Candidates for the Legislature. There is being considerable discussion among the people of the county as to who will be the nominees for the state legislature.

The unusual part of it is that nearly every one that broaches the subject has some objection against some one of the several candidates being discussed, yet they have no one to suggest that would be more satisfactory.

This county has the power to nominate two candidates for the house of representatives and one for the senate, if she so chooses, although the county is associated with other counties in the senatorial as well as the representative districts.

As the senator for the two last terms have been given to Valley county, Custer will doubtless claim the right to name the candidate this year.

As we are associated with Logan county in the representative district should that county have an available candidate, her claim would doubtless be considered, as Custer has named the candidates for the last two terms.

The REPUBLICAN has no axes to grind and we feel that the convention will exercise its best wisdom in making the selections. There is no occasion for haste in making announcements but this should not preclude every individual interested in the success of the republican party from canvassing the best material in his own community for legislative timber.

Corporation Rule Passed in Nebraska. The action of the late republican state committee may have been but a straw, but it mildly showed which way the political wind is blowing in the rural districts.

Uncle Sam is to have the biggest and most powerful fighting craft that ever rode the seas. Provision for the construction of a huge new battleship, to bear the historic name of "Constitution," is to be made in the naval appropriation bill nearing completion in the House Committee on Naval Affairs.

same object but on this proposition the lines were not so squarely drawn, as other matters operated to favor Omaha that otherwise would not.

The defeat of the primary election was especially desired by those whose chances for a nomination are not the best on a popular vote. On this question there was a diversion of sentiment outside of corporation ranks, as to whether it was the best policy at this time.

There is but little doubt but what the counties represented at the state convention will show a much stronger anti-corporation sentiment than was manifested at the state central committee meeting. A number of the central committee, who have the honor of representing their respective districts, are like the children of Israel, still longing for the flesh pots of Egypt, and have not completely severed their connection with corporation influence.

As Senator Millard, who was at home looking after the political situation at the time of the meeting of the central committee, quietly returned to Washington without declaring his intention to make the race for re-election, it would indicate that he was not overly pleased with the action of the state committee.

As a result of Senator Millard not announcing himself, friends of John L. Webster, of Omaha, have announced him as a candidate for the senate. But aside from the manner in which Senator Millard was elected to his present position there would not be as strong opposition to his reelection as there would be to Webster's candidacy.

The facts are the nominees of the republican party for the legislature, state offices, congressmen and the United States Senate must be men, who are not associated with the corporation influences, men who have the ability to make themselves heard and in whom the voters have confidence.

Much comment has been occasioned at Washington of late by the report that Charles F. Magoon of Nebraska, governor general of the Isthmus of Panama, is to succeed Secretary of War, Taft. It is regarded as almost certain that Mr. Taft will put aside his portfolio October 1st to take the seat on the bench of the Supreme Court offered him by the President some days ago, and on which he still has an option.

G. E. Cadwell sold his ranch, four miles south of town, Tuesday to A. R. Chrisman. The price, including four work horses, is \$13,000 cash. Mr. Cadwell is to give immediate possession. Mr. Chrisman will move there this week. Mr. Chrisman has lived ten miles north of Broken Bow for twenty odd years where he owned a ranch. He sold it recently to a party from Missouri. The Cadwell ranch contains 840 acres, and fully half of it is good farming land.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A sluggish liver gives a coated tongue, bad breath, constipated bowels. Correct all these by giving small laxative doses of Ayer's Pills. All vegetable, sugar coated.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of HAIR VIGOR, AGUE CURE, CHERRY PECTORAL.

\$100,000 also will be appropriated for the purpose of restoring the frigate of the same name. The new warship will be larger and more dangerous than the British ship "Dreadnought" which has just been launched. The "Constitution" will mount twelve 12-inch rifles and her speed will be nearly that of a crack cruiser. As to her armor, the new giant of the American navy will be girded as never battleship was girded before.

Instead of Alexander Dowie performing miracles when he reached home to establish his claim of being Elijah the III he denounces his wife and threatens to appeal to the courts to settle his church difficulties. Is it not possible that the Rev. gentlemen has been misquoted.

Rosewater a Possibility. The Sioux City Journal, (Ia.) of the 14th has a lengthy editorial on the veteran editor of the Omaha Bee, and the probabilities of his election to the United States Senate to succeed Millard. Among many other complimentary things said the Journal says:

"Aside from Mr. Rosewater's conceded abilities, his wide personal acquaintance with public men of national standing and familiarity with public questions and affairs, for all of which no man in the west is better known—an advantage of incalculable value to his state in all its concerns in the senate and at Washington generally—it is natural that many should feel a sense of justice of according to him a place in the senate, now that the policies he has so long championed amidst innumerable rebuffs and discouragements are actually in hand to be decisively dealt with by the American people. And there are many in his state representing interests sometimes at variance with him in politics are coming to see how valuable indeed how essential—the service of such a man is certain more and more to be to the public. For Mr. Rosewater is not a demagogue, and no one, not even those who have most strenuously contended with him, have ever accused him of being one. He stood out as uncompromisingly against the popular assault upon monetary soundness, an assault exceeding violent in Nebraska, as he has stood out for control of corporations and official fidelity to public interest. It may well be, as thoughtful men are beginning to reflect, that such a character, as steadfast to substantial interests as zealous for popular rights, may be sorely needed in high place sooner than many may now think."

South Omaha Stock Market. (Reported by Clay, Robinson & Co.)

South Omaha, Apr. 16. The trade in the cattle division wound up about 15c lower last week on the medium kinds of killing steers while the good class held just about steady with the opening of the week. For the most part the quality was rather common and the percentage of cattle about \$5 was rather small. Some pretty good kinds sold as high as \$5.50 during the week, fair classes around \$4.75 to \$5.15. The trade today is moderately supplied and the market is steady to strong for anything at all useful. Owing to rather bearish news from other points regarding the butcher stock, trade conditions here were rather weak at last week's close and the trade closed up about a dime lower, all this decline being received at the close. On a strong market today good to choice cows and heifers are quotable at \$4 to \$4.75; fair to good \$3.25 to \$4-canners and outers \$2 to \$3.10. Limited orders in the stock and feeder division, owing partly to the comparatively high prices prevailing, caused a rather weak trade in this division toward the close of last week. Dealers became pretty well filled up, and the general run of stock and feeding steers declined 10 to 15c from the opening of the week. There is little margin at this time between the different weights, and good to choice steers are selling at \$4.25 to \$4.5; fair to good \$3.90 to \$4.25; steer calves \$4.25 to \$4.50; heifer calves \$3 to \$3.40; stock cows \$2.75 to \$3. Continued moderate offerings in the hog division caused a good active trade today at all points and the trade advanced a shade to a nickle. The bulk sold here at \$6.47 to \$6.50 with top at \$6.55, fully 20 per cent higher than one week ago. As has been the case the past week or two the light and medium weights are meeting with better favor at the hands of packers, while the heavy weights are gradually working towards the bottom.
