

CUSTER COUNTY REPUBLICAN.

ESTABLISHED 1882. THE OFFICIAL PAPER OF CUSTER COUNTY. LARGEST CIRCULATION OF ANY PAPER IN THE COUNTY.

VOL. XXV.

BROKEN BOW, CUSTER COUNTY, NEBRASKA, THURSDAY, AUGUST 2, 1906.--EIGHT PAGES.

NO. 8.

Every Dog Has its Day

—and every man his day to wear glasses. The changes which come to the eye as the result of advancing years are beyond the power of the individual to remedy. The eye hitherto normal, will need the aid of glasses at less than ten years after thirty-five. The future welfare of your eyes depends upon your first glasses. They must be right, just right. Either too strong or to weak, means injury at this period. I know the eye and its needs.

Twenty-three Years Ago.

There was talk of dividing Custer and forming a new county with Arnold as the county seat.

Small grain was reported ready for the harvester and promised a good yield. Rain was needed for hay and corn.

A meeting is to be held this evening (Aug. 2, 1883,) to organize a brass band.

J. S. Kirkpatrick announced that he would attend the next meeting of the commissioners of lands at Lincoln in the interest of persons desiring to rent lands. Mr. K., is now a resident of Kansas City.

There was much rejoicing on account of the completion of the Middle Loup bridge on section 36, town 20, range 20.

The Sargent correspondent said there was a good opening there for a hotel and livery stable and also physician, as "There is no surgeon for forty miles up the valley, and in such a fertile and prolific country a physician would be a great requisite."

"County Surveyor Bishop returned last week from Arnold, where he had laid out and plat-

ted the village which has been given the above name. The new town now consists of the post-office and store, and in a short time there will be erected a grist mill by Mr. Leland, a portion of the lumber and material being on the ground and work has commenced."

Mrs. J. P. Gandy presented the editor with "a boquette of most beautiful flowers" and he was very profuse with thanks.

The Sargent correspondent said: "Sargent is only one week old, yet in ninety days it bids fair to become one of the towns in the valley. The people are intelligent, wideawake and public spirited, and we judge that a bright future awaits the Loup Valley."

PICNIC AT CALLAWAY.

 Amusement of Pioneer.....The Pearce Band
 "How Custer Was Settled".....The Long Haired Post
 Music.....Callaway Orchestra
 Benediction.....Rev. J. Buckley

A Damaging Hail Storm.

The hail and wind storm last Thursday afternoon was one of the most severe and damaging that has ever visited this county. It is reported to have started in the northwest part of the county and, averaging a width of about eight miles, took a southeast course, extending far into Buffalo county.

Farmers in the centre of the path report total loss and those on the edges apartial loss, but the territory covered is a large area and the total loss will be great.

In Broken Bow the rain fell in torrents for about an hour, accompanied by some hail, but not enough to do any damage to the crops in this immediate vicinity.

The Old, Old Story.

Recollections nearly half a century old were brought back this week when a small man, nearly seventy years old, and on the verge of delirium tremens, was given a fifteen day sentence in Washington. The man was none other than a White House clerk of Abraham Lincoln who took probably the last official correspondence of the martyred President on the Friday of his assassination. He is the author of a biography of Lincoln and several stories of reminiscence, but neither his former associations nor his works were able to save him at the bar of justice.

The 1906 Corn Crop.

Carr & Co., Chicago commission merchants, sends the REPUBLICAN some advice in regard to corn, as follows:

Just at this juncture it is very easy to get wrong in corn. We say this because it is purely a weather market, and no one needs to be told how quickly the map will change.

Drought extends from Ohio to the Colorado line. There is no damage to the growing crop as yet. Another week will bring that if general rains do not come. The cash corn situation is very strong with prices advancing here and in the big markets of the southwest. Chicago is shipping out about three bushels for every one received. Should the drought continue there will be but one side to the market and that will make money for buyers very fast. At the first sign of general rains holders of corn should sell quickly. Western farmers are more generally practicing direct shipments of their grain to the primary market, thus saving their home buyer's profits.

Strayed or Stolen.

White pointer bitch, with black face and ears, four years old. Liberal reward offered. W. E. TALBOT.

THE OMAHA BOOSTERS.

A Warm Reception Given to Them in Broken Bow.

The special advertising train of Omaha arrived in Broken Bow Saturday evening about 9:18. It contained 125 representatives of the wholesale houses of Omaha, besides a number from Broken Bow, who had gone west to meet them. They were met at the depot by the reception committee and band and escorted to the Burlington Hotel, where supper was in waiting.

Two bands accompanied the boosters from Omaha and after the supper was over the band, in charge of Captain Huster, rendered a fine musical concert in the park.

