

Pennywise on Painting

The cost of the paint, be it the minor portion of a bill, is the painter's time in putting it on that costs. The outlay for paint is rarely more than a fourth, never more than a third. A little personal attention to the painter's uses will save you the necessity of hiring him so often.

RED SEAL OR SOUTHERN
Pure White Lead (made by the Old Dutch Process), mixed with Pure Linseed Oil and properly applied, lasts many years. Mixtures of unknown ingredients last from one year to three, according to the proportions of real paint (White Lead) they have in them. Some mixtures have almost no White Lead, and consequently almost no value as paint. Skilled labor and poor material are a most expensive combination. In using Pure White Lead you get full value for the painter's time.

Send for a booklet containing several handsome reproductions of actual houses, offering valuable suggestions for a color scheme in painting your house. A set for paint parties is also given.

J. G. BRENZER, Breeder of

Pure Scotch and Scotch Topped Short Horn Cattle. My herd numbers 40 cows. Will compare in breeding and quality with any West of Chicago. My experience has taught me that to give good satisfaction, breeding cattle must be raised in this altitude. I expect to raise them here the equal of anything raised in the U. S. I now have 25 bulls suitable for this and next year's service. My cows weigh from 1400 to 2000 pounds. Come and see her.
