Thursday, April 18, 1907.

It has been rumored for many years that a person who is running down at the heel in the matter of health can fully recover by imbibing four quarts of cold water each day, and now comes a rather authentic statement that such procedure will actually land health in large sized chunks.

One Colonel W. J. Bryan is still undecided as to whether or not he will be a candidate for president of these United States, and he will probably remain in that state of americana dementia until it is definitely decided by the people if they will be able to force one certain Roosevelt to become a candidate.

The law providing for denatured alcohol is getting results without creating the disasters its opponents predicted. Less than three months since the final passage of the bill, denatured alcohol is coming into general use.

This is the time of year a man wants to forget the medicine bottles, hot flannels, liniments and other nostrums and get out into the open and enjoy the pure air.

It's a poor guesser who can't select a presidential candidate from all the men now anxious to serve in that capacity, there being thirteen republicans willing to receive the nomination.

Traveling men are kicking against the roller towels used in some of the hotels and want individual cloths on which to wipe their countenances—just like some church members want separate communion cups.

The Ainsworth Journal is out floating the name of W. H. Taft, of Ohio, for president in 1908. That settles it; Taft will be nominated and elected, now that Bro. Cotton has declared in his favor.

A Hunch for the Improvement Club.

Why wouldn't it be a good move by the Improvement club to offer prizes for the best kept lawns and the finest flower gardens maintained by property owners or renters in the city? There are many citizens who would enter such a contest and take pride in endeavoring to win the honor.

They Will Remember. The tariff is about the only thing on which our Democratic friends can agree—and of course they can't exactly agree on that, but they are all willing to pretend they can if it promises to get them back into office.

Dry Valley Doings. C. R. Baugh departed for his home in Fairmont last week for a week.

The next meeting of the Farmer's club will be held at the residence of our secretary, Mr. Vandenburg, the third Saturday of this month.

The recent cold snap has checked every thing in the vegetation line and early fruit may have been seriously injured.

Corn stirring is the work of the farmers these days and although the spring seemed to have opened up earlier than usual, however the work is no farther ahead than usually at this time of the year.

A collector from the county treasurer's office appeared in these parts last week soliciting for "long green" which the forgetful had to "dig up."

Several bunches of fine feeding cattle remain unsold in the Valley which, in all probability will be fed a month or two yet.

Potatoes are scarce and selling at 65c to \$1.00 per bushel. A large amount of small grain is put out in this vicinity and if all things are favorable a large crop will be harvested.

Some of our merchants are jumping on the catalogue patrons. We shall not dwell on the subject but let everyone find out for himself.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. A sluggish liver gives a coated tongue, hot breath, constipated bowels. Correct all these by giving small laxative doses of Ayer's Pills. All vegetable, sugar coated.

A Costume Social.
