

LOCAL MENTION.

The county board which convened Tuesday of last week adjourned Saturday night to June 5th.

W. W. Burton, of Merna, was a city visitor Saturday. The REPUBLICAN acknowledges a friendly call.

Rev. W. D. Hall, of Sargent, came over Saturday night and remained until Tuesday visiting with his family.

J. H. H. Cross, of Ansley, came up Friday and remained over Saturday to attend the funeral of his niece, Mrs. Sheppard.

J. B. and Edward Palmer make proof on their homesteads, southwest of the city Saturday before the Register and Receiver of North Platte.

H. H. Hiatt, editor of the Sargent Leader, arrived in the city Tuesday evening on 39. He went to Anselmo yesterday morning, returning last night.

John Wehling, of the West Table, was a city visitor Saturday. He informs us that his sons, Henry and Charlie are having a severe attack of pneumonia.

A. D. Bangs left at this office Saturday a sample of his Reids Yellow Dent seed corn on which he took first premium at the Farmers' Institute in this city recently.

Messrs Ferritor and Kellenbarger, of Merna, who were attending the Veterinarian College at Chicago this winter, passed through the city yesterday morning on their way home.

J. T. Cole and son returned last Thursday from a business trip to Illinois. They brought back with them two Percheon stallions and a mare. They are fine specimens of the Percheon family.

Chas. O. Robinson, accompanied by his nephew, Alex Robinson, who has been living here with his grand parents for the past year went to Omaha last Friday morning. He returned Tuesday evening.

Miss M. Phifer, who is located on a section homestead in the north-west part of Custer County was a city visitor last Friday. She called at this office while in town and had her name enrolled for the REPUBLICAN.

W. J. Hather, of Ord, who advertised a sale of registered short horn bulls and Poland China sows in this paper, writes us that his sale was quite satisfactory. Ten bulls averaged him \$78 and twenty sows \$57.33.

Will Kennedy arrived in the city Friday night from Bixby, S. D., to attend the funeral of his sister, Mrs. Sheppard. He was accompanied by his wife and children. They will remain three or four weeks visiting.

Miss Julia Cadwell, sister of Willis and G. E. Cadwell, of this vicinity, arrived in the city last Friday from Illinois on a visit. Miss Cadwell having been a resident of the city in the early history of the town enjoys the acquaintance of a number of the old citizens.

John Street, of the firm of Street Bros., left at this office a bottle of very large course gravel in which he struck water while putting down a well for John McMahan, on the West Table. The gravel bed was found 431 1/2 feet below the surface, a distance reached in ten hours.

Roy Welch, supervisor elect, was not recognized as a member of the board until Friday noon. The legality of the board for the months of January, February and to March the 16th may not be tested in the courts but if any vital question were passed upon, the lawyers will have grounds for contention.

Manager Bray, of the Broken Bow Baseball Association is busily engaged these days answering communications and considering players for his 1906 aggregation. He has sent a wireless message to one of the twirlers of the Boston Club, offering \$15,000 for his release and in case it is secured the twirler will start next week by the Boston & Broken Bow Airship line and thereby reach here in ample time to begin the season with the club. Mr. Bray refuses to divulge the name of the well known player, lest the Anselmo manager head him off and secure his services. "The man behind" the bat has been linen up and is now engaged in getting himself in shape by cutting ice on the pond west of town. He is doing this so he will be able to "cut ice" with the "fans," next summer.

Chas. Moore made proof on his homestead Tuesday before Judge Humphrey.

Luther Miller and O. Nelson of Iowa, are in the city buying horses today at Finlen's barn.

Wesley Thomas and his two daughters, Ola and Susie, who have been visiting relatives in Indiana for the past six weeks returned home yesterday evening.

R. N. Norcutt, A. Lamphere, P. H. Munk and W. B. Schafer, were a party of I. O. O. F. members who went to Merna Saturday night to attend lodge meeting at that place.

John Smith, of Ash Creek, who shipped a car load of fat cows to Omaha last week informs us that he received \$3.75 and \$3.80 per hundred for his cattle.

