

AILING WOMEN.

Keep the Kidneys Well and the Kidneys Will Keep You Well.
Sick, suffering, languid women are learning the true cause of bad backs and how to cure them. Mrs. W. G. Davis, of Groesbeck, Texas, says: "Back-aches hurt me so I could hardly stand. Spells of dizziness and sick headache were frequent and the action of the kidneys was irregular. Soon after I began taking Doan's Kidney Pills I passed several gravel stones. I got well and the trouble has not returned. My back is good and strong and my general health better."

Sold by all dealers. 50 cents a box. **Foster-Milburn Co., Buffalo, N. Y.**

Every boy has three ambitions before he finally settles down. His first is to be the snare drummer in the village band. The second is to be an Indian killer and scout. The third is to be a locomotive engineer. Then he forgets about them and is ambitious only to make a living.

Ethics.

"Do you think we will ever be able to communicate with Mars?"

"My dear sir," answered the astronomer, "you surely do not think I would spoil pages of magazine articles yet to be written by endeavoring to prove the contrary. It would be very unprofessional."—Washington Star.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. **F. J. O'BRYEN & Co., Props., Toledo, O.** Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

Time to Get Busy.

Her Husband—I thought you were going to visit your mother.

His Wife—And so I am.

"Well, you had better begin to pack your trunk at once. The train leaves in 48 hours."—Chicago Daily News.

When Your Grocer Says

he does not have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12 oz. packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 16 oz. to the package and sells for same money as 12 oz. brands.

Real Merit.

Mrs. Skimkins—How do you like your new boarding house?

Mr. Jobkins—Oh! the rooms are fair, the table is only tolerable, but the gossip is excellent.—Hotel Life.

Those Who Have Tried It. will use no others. Defiance Cold Water Starch has no equal in Quantity or Quality—16 oz. for 10 cents. Other brands contain only 12 oz.

When all of the pretty little home ornaments go into the daughter's room the son is very apt to look for his pleasant things down town.

A CRITICAL PERIOD

INTELLIGENT WOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more likely to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

We believe Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs. A. E. G. Hyland, of Chester-town, Md., in a letter to Mrs. Pinkham, says:

"Dear Mrs. Pinkham:—

I had been suffering with a displacement for years and was passing through the change of life. I had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham, Lynn, Mass. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Her advice is free and always helpful to ailing women.

PIT & PITLESS SCALES. For Steel and Wood Frames, \$3 and up. Write us before you buy. We save you money. Also Pumps and Wind Mills. **BECKMAN BROS., Des Moines, Iowa.**

UPTON SINCLAIR STRIKES BACK

Author of "The Jungle" Faces Prince of Packers With Awful Array of Facts Calculated to Destroy the Infamous Industry.

In a recent issue of the Saturday Evening Post Mr. J. Ogden Armour makes the assertion that the government inspection of the beef trust slaughter-houses is an impregnable wall protecting the public from impure meat, and that not an atom of diseased meat finds its way into the products of the Armour's. Mr. Upton Sinclair, author of "The Jungle" (a terrific statement of packing house conditions), studied the meat industry for two years, including much time spent in the Chicago stockyards as a workman; he is the best equipped outside authority on stockyard conditions. In Everybody's Magazine for May Mr. Sinclair makes a startling and convincing answer to Mr. Armour's assertion. Commencing with the statement that J. Ogden Armour is the absolute and not the nominal head of the great packing house industry which bears his name Mr. Sinclair says: "I know that in the statements quoted, Mr. Armour willfully and deliberately states what he absolutely and positively knows to be falsehoods."

That he might be properly equipped to describe conditions in "Packing-town" Mr. Sinclair worked for a period as a laborer in the plant of Armour & Co., and he tells of sights of filth and horror such as he hopes never to see again, but the strongest coincidence of the truth of the claim that meat unfit for human food is put on the market comes from a man for years superintendent at Armour & Co.'s Chicago plant, Thomas F. Dolan, of Boston. Mr. Sinclair in his article says:

"At the time of the embalmed-beef scandal at the conclusion of the Spanish war, when the whole country was convulsed with fury over the revelations made by soldiers and officers (including Gen. Miles and President Roosevelt) concerning the quality of meat which Armour & Co. had furnished to the troops, and concerning the death-rate which it had caused, the enormity of the 'condemned-meat industry' became suddenly clear to one man who had formerly supervised it. Mr. Thomas F. Dolan, then residing in Boston, had, up to a short time previous, been a superintendent at Armour & Co.'s, and one of Mr. Philip D. Armour's most capable and trusted men. When he read of the death-rate in the army, he made an affidavit concerning the things which were done in the establishment of Armour & Co., and this affidavit he took to the New York Journal, which published it on March 4, 1899. Here are some extracts from it:

"There were many ways of getting around the inspectors—so many, in fact, that not more than two or three cattle out of 1,000 were condemned. I know exactly what I am writing of in this connection, as my particular instructions from Mr. W. E. Pierce, superintendent of the beef houses for Armour & Co., were very explicit and definite.

