**Free Public High School Attendance.**  
 For several sessions the Nebraska legislature has tried to formulate an adequate law for free High school privileges throughout the state. Two or more such laws have been passed, but declared not constitutional. The present law was drafted after careful consultation with eminent jurists, and is believed to be within the requirements. This law provides that all pupils of any public school district in the state are to have the privilege of four years free instruction in High School.  
 The requirements are as follows:  
 The pupil must have a statement from the county superintendent of the proper county stating that said pupil has completed the Eighth grade, and cannot secure further advancement in the district of his or her residence. (The same applies to those who have completed the work of the Ninth, Tenth or Eleventh grade.)  
 The parents (or guardian) of the pupil desiring this privilege shall make application in writing, to the county superintendent of the proper county stating the number of the school district in which they live, the number of pupils for whom this privilege and the grade which each of the pupils is to enter. This application must be made to the county superintendent not later than the second Monday in June.  
 It then becomes the duty of the county superintendent to notify the district in which said pupils reside, which district shall levy a tax for this purpose, sufficient to pay the tuition of said pupils at the school of their choice, at the rate of seventy-five cents per week. If the district shall fail to vote such tax, it becomes the duty of the district board to order such levy; and in case both the district and district board shall fail, it becomes the duty of the county superintendent to make and deliver to the county clerk an itemized statement of the amount necessary to be levied. The clerk shall include these amounts in the levy for school purposes.  
 The principal thing for all to remember who desire to take advantage of the provisions of this act may be re-stated, as follows:  
 Satisfactory evidence must be furnished that the pupil has completed the work of at least the Eighth grade, and that the higher grades are not taught in the district of residence.  
 Application must be made to the county superintendent not later than the second Monday in June.  
 Since the law provides that the rate of tuition shall be seventy-five cents per week, it is probable that High schools will generally make this the rate of tuition to be collected for all non-resident pupils.  
**H. M. PINCKNEY,**  
 County Superintendent.

**Lands in Canada.**  
 Of the 90,000,000 acres of fertile land in the West of Canada the government has allotted 75,280,000 and has only 14,180,000 left. In 1906 the crop acreage of Manitoba, Saskatchewan and Alberta, with a population of 806,928 was 7,282,719 acres. Only a small proportion of this has fallen into the hands of bona fide farmers. Forty million acres of the fertile land given out by the government is in the hands of companies, syndicates and private and other owners, all of whom are holding for the purpose of obtaining higher prices.
