

ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders and which are derived from bones, rock and sulphuric acid.

STOVES

To a great many the word stove is construed to mean simply a fuel eater, but there's a difference and many others are aware of the fact that science has entered into the construction of some stoves to the extent that a good return is given for the fuel consumed.

There Are People in This Count

who know good stoves when they see them and there are others that can only give sound judgment when the thermometer indicates a below freezing temperature. To both these classes we want to show our stock of Heaters and Cooks for 1906. We want to call special attention to our

Acorn Gas Burner and Riverside Aer-Heater

These superb heaters are constructed with a view of standing hard service, and at the same time are the most economical in the consumption of fuel. The time to order one is now, before cold, damp, melancholy days come, when colds are contracted that last till spring. Now, before the rush comes.

What Pull Has He?
Mr. Mackey, of Ansley, is nominated for state senator by the democrats and pops. He is a good man. It is remarked that many republicans will support him. Now what pull has he over Glover? Is the fact that Mackey is a banker and Glover a farmer a reason for any republican to vote for Mackey? Is it a fact that we as a people put a special value on bankers and a depreciation on farmers? We are for the farmer.—Sargent Leader.

South Omaha Stock Market.
(Reported by Clay, Robinson & Co.)
South Omaha, Oct., 8th, 1906.

There was a moderate supply of cattle offered last week, especially after the first two days. Corn-feds are still scarce, and but few loads each day being put on sale. The trade ruled quite strong all last week, and anything with any degree of flesh sold readily and 10 and 15 cents higher at the close. There is beginning to come a small number of short-fed kinds. These are rather slow sale at present, for as a rule they are poor killers so far as the present is concerned, and packers prefer the good western grass steers. The top last week was \$6.25, with good kinds quotable at \$5.50 and \$6.00; fair to good \$5.00 and \$5.50; short-feds \$4.75 and below. The cow market was strong and active as a rule, and closing prices showed an advance of 10 and 15 cents. Good to choice grass cows and heifers are quotable at \$3.25 and \$3.65; fair to good \$2.60 and \$3.15; canners and cutters \$1.75 and \$2.50.

Heavy fleshy feeders continues strong and active throughout the week, although no material advance was noticeable. Good to choice heavy fleshy feeders suitable for short-fed are selling anywhere from \$4.25 up as high as \$5.20, fair to good \$4.00 and \$4.25; good to choice light and medium weights \$3.65 and \$4.00; fair to good \$3.40 and \$3.65.

The hog market ruled steady to a little stronger each day last week, and with a moderate offering today the trade is starting out strong. Heavies sold at \$6.15 and \$6.20; medium \$6.25 and \$6.30; light \$6.35 and \$6.42-1/2.
