L. Cushman, during his short experience as a member of the county board, has shown exceptional ability to fill the position of supervisor. He is one of those men who believe in seeing things done. As an illustration, when he assumed the duties of his office there were several bridges gone, which the Standard Bridge Company had the contract to replace. When the contractors failed to put in appearance he secured the county pile driver and employed local help and put in the bridges for less money than it would have cost had the bridge company done it.

As the campaign draws to a close the horizon looms up most favorably for one of the greatest republican victories ever recorded in this state and predictions are made that Nebraska will continue her place in the column of banner republican states of the Union with a majority of at least 35,000 for Sheldon for governor. The voters generally throughout the state are imbued with the spirit of confidence in the republican party and with this spirit prevailing the republican campaign directors base largely their estimates of what can be expected as a result of next Tuesday's election.

Every voter should bear in mind that he alone is to blame if he does not get to the polls and vote on election day, and no republican should stay away because of the overwhelming majority the party may have in the state. It is your privilege and right to use your franchise, but it is more than that—it is your duty to your country and your flag that you should exercise this right.

The Supreme court has passed upon the question of newspaper passes under the international anti-pass law in which it holds that passes to newspapers would be a violation of the law, after January 1, 1907. That railroads must pay cash for their advertising and editors pay cash for their transportation.

It is very noticeable that the opposition to Norris Brown in the republican party comes from the railroads, lumber and grain trusts of the state. What is most surprising is that a few of the country newspapers of the state will allow themselves used to further the interests of that clique.

The nomination of G. Hiser for supervisor in his district is a compliment well deserved. Mr. Hiser served on the county board from his district for two consecutive terms and declined to be a candidate for the next term. It was only on the earnest solicitation of friends that he again allowed the use of his name.

If you want to endorse Theodore Roosevelt and his efforts to give all the people a square deal, vote for Congressman Kinkaid and the republican county, legislative and state ticket.

For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—

William Warren, republican nominee for the legislature, has been unable to visit a number of precincts in the county on account of serious illness in his family for over two weeks, and hopes republicans in those precincts, when they learn the cause of his non-appearance, will not blame him, but make a cross mark in the square at the right of his name and urge their friends to do likewise.

Fred Wilson and Wm. Warren are pledged to support county option and they are both republicans and can be depended upon to help enact into law the republican state platform. Their vote will be for a republican United States Senator who will support president Roosevelt to give all the people a "square deal."

C. T. Leach, one of the substantial citizens and conservative business men of Westerville has been nominated for supervisor in District No. 1. A better selection could not well have been made. He ought to be elected by a large majority.

J. B. Gilmore, of supervisor district No. 5, is one of the substantial/straight forward business men of the southwest, who has the confidence and respect of all the people of his acquaintance and his election is already a foregone conclusion.

Vote for G. Hiser for supervisor in the Seventh district and see to it that he is elected by a good majority. He is one of the conservative and careful business men of his vicinity with whom it is safe to trust the county business.

It is reported that Edison has again solved the storage battery, but the poor man will have to wait some time yet before the horseless carriage comes down to his means, so he can use it in going to and coming from his meals.

If you prefer the progress and prosperity of the present time, under republican tariff, to the business disaster and idleness of ten years ago under democratic tariff, vote for your republican candidate for congress and a republican United States senator.

If you want the government to regulate the trusts without busting up things generally, vote for the continuation of the present republican administration. This you will do in voting for Congressman Kinkaid and the republican legislative ticket.

The republican papers that have been opposing Norris Brown in this campaign have convinced the public that the success of the republican party is not the paramount issue of this campaign with them.

In selecting C. T. Leach for supervisor, the republicans of District No. 1 could not have made a better choice. Watch for a big majority from Westerville and Douglas Grove precincts, where he is personally known.

From all over the state come reports that the republican ticket will have a most flattering indorsement at the polls. This will be the case is the republicans will only get out on election day and cast their ballot.

The railroad rate commission has "spake" and—the editor's shoes will have to be half-soled frequently.

Vote for Cushman for supervisor if you want the interests of Broken Bow looked after by a practical man.

A vote for C. L. Gutterson for county attorney will be a vote for one who is capable and one who will attend strictly to duty.

A vote for Glover for the State Senate will be a vote for an honorable, capable man who has spent his life on the farm.

Congressman Kinkaid's Record.
The state of Nebraska has never sent a more active man to congress than Hon. M. P. Kinkaid of this district.

Besides looking after general legislation Congressman Kinkaid has been able to accomplish more for the Sixth district than all of his predecessors combined. His greatest achievement was the securing of the passage of the 640 acre homestead law that bears his name. Again he rendered valuable services in standing out against the big ranchmen, who, with a paid lobby at Washington, tried to get the government to pass a lease law, which would have, practically, defeated the homestead law.

He has secured the increase of the mileage of stage mail fully 50 per cent since the commencement of his service, and added a number of new post offices, for the better accommodation of the public.

He has promoted material and important improvements in railway service, by securing more room for mail clerks, and in several localities has secured the carrying of mail by freight trains in the absence of regular passenger service. He has secured for a number of the larger post offices in the district, additional clerical assistance. He has secured 67 rural delivery mail routes and has applications for more than twenty more.

He has introduced and promoted the passage of a large number of private bills for the relief of soldiers of the Civil and Spanish American wars. He got through as many such bills as congress would allow him to pass. He has helped promote the allowance of pension claims, in the Bureau of Pensions, over 700 claims, having gotten through last session nearly 300. He now has nearly 800 cases pending in the Bureau of Pensions, besides private bills he has pending in congress for the relief of soldiers and members of their families.

He has secured special acts by congress for resurvey of public lands in Brown, Rock, Cherry, Daws, McPherson, Wheeler, Garfield and Holt counties, to the great benefit of the localities affected.

At the last session he secured an appropriation of \$85,000 for a government post office at Kearney and \$30,000 for the improvement of Fort Robinson. He got a bill through which allows the military post to purchase horses of Nebraska farmers, one or more at a time. Under the old rule they had to be bought in job lots and some eastern state was the beneficiaries.

Twelve years preceding Congressman Kinkaid's election to congress, Fort Niobrara and Fort Robinson had nothing done for them and they were slated for abandonment. Mr. Kinkaid prevented the carrying out of the orders to abandon these two posts, with the result that Fort Robinson is to be made a permanent large post.

Congressman Kinkaid's record in congress has been an active one from the first and highly successful for his constituents. His election should, and doubtless will be, with an increased majority.

WOMAN

"Woman" is the name of a new magazine for women. The first number is just issued. Your newsdealer has it. You can get it from him, and it is worth your while getting it. There is nothing startling about this magazine. There should be nothing startling about a decent magazine for women and the home. But this particular magazine is unique among all the so-called publications for women. You might not like it a little bit, and then, again, it might hit your fancy good and hard.

If you like fiction—good, wide-awake, snappy stories—both serials and short stories—you will like "Woman." In fact, fiction is the big feature of the magazine.

All the other magazines for women are cast on the same model—a little bit of fiction, a few articles, more or less chit chat, some wise advice, a fashion department and a smattering of general miscellany. "WOMAN" doesn't look any more like this conventional model than a yellow dog looks like a race horse. It is built on new lines for a strictly woman's publication. To know what it is like you will have to get a copy of it. It would cost too much to tell you all about it in this advertisement.

The price of "WOMAN" is TEN CENTS A COPY, and the magazine is a very big one—192 pages.

By the way, two rattling good serial stories begin in this first number and it contains a big lot of other good things. You would do well to ask your dealer for it before his supply is exhausted.

THE FRANK A. MUNSEY COMPANY, New York.