"Whenever a beef got past the yard inspectors with a case of lumpy jaw and came into the slaughterhouse or the 'killing-bed,' I was authorized by Mr. Pierce to take his head off, thus removing the evidences of lumpy jaw, and after casting the smitten portion into the tank where refuse goes, to send the rest of the carcass on its way to market.

"I have seen as much as 40 pounds of flesh afflicted with gangrene cut from the carcass of a beef, in order that the rest of the animal might be utilized in trade.

"One of the most important regulations of the bureau of animal industry is that no cows in calf are to be placed on the market. Out of a slaughter of 2,000 cows, or a day's killing, perhaps one-half are with calves. My instructions from Mr. Pierce were to dispose of the calves by hiding them until night, or until the inspectors left off duty. The little carcasses were then brought from all over the packing-house and skinned by boys, who received two cents for removing each pelt. The pelts were sold for 50 cents each to the kid-glove manufacturers. This occurs every night at Mr. Armour's concern at Chicago, or after each killing of cows.

"I now propose to state here exactly what I myself have witnessed in Philip D. Armour's packing-house with cattle that have been condemned by the government inspectors.

"A workman, one Nicholas Newson during my time, informs the inspector that the tanks are prepared for the reception of the condemned cattle and that his presence is required to see the beef cast into the steam-tank. Mr. Inspector proceeds at once to the place indicated, and the condemned cattle, having been brought up to the tank-

room on trucks, are forthwith cast into the hissing steam-boilers and disappear.

"But the condemned steer does not stay in the tank any longer than the time required for his remains to drop through the boiler down to the floor below, where he is caught on a truck and hauled back again to the cutting-room. The bottom of the tank was open, and the steer passed through the aperture.

"I have witnessed the fact many times. I have seen the beef dropped into the vat in which a steam-pipe was exhausting with a great noise so that the thud of the beef striking the truck below could not be heard, and in a short time I have witnessed Nicholas bringing it back to be prepared for the market.

"I have even marked beef with my knife so as to distinguish it, and watched it return to the point where it started.

"Of all the evils of the stockyards, the canning department is perhaps the worst. It is there that the cattle from all parts of the United States are prepared for canning. No matter how scrawny or debilitated canners are, they must go the route of their brothers and arrive ultimately at the great boiling vats, where they are steamed until they are reasonably tender. Bundles of gristle and bone melt into pulpy masses and are stirred up for the canning department.

"I have seen cattle come into Armour's stockyards so weak and exhausted that they expired in the corals, where they lay for an hour or two, dead, until they were afterward hauled in, skinned, and put on the market for beef or into the canning department for cans.

"In other words, the Armour establishment was selling carrion.

"There are hundreds of other men in the employ of Mr. Armour who could verify every line I have written. They have known of these things ever since packing has been an industry. But I do not ask them to come to the front in this matter. I stand on my oath, word for word, sentence for sentence, and statement for statement.

"I write this story of my own free will and volition, and no one is responsible for it but myself. It is the product of ten years of experience. It is the truth, the whole truth, and nothing but the truth, so help me God.

room on trucks, are forthwith cast into the hissing steam-boilers and disappear.

"In other words, the Armour establishment was selling carrion.

"There are hundreds of other men in the employ of Mr. Armour who could verify every line I have written. They have known of these things ever since packing has been an industry. But I do not ask them to come to the front in this matter. I stand on my oath, word for word, sentence for sentence, and statement for statement.

"I write this story of my own free will and volition, and no one is responsible for it but myself. It is the product of ten years of experience. It is the truth, the whole truth, and nothing but the truth, so help me God.

"THOMAS F. DOLAN.
"Sworn to and subscribed before me this first day of March, 1899.

"ORVILLE F. PURDY,
"Notary Public, Kings County, N. Y."
"Certificate filed in New York county."

The significance of this statement, as Mr. Sinclair notes, is heightened by the fact that, published as it was in a newspaper of prominence, whose proprietor is a man of immense wealth and could be reached by the courts, Mr. Armour made no move to institute suit for libel, practically admitting that the statement was true.

Mr. Sinclair makes the assertion, and gives abundant proof, that the worry incidental to the "embalmed beef" scandal during the war with Spain caused the death of Philip D. Armour, and that millions of dollars were spent by the packing interests in the effort to keep concealed the truth about the matter. The awful mortality from disease among the soldiers during that few weeks' campaign was distinctly attributable to the meat rations supplied to the army. There seems small reason to doubt that meat as little fit for human food is still being placed on the market. How much disease and death has been the outcome may be imagined.

Summing up the entire facts of the situation, Mr. Sinclair concludes: "Writing in a magazine of large circulation and influence, and having the floor all to himself, Mr. Armour spoke serenely and boastfully of the quality of his meat products, and challenged the world to impeach his integrity, but when he was brought into court charged with crime by the commonwealth of Pennsylvania, he spoke in a different tone, and to a different purport; he said 'guilty.' He pleaded this to a criminal indictment for selling 'preserved' minced ham in Greenburg, and paid the fine of \$50 and costs. He pleaded guilty again in Shenandoah, Pa., on June 16, 1905, to the criminal charge of selling adulterated 'blockweirst'; and again he paid the fine of \$50 and costs. Why should Mr. Armour be let off with fines which are of less consequence to him than the price of a postage stamp to you or me, instead of going to jail like other convicted criminals who do not happen to be millionaires?"

