Paint Which Lasts

Painters, and all others who understand paint, know that white lead and linseed oil make the best paint. Good, lasting paint cannot be had if either pigment or oil is adulterated.

Many of the so-called white leads sold now-a-days have barytes, rock-dust, silica, gypsum, etc., in them, and little real white lead.

Linseed oil is also frequently adulterated. Such mixtures are dear at any price.

Red Seal or Southern Pure White Lead

(Made by the Old Dutch Process)

is absolutely pure, and makes lasting paint.
