, says Home Notes. "No," said Princess Maud. "It is not true, but I am sure mamma would have liked to have done it."

## London Rents Tumble.

A great revolution seems to be taking place in the West End of London. Rich people are gradually giving up their houses. Prices, which ruled abnormally high a few years ago, have gone down considerably, until a perfect slump reigns in the estate agencies. Owing to the unrest which pervades all society, people never settle anywhere now.—Lady Violet Greville in The Graphic.

## Jefferson's Fine Compliment.

"You replace Dr. Franklin," said the Count de Vergennes to Jefferson when they first met. "I succeed, no one can replace him," said the newly appointed minister to France.

## Every housekeeper should know that

if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 3/4-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

A man's idea of an angel is a woman who doesn't talk about her neighbors.

To the housewife who has not yet become acquainted with the new things of everyday use in the market, and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other brand, but because each 16 oz. package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

The glowing vision comes in lowly service.

## TWENTY YEARS OF IT.

### Emaciated by Diabetes; Tortured With Gravel and Kidney Pains.

Henry Soule, cobbler, of Hammondsport, N. Y., says: "Since Doan's Kidney Pills cured me eight years ago, I've reached 70 and hope to live many years longer. But twenty years ago I had kidney trouble so bad I could not work. Backache was persistent and it was agony to lift anything. Gravel, whirling headaches, dizziness and terrible urinary disorders ran me down from 168 to 100 pounds. Doctors told me I had diabetes and could not live. I was wretched and hopeless when I began using Doan's Kidney Pills, but they cured me eight years ago, and I've been well ever since."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## COLORADO FARM PRODUCTS.

The plodding farmer may be slow, but in the end, in his race with other lines of industry that seem to hold out brighter promises, he always seems to come out as did the patient tortoise in his race with the hare. The latest illustration of this comes from Colorado, a state which only a few years ago was dazzling the world with the riches of its gold and silver mines.

The annual reviews of Colorado's progress show that in 1905 the state produced the greatest amount of gold of any year in its history, a total of \$29,000,000. But in the same year, the grain and potatoes, hay and other produce from Colorado farms aggregated more than \$40,000,000 in value. Silver was higher in value than for several years, and the production of this metal in Colorado rose to \$11,000,000, but the combined product of the orchards and sugar beet patches beat the total of silver by \$1,500,000. Five million dollars' worth of lead was marketed, which is just about equal to the value of the fat lambs shipped. The whole value of the product of the metalliferous mines of the state was \$43,000,000. The products of the farms aggregated more than \$70,000,000.

More money is being invested in agricultural projects in Colorado than in the development of mines. Reservoirs and canals originally planned for placer mining have been diverted to irrigation, and the next few years seem like to see the area of highly productive farming lands in the state more than doubled. The "man with the hoe" seems to have secured a start over the man with the hammer and drill, which the latter will never be able to overcome, unless some very remarkable new discoveries of mines are made.

True, the world loves a quiet man, but it gives a lot of attention to the fellow who gets up and howls.

## San Antonio

this winter. Leave the chilly north behind you, and find health and pleasure under the stainless splendor of her turquoise sky.

To all newcomers, San Antonio offers a thousand delightful surprises. For the night-scorer, the old Mission Churches are still here, the Cathedral of San Fernando, and gray and ghostly in the dazzling sunlight the historic Alamo. For the invalid a perfect combination of sunny winter weather, pure, dry air, beautiful scenery and modern accommodations.

**The Climate's the thing in San Antonio**

The invigorating air, dry and warm; the altitude; the perfect natural drainage, all combine to make the temperature is nearly perfect as can be. It is possible to spend most of each day, from November to March, out-doors. The parks and plazas, the margins of the creeks and rivers, the groves of palm and magnolia, lose nothing of their lustrous green during the winter months.

San Antonio is, of all America, the oddest blending of modern utility and beauty, with the romance and heroism of the medieval.

Come to San Antonio! The exceptionally low rates during the Fall and Winter months—the excellent train service and accommodations via the M. & T. R'y., make it a journey of but small cost and of long tireless length. I want you to read "The Story of San Antonio." I'll send it on request. Once read, I'm sure you'll be more than half convinced that you should be the guest of San Antonio this Winter. Address