F. M. Currie, who left last Saturday week for Mexico, was in a railroad wreck near Denver the Sunday following in which the engineer of one of the trains was killed. None of the passengers on either train were injured.

A. B. Miley, who recently moved on the Wantz ranch south of the city, was a social caller Monday. He reports that he has a young farmer at his home that arrived last Monday week. The mother and boy are getting along fine.

The funeral of Mrs. Grace Sheppard was held in the M. E. church last Saturday morning at 10 o'clock. The sermon was preached by Rev. W. H. D. Hornaday, of Shelton. The funeral was largely attended. Her remains were held over from Monday for the arrival of her brother from Bixley, S. D.

Susan B. Anthony, who for fifty years has been the recognized leader in the cause of Woman Suffrage, died last Friday at the age of eighty-six. While she was not able to see all she hoped fully realized, much has been accomplished in elevating women to public life since she publicly espoused the cause of women.

A head on collision on the Rio Grande R. R. in Colorado last Saturday resulted in the death of 30 or more persons and a number more were injured. The collision was caused by an operator going to sleep and failed to report the orders. A number of passengers were burned to death.

A snow slide near Silvera, Colorado, Monday, killed twelve men. They were at dinner at the time the avalanche arrived. Mills and other mining property estimated to be worth one million, were destroyed in deep gulches. Hundreds of miners and their families are penned up and are isolated from provisions. Railroad travel is paralyzed in that vicinity.

M. L. Whittaker, of South Omaha, was a passenger yesterday morning to Alliance where he went to file on a section homestead of which he had recently bought a relinquishment. He informs us that the entire section is level and fine black loam. It is located twenty five miles north-west of Hemingford. He and one of his boys expect to go out there in about a month to build and put in a crop. The family will go out a month or two later.

Remarkable Snow Record for March.

The memory of the oldest inhabitant does not recall a winter of more warm, spring-like days than were experienced in this locality to the first of March; but from the first of March to the 19th inst. the weather has been quite different. While at no time have we had what could be called cold, severe weather, the fall of snow was unusual and so many days of continuous cloudy weather is seldom seen in this locality. From the 10th to the 19th at no time was the thermometer above freezing point, most of the time about 10 degrees above zero. The snow fall was not so great in number of inches but its frequency and none of it melting entirely away was the remarkable feature.

The following is the record of snow precipitation as recorded by H. L. Ormsby.

March 2.....	.1 inch
" 10.....	.1 "
" 11.....	.1 "
" 13.....	.1 "
" 15.....	1/4 "
" 18.....	1 1/2 "
" 19.....	7/8 "
Total.....	6 1/4 "

With the 20th a change in the weather brought sunshine, and the snow was materially affected. Yesterday, the date marking the opening of spring, opened with a veritable spring morning, with the exception of the lingering snow which still covers the earth.

The cold, cloudy weather for the past two weeks was especially welcomed by the ice men. The ice crop is rather light—it being only six or seven inches thick—but then it's ice. The snow will put the soil in excellent shape for farming and has been very beneficial for winter grain as well as alfalfa and brome grass.

Central Nebraska Summer School.

The fifteenth annual session of the Central Nebraska Summer School will be held in Broken Bow from June 4 to July 27, 1906. The session will be seven weeks, one more week than formerly, but the tuition will be the same as formerly, \$5.00 for the term or \$1.00 a week.

The scarcity of teachers in Custer County has resulted in increased wages for proficient teachers, there being a number of schools that prefer to pay good wages for good teachers than to have poor teachers at any price.

The instructors, ex-supt., J. G. W. Lewis and Prof. Jesse R. Teagarden are able and know the needs of the school teachers and will be able to help them as but few others could. They are planning to make this one of the best summer schools for teachers ever held in the county. Three high-class entertainments will be given during the term. Prof. Adrian Newens, who was here last year has already been engaged.

As the new ruling of the state superintendent requires that all teachers whose certificates expire this year as well as all new applicants be required to take examinations in the five essential branches viz:—Reading, Arithmetic, grammar, history and geography, which exempts them from passing in all other branches.

No better place to equip oneself for examination in these branches than the summer school. Everyone who desires to teach should arrange to attend this school the entire session.

