It is only by continual publicity that the many advantages of Nebraska can be made known to the outside world and investors brought here to help in the development of this great state. One way to do this is to send the local papers to relatives, friends and acquaintances in the east, provided your business firms are well represented in the advertising columns. There isn't a paper in the state that does not boost for Nebraska, every week, even though in some of the towns the business men are very niggardly in advertising and nothing indicates a prosperous and wideawake community more than a liberal amount of advertising in the local paper.

The postoffice department has issued a fraud order against for Friday evening Jan. 4, pre-Santa Clause, and all letters senting the ever popular "Mica-addressed to him will be sent to the Dead Letter office at Washington. Heretofore postmasters have generally laid these epistles to one side and turned them over to charitable people who have seen to it that the wants expressed in the letters were supplied as well as possible." I seems too bad to break up this practice, as the real pleasure of the list will be given an oppor-Christmas is the making of others happy.

Justified by Business.

the Republican attitude may be to the party of Free-Trade or "Tariff for revenue only," which amounts to Free-Trade, it is the attitude justified by every line of business. A Hair Dressing

Nearly every one likes a fine hair dressing. Something to make the hair more manageable; to keep it from being too rough, or from splitting at the ends. Something, too, that will feed the hair at the same time, a regular hair-food Well-fedhair will bestrong, and will remain where it belongson the head, not on the comb!
