A DROP OF OIL

May save its life.

Have your watch cleaned and oiled regularly if you wish it long life and good time.

One wheel in your watch runs 4,000 miles every year.

The best oil will gum and clog where there is such continued friction.

Grinding when winding is a sign that your watch needs attention.

HARD FOR DEMOCRATS.

Conditions Are All Against the Prospects of the Party of Calamity Howlers.

These are excellent Republican times. The Calamity Howlers of the Democratic party, forgetting what occurred under the influence of Democratic ideas, a dozen years ago, are answered by events. They talk economy; criticize state expenditures, which their representatives supported in the Maine Legislature; stand for everything that isn't and against everything that is, while everything that is is running along smoothly. Wages are high and everybody is happy except those who are out of office and would like to get in. The dear people are so busy that they haven't time to read the elaborate columns of calamity figures in which the Democratic organs indulge. The shoe shops and the mills of Maine were never so busy and would be yet busier if they could get more help. There was never a time when the purchase power of labor was so high as it is today in the United States. Labor can buy more for its wages than ever before.

Never since the Federal labor bureau was started has the purchasing power of an hour's pay been greater any year than it has been the past year. Under the Dingley Tariff we have increased our trade at home and doubled our trade abroad. We have far surpassed the records of the Canadian trade that prevailed when we had what was known as Canadian reciprocity. And yet, the Democratic calamity howlers want more calamity. They want another Canadian reciprocity treaty, which Canada will not consent to. And if we had what the Whitney-McCall folks want, we should be the losers. The Democratic leaders do not remind us that we lost heavily in trade when we had what was tagged "Canadian reciprocity."

Under the Dingley Tariff the past year Canada bought of the United States nearly \$181,000,000 worth of goods. Canada buys large quantities of raw materials of us because these materials cannot be obtained in England. Canada sold to the United States last year over \$83,500,000 worth of goods. The United States in the fiscal year just closed supplied sixty per cent. of Canadian imports for consumption compared with twenty-four per cent. from Great Britain. The gain in Canadian imports from the United States was eight per cent.

No wonder that President Roosevelt agrees with the contention that so long as we have more prosperity than we can handle, more demand for help than help to supply that demand, it is puerile to shout for "Tariff revision." Nobody denies that changes in American industry require timely modification of certain schedules, but it is forgotten that we cannot patch the Tariff. We must have Tariff revision when we have Tariff change.

These good Republican times are not the Democratic times which we had when Bryan was shouting for fifty-cent dollars and when Wilson and Gorman gave us a free raw material Tariff, for which Demo-Republicans and Democrats are now contending in the Foss-McCall-Douglas combination of Massachusetts.

Career Like a Rocket.

Halsey Corwin, the Brooklyn young man who recently was disinterred from obscurity by the theft of \$50,000 worth of diamonds owned by his wife, has had a career like a rocket. His father was one of the prominent men of Brooklyn and when he died three years ago he left the youngster more than \$1,000,000 in cash. He became known as the "angel of Coney Island." No one went thirsty who new him. He married the young woman who now bears his name after a betrothal dinner at which \$15,000 worth of wine was opened. He heaped rare jewels upon her and squandered his father's fortune as though it had no end. His wife no longer recognized his existence. He is working for \$25 a month as ticket taker in the very resort where he once spent money by the thousand.

Lee Park Locals

Too wet for hay-making and a good deal got wet during the wet weather.

Fred Murray is sojourning in Chicago these days. He will be gone for some time.

W. A. Rabourn has been in the sand hill country the past week. His report is not ready for publication.

Miss Hattie Nichols began her school in Rattle Snake District last Monday.

We understand a larger acreage of wheat will be put in this year than last year, even if the prices are lower.

A great many intend feeding cattle this year and feeders are offering to contract snapped corn at thirty cents per bushel and feeders are selling as high as four cents per pound. It looks as though corn will bring a good price this year. Reports from the eastern counties say corn is not very good.

We notice the elevators at Arcadia are selling and shelling their crib corn. It will be shipped to Womback and fed there by Mr. Horde, the large feeder.

Quite a number of land sales are going on these days and as usual everything selling well which shows that prosperity is here.

N. B. Rogers and Roy Cochran sold their farm of 160 acres for \$40 per acre to a party from Saunders county, Nebraska.