Any information wanted will be cheerfully given by writing to either Messrs Lewis or Teagarden at Broken Bow.

Enters into Business on his own Account.

John Hastings, who for several years has been in the employ of Tom Finlen's livery barn at this place has traded his residence property in this city for a feed and livery barn, including four teams and rigs at Eddyville. It is the only livery barn in the town. He moved his family to Eddyville the first of the week. As there are no houses there to rent he will build one at once. Mr. Hastings' long experience in the livery business and his special qualifications for caring for and handling horses will especially, equip him for the business. The REPUBLICAN predicts for him success.

The Tabernacle.

The tabernacle for the Union meetings that was commenced last Thursday was completed and ready for use Sunday morning. The building is 80 by 112 feet and it is estimated will seat 1,200 people. The walls of the post office building on the north and the Custer National Bank Building on the south were utilized in building the side walls, which saved considerable lumber as well as labor. Fifteen thousand feet of lumber was used in its construction. The building is lined with paper and heated by four stoves. It is very comfortable and is proving a drawing card. It was estimated the attendance Sunday night was between seven and eight hundred. The crowds have been increasing with each session. The Sunday afternoon meeting, which was for men only, brought out the largest crowd of men ever gathered in this city for a religious service. It is estimated the attendance was over six hundred.

M. B. A. Lodge.

At the last regular meeting of the M. B. A. lodge of this city the members were treated to a fine supper provided by the men. It was a feast of roast chicken, which was browned to a queen's taste in Gillings' bake oven.

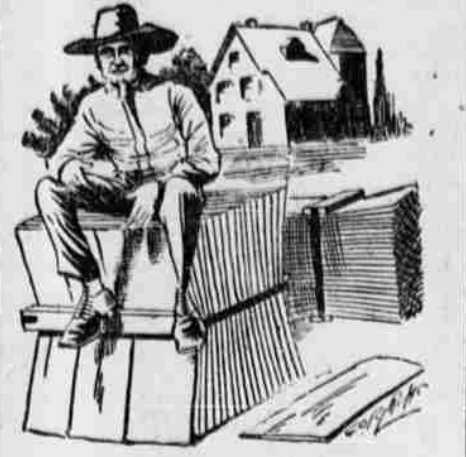

The chicken was supplemented by coffee, cake and fruit. The committee in charge were: Dr. W. H. Cole, C. A. Chapin and W. A. Baker. The supper was a grand success and a splendid time was enjoyed. Prior to the supper three candidates were initiated into the order, making a total membership of 206. Two others are to be initiated tomorrow night, and two more to be voted upon.

Barton's Second Store

is the place to buy, sell or trade. We are still selling the \$5 gold spectacles for \$1. Everybody knows Barton. 41-43

Broken Bow's Enlargement.

The city council is having city engineer VanAntwerp construct a map including the parcels of land adjoining the city with the view of including them within the city limits. The intention is to include all the parcels that are used for residence property as well as such other parcels not resided upon that is included within the proposed boundaries. The value of this property is enhanced by its proximity to the city and most of the residents within the boundaries depend upon the city for support. A number are engaged in business in the city and the council as well as the citizens of the city regard it but justice that they share in the expenses of the city government.

A WORD ON SHINGLES

ought to interest the man whose roof has a hole in it. Also the man who has no roof but intends to build one. Our CEDAR SHINGLES

are the best offered in this city. Made from a fine grade wood and right in every particular. No where else in town are there better lath than we carry and nowhere else can better prices be found. Don't buy without looking into our yards.

We will sell until May 1st, spring wagons, buggy tops and extension tops for spring wagons at actual cost. Ha! Ha! Some merchant says Cadwell's got to have money. Perhaps so. I loaned \$200.00 at 7 per cent last Saturday and \$1,600.00 at 7 per cent only last Thursday. Here are the facts. I bought these wagons and tops of a local dealer last November and I don't want them laying around any longer. Come and see if I do not give prices that will sell. And if you want a buggy now or during the next six months it will pay you to get my price and terms on the best lot of buggies in Broken Bow.

Willis Cadwell.

\$200,000 to loan on good Custer County farms.