A Stone Barometer.

In northern Finland, so a native paper informs us, is a large stone which serves the inhabitants as an infallible barometer. At the approach of rain, this stone turns black or blackish gray, while in fine weather it is of a light color and covered with white spots. Probably it is a fossil mixed with clay, and containing rock salt, niter, or ammonia, which according to a greater or less degree of dampness in the atmosphere, attracts it or otherwise.—Sunday Magazine.

The Many Virtues of Salt.

Salt puts out a fire in the chimney. Salt in the oven under baking tins will prevent scorching on the bottom. Salt and vinegar will remove stains from discolored teacups. Salt and soda are excellent for bee stings and spider bites. Salt thrown on soot which has fallen on the carpet will prevent stains. Salt put on ink when freshly spilled on a carpet will remove the spot. Salt thrown on a coal fire which is low will revive it. Salt used in sweeping carpets keeps out moths.

DISFIGURING SKIN HUMOR.

Impossible to Get Employment, as Face and Body Were Covered with Sores—Cured by Cuticura.

"Since the year 1894 I have been troubled with a very bad case of eczema which I have spent hundreds of dollars trying to cure, and I went to the hospital, but they failed to cure me, and it was getting worse all the time. Five weeks ago my wife bought a box of Cuticura Ointment and one cake of Cuticura Soap, and I am pleased to say that I am now completely cured and well. It was impossible for me to get employment, as my face, head and body were covered with it. The eczema first appeared on the top of my head, and it had worked all the way around down the back of my neck and around to my throat, down my body and around the hips. It itched so I would be obliged to scratch it, and the flesh was raw. I am now all well, and I will be pleased to recommend the Cuticura Remedies to all persons who wish a speedy and permanent cure of skin diseases." Thomas M. Rosstter, 290 Prospect Street, East Orange, N. J. Mar. 30, 1905.

Troubles of Spring Days.

These are the days when the old hen gets in her work assisting the radishes to come up; when the house dog begins a system of excavating in the flower beds and when the neighbor's old cow walks leisurely across the freshly prepared lawn.—Chapman (Kan.) Outlook.

Disappointed.
"So Mrs. Nurich was held up and robbed. How did she feel about it?"
"Oh, she's fearfully mad. Only had five cents in her pocket book at the time, you know, and she's afraid people will think she hasn't any money."
—Detroit Free Press.

Just What You Want.
The most complete Lithographic Map (Size 32x35) of that part of the Wind River or Shoshone Indian Reservation in Wyoming to be opened for settlement. Compiled under direction of John T. Wertz, Former United States Special Agent for this Reservation—from U. S. Gov't Surveys showing Townships, Fractional Townships, Sections, Lots, Mountains, Rivers, Creeks and Streams, Allotments to Indians, Proposed Railroads, Proposed Irrigation Ditches, Wagon Roads, Trails, Fords, Ferries, Bridges, Big Horn, Hot Springs, Military Post, Agency, and principal towns near Reservation. Every Homeseeker, Prospector and Engineer should have this map, as with it he can make his own selection of land, and know just where he is at. The above maps can be secured of S. D. Childs & Company, 200 Clark Street, Chicago, Ill., at rate of \$1.00 each.

NOTE.—For information as to character of land apply to John T. Wertz, Lander or Shoshone, Wyoming.

Prosperity has ruined many a man, but if a fellow is going to be ruined at all that is the pleasant way.

FAINING SPELLS

Cured by Dr. Williams' Pink Pills, the Remedy Which Actually Makes New Blood.

Anemia makes the patient short of breath so that there is often a sense of suffocation, sometimes there is a cough and the sufferer seems to be going into consumption, at others there is a murmur of the heart and heart disease is feared. In the following case severe fainting spells were an alarming symptom resulting from "too little blood."

Mrs. George Forrester, of 7 Curtis street, Watertown, N. Y., says: "Some time ago I took a heavy cold and it left me in a very weak condition. I became worse and worse until finally I had anemia. I lost flesh and appetite, had no color and was subject to fainting spells. Sometimes they would attack me suddenly and I would fall to the floor with hardly any warning."

"I had one of our best physicians, but after he had been attending me about a month without any improvement in my condition, I decided to see what Dr. Williams' Pink Pills would do. "The pills were well known to me for, about two years before, members of my family had taken them with the best results. I soon found that the pills were just what I needed for I soon began to notice an improvement. After I had taken them a while longer I was entirely cured, and we all believe in Dr. Williams' Pink Pills and recommend them highly."

Dr. Williams' Pink Pills actually make new blood. They do that one thing and they do it well. Impoverished blood is deficient in red corpuscles. Dr. Williams' Pink Pills increase the number of these red corpuscles and in this way speed health and strength to every tissue.

All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$3.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

900 DROPS
CASTORIA
Vegetable Preparation for Assimilating the Food and Regulating the Stomach and Bowels of
INFANTS & CHILDREN
Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. **NOT NARCOTIC.**
Recipe of Old Dr. SAMUEL LEITCHER
