OVER \$1,000 A YEAR AND "LIVING."

That is the Story of a Michigan Farmer Who Lives in Western Canada.

Olds, Alberta, Dec. 10, 1906. Mr. M. V. McInnes, Detroit, Michigan: Dear Sir and Friend—It will be four years next May since I came to Olds, and have lived here ever since.

Since I came here wheat has run from 25 to 45 bu. per acre, oats from 65 to 115, that I know of. I raised that last year, 115 bu. to the acre of the finest oats I ever saw, and oats that I sowed 31st day of May this year went 72½ to the acre and weighed 41 lbs. to the bushel. My barley went 40 bu. last year and 50 this year, and was not sown until the latter part of May. I had 3 acres of potatoes this year and sold 700 bushels and put 275 bu. in the cellar, and no bugs to pick.

We have a fine Government Creamery at Olds. Our cows made \$41 per head and I didn't feed any grain; only prairie hay, so you see we are doing well. We have the patent for our homestead now and am very thankful that we came to Alberta. We have made a little over \$1,000 each year besides making our living. I would not go back to Michigan to live for anything. If I had my choice of a ticket to Olds or a 40-acre farm in Michigan I would take the ticket and in two years I could buy any of them 40-acre farms. This is the country for a poor man, as well as a man with money.

I will close, thanking you for our prosperity, I remain yours truly,

(Signed) OTTO YETTING.

FOUND HE COULD MAKE TIME.

One Call for Physician That Met with Quick Response.

Life is such a constant rush to a well-known physician that to secure a little recreation he has recourse to ruses. A visitor called one night, and began to speak to the servant:

"I want the doctor to come over as quickly as he can."

"He can't do it!" the servant answered. "He left orders that he was so busy that unless it was absolutely a matter of life and death he couldn't go out at all this evening."

"But," said the caller, "it isn't illness at all."

"What then?"

"We want him to come over and take a hand in a game of whist."

"Oh, that's different."

The servant disappeared, and reappeared a moment later.

"The doctor says he'll be over in ten minutes, sir," he announced.

Excellent Advice Which Our Readers Will Benefit By.

Now is the time to get the rheumatic poisons and foul acids from the blood and system, states an eminent authority, who says that Rheumatism and Kidney trouble are caused by the blood, which often becomes sour from excessive acids, and also tells what to do to make it pure and healthy.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple blood cleaner and tonic at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting right. Any one can easily prepare this mixture at home.

Detective's Parable.

Hilary K. Adair, the well-known detective, was complimented in Galveston, Tex., on an arrest that he had made. The arrest had been mysteriously achieved and Mr. Adair was asked to explain it. This, though, he refused to do.

"There are so many ways of catching criminals," he said, laughing. "You know what the old man told his wife? She first said to him:

"Don't talk, John. You can't say I ever ran after you."

"True," the old man assented. "And you can't say the trap ever runs after the mouse, either, but it gathers him in just the same."

MAN OF DELICATE NERVES.

Rosenthal, the Pianist, Made Much Trouble in Hotel.

Rosenthal, the pianist, is one of those entitled to have his crankiness termed "the eccentricities of genius," says the San Francisco Chronicle. When he inspected his rooms at the Majestic upon his arrival very late the other night, he went softly to the adjoining doors, and placing his ears close to the cracks, exclaimed in broken English, "Zgodd, no sounds pass thees." After nodding his approval of the grand piano and the furniture he frowned at the tan-colored window shades. "Must be green," he was assured that a change would be made especially for him the next day.

At five o'clock in the morning Rosenthal, clad only in his pajamas, came scurrying excitedly down stairs and into the office, where the drowsy night clerk was nodding at the desk.

"Ze street cars! Noise! Must stopped! Nervous me! I cannot sleep."

The clerk hurriedly sent for Manager Gustav Mann, and Mann spent two hours telling Rosenthal funny stories in German trying to divert his mind while the clerk was upstairs squaring the management for waking a guest on the Gough street side and ordering him to move at once to the Sutter street side as a gas pipe had burst under the floor and had to be repaired!

PE-RU-NA A MEDICAL COMPOUND

In any medical compound as much depends upon the manner in which it is compounded as upon the ingredients used.

First, there must be a due proportion of the ingredients. Each drug in the pharmacopoeia has its special action. To combine any drug with other drugs that have slightly different action, the combination must be made with strict reference to the use for which the compound is intended. The drugs may be well selected as to their efficacy, but the compound ENTIRELY SPOILED BY THE PROPORTION in which they are combined.

It takes years and years of experience to discover this proportion. There is no law of chemistry, of pharmacy, by which the exact balance of proportion can be determined. EXPERIENCE IS THE ONLY GUIDE.

In compounding a catarrh remedy Dr. Hartman has had many years' experience. In the use of the various ingredients which compose the catarrh remedy, Peruna, he has learned, little by little, how to harmonize the action of each ingredient, how to combine them into a stable compound, how to arrange them into such nice proportions as to blend the taste, the operation and the chemical peculiarities of each several ingredient in order to produce a pharmaceutical product beyond the criticism of doctors, pharmacists or chemists.

WE REPEAT, THAT AS MUCH DEPENDS ON THE WAY IN WHICH THE DRUGS ARE COMBINED AS DEPENDS UPON THE DRUGS THEMSELVES.

The compound must present a stability which is not affected by changes of temperature, not affected by exposure to the air, not affected by age. It must be so combined that it will remain just the same whether used in the logging or mining camps of the northwest or the coffee plantations of the tropics.

A complete list of the ingredients of Peruna would not enable any druggist or physician to reproduce Peruna. It is the skill and sagacity by which these ingredients are brought together that give Peruna much of its peculiar claims as an efficacious catarrh remedy.

However much virtue each ingredient of Peruna may possess, the value of the compound depends largely upon the manner and proportion in which they are combined. The right ingredients, put together rightly, is the only way a medical compound can be made of real value.