At the banquet Mayor George gave the address of welcome, which was responded to by Mayor Dahman, of Omaha. Toasts were responded to by a number, the delegation being detained in the banquet room until too late to visit their customers. Yet they expressed themselves as very highly pleased with the reception stating that it was the best received on their tour. Mayor Dahman stated that of all the mayors he had met that Mayor George would be the one he would choose to fill his place in Omaha, were he permitted to select one in his absence.

The guests distributed to the crowd assembled samples of the wares their respective houses had for sale. Among them was a large number of small bells which were utilized in helping to swell the noise. It was nearly midnight before they left for Omaha.

District Court Jurors.

The following jurors have been drawn for the term of the district court commencing September 10, 1906:

Algernon—Ben Larsen, L. J. Smith.
 Arnold—John McGuire.

 Central Committeeman—Jules Haumont

U. S. Land Office Business for Quarter Ending July 1st, 1906.

Something of the demand for homesteads in the Broken Bow land district may be seen by the following, which is corroborated by the official records.

No. of entries made for the month of April, 75. Acres homesteaded, 40365.02. May, entries, 77, acres, 42,433.09. June entries, 79, acres 43,447.09. Total entries 234. Aggregate number of acres, 126,245.11.

Something of the great amount of land that is yet subject to entry in the Broken Bow land district is shown in the fact that there is yet subject to entry, 1,244,640 acres July 1, 1906. This land is located in the following counties:

Cherry.....334,160
 Custer.....5,000
 Blain.....8,000
 Brown.....85,640
 Grant.....245,840
 Hooker.....156,440
 Thomas.....144,040
 McPherson.....209,120
 Logan.....56,400

This does not include the homesteads which the special government agents have recommended for cancellation. As many of them were among the first filings they in all probability will include some very desirable homesteads.

FARMERS!

Free Lecture

Prof. A. A. Hardy, of Lincoln, will deliver

Bow Opera House, on **SATURDAY, AUGUST 4th,** on

Hogs And Their Diseases

Prof. Hardy has made the hog and his diseases a study for over twenty years and it will pay you to come out and hear him.

Prof. Hardy has undoubtedly had more experience with hogs both sick and well, than any other living man. This lecture will be illustrated with a fine microscope capable of showing the bacteria and bacilli of different diseases. The Professor will talk on the following subjects:

Dust and Lung Worms, Diphtheria, Quinsy, Catarrh, Pneumonia, Typhoid Pneumonia, Putrid Erysipelas, Typhoid Enteritis, Diseases of the Stomach and Bowels, Constipation, Kidney Worms, Apoplexy, Intestinal Worms, Paralysis of the Hind Quarters, Palpitation of the Heart, Scrofulous Diseases, Rheumatism, Black Tooth, Mange and Carbuncular Forms of Diseases.

The Professor will also experiment on a pig and show the folly of a Guaranteed Sure Hog Cholera Cure.

This lecture is entirely in the interest of the farmer. Husbands are earnestly requested to bring their wives. Ladies and gentlemen from Missouri, wishing to be shown instead of told, attend this lecture and you will be surprised. Every person who has heard this lecture pronounces it worth its weight in gold.

Every person present is urged to ask any and all questions regarding hogs and their diseases.

The Professor will also show the folly of inoculation. What he has to say on In-breeding is the key-note to successful breeding.

Ladies, There will always be a lady in attendance to handle the microscope.

Spices | It's All In the Quality | Spices

J. C. BOWEN

Pickling Season is now on. To have excellent success buy your Pure Spices and Pure Vinegar of us.

THE MAN WITH A HOBBY

I confess to having a hobby and my hobby is to sell the best buggy that can be sold for the money and to give you a guarantee that if the buggy is not what I tell you it is I will fix it or refund your money.

I have my buggies made after my own specifications and I know what they are made of. By buying direct from the factory I am able to save 25 per cent over what my competitors pay for theirs and consequently am able to sell you a buggy from \$10 to \$20.00 less than they can possibly do. I have just received

Two Car Loads,

the latest effect of the factories, all bright and new. There has never been shown in Custer county as many buggies under one roof as I will show you if you come in. I have everything, carriages, surreys, road wagons, spring wagons, driving wagons, carts and buggies of all descriptions. In fact, I will show you over 100 different jobs.

C. S. MARTIN.

Sickles for all kinds of mowers, \$1.35 each.

WAGONS

They're Up to You.

Come here and take your choice from four of the best makes in the United States, viz: T. G. Bent, Webber, Bettendorf and "Old Hickory." A car load just received. See them.

A special cash price on "Old Hickory" and Bettendorf wagons carried over from last year.

G. W. APPLE.

Broken Bow, - - - Nebraska.
