

NEBRASKA IN BRIEF

NEWS NOTES OF INTEREST FROM VARIOUS SECTIONS.

ALL SUBJECTS TOUCHED UPON

Religious, Social, Agricultural, Political and Other Matters Given Due Consideration.

Police at McCook made a raid on a gambling house, gathering in six players.

So far this season there have been 230 ears of cattle shipped from Hyannis. Shipments started early and will finish much sooner than in any previous year.

During an altercation at Hyannis between A. B. Hosman and John McMichael, the latter struck the former with a knife inflicting a deep gash in the arm. McMichael is now under arrest.

The state board of public lands and buildings entered an order that Warden Beemer of the state penitentiary shall no longer charge a fee of 10 cents for visitors desiring to inspect the institution.

While R. H. Jefferies, southwest of Clearwater, was threshing, a spark from the engine set fire to the stacks and burned about 450 bushels of rye, which was fully insured in the Antelope County Mutual.

The preliminary trial of Jim Butcher, who shot Fount Sanderson at Cody two weeks ago, was held at the court house in Valentine, and Butcher was bound over to the district court under a \$500 bond, which he furnished.

Sam Belenky, an Italian grader, was killed by No. 10 on the Union Pacific near North Bend. He was moving a handcar from the track and apparently did not see the approaching train, which was running five hours late.

A severe rain and electrical storm visited the section about Beatrice. Lightning fired the wheat stacks on the farm of S. Pheasant and a man's grain near Ellis, causing a heavy loss. Several barns were struck and badly damaged.

County Surveyor Norton of Holt county has completed a diagram for a new town that has just been laid out in Holt county at Dorsey. The town as planned comprises two eighty-acre tracts of the McElhaney land that figured among the assets of the defunct Elkhorst Valley bank and which was sold under execution a short time ago.

The men sinking the deep well for the Oteo Development company are having all kinds of bad luck. Last week they lost their drill and were compelled to go to Lincoln to get machinery with which to recover it. They then sunk the well to a depth of 625 feet when the large cable broke, and as it was 3,000 feet long, it will be some time before it can be replaced.

Rock Springs coal has been advanced in Sidney from \$8 to \$9 a ton. The local dealer claims it has gone up \$1 a ton at the mines. "If there is anything on earth that will make the people steal coal," said a Sidney man, "this new deal will certainly have the desired effect, and the Union Pacific will have to put on a better night watchman."

Mrs. Jacob Martin, wife of a prosperous farmer living about eight miles southeast of Cortland, was murdered by an unidentified man. The body was found lying under the bed with the victim's head crushed at her home by Mr. Martin, who had been away for several hours attending the primary election. She was about 45 years of age.

Kilpatrick Bros. of Beatrice have resumed work on the Marysville-Tokpa cutoff of the Union Pacific, after a shutdown of several months, due it is said, because the 2-cent rate went into effect in Nebraska. The contractors have put a large force of men to work and if nothing prevents it is the intention to have the line to Marysville completed within the next sixty days.

Mrs. Florence Lewis, wife of C. L. Lewis, president of the Citizens' Bank of Fairfield, died last week. Mrs. Lewis was in the prime of life and the best of health up to a few months ago. She was a prominent club woman and church worker, public spirited and especially active in everything that tended to the betterment and beautifying of her home town.

Adolph Hogenkamp, a farmer residing five miles northeast of Cambridge was found dead, having shot himself with a shotgun. For some time his health has been poor, and it is thought that he did the deed through despondency. The affair took place during the night while the family was asleep, and he was not found until morning, when he was found seated upon a wagon on which was a hayrack.

A letter received in Nebraska City announced the death of Mrs. May Miller at Salt Lake City on August 28. She left there some two weeks ago with her mother to visit her sister, and met her death in a street car accident.

A young woman about 20 years old, accompanied by a young man, tried to commit suicide by attempting to jump from the window of a moving Overlin train near Republic City. It was by main force and very decided talking that the young man restrained her.

WORN TO A SKELETON.

A Wonderful Restoration Caused a Sensation in a Pennsylvania Town.

Mrs. Charles N. Preston, of Elkland, Pa., says: "Three years ago I found that my housework was becoming a burden. I tried easily, had no ambition and was falling fast. My complexion got yellow, and I lost over 50 pounds. My thirst was terrible, and there was sugar in the kidney secretions. My doctor kept me on a strict diet, but as his medicine was not helping me, I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

Statue Finally Completed.

When Alfred Stevens designed the noble monument to the duke of Wellington in St. Paul's cathedral, London, he intended that his work should be crowned by an equestrian statue. But Stevens died before his design was carried out. Now, 32 years after his death, the equestrian statue has been completed and before long will be placed in position.

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

A Hopeless Case.

"Yes," said the business man, "I have given up trying to collect that little bill from Bilkins. You see, he is a big, muscular fellow, and he used to throw my collectors out."

"Then why didn't you employ a woman collector?" inquired a writer in Spare Moments. "He couldn't do that to a woman."

"That's what I thought, so I got one and sent her round, but she never came back."

"Why not?"

"He married her."

Why Advertising Pays.

"You will be pressed for money often because you have no advertising bills to pay than because you have," observes the Buffalo News. "Big advertising bills and big bank balances grow, together, out of the same publicity campaigns." The merchant who holds down his expense account by cutting out advertising saves money just the way the railroads would if they should stop buying coal for their locomotives. Without coal the wheels won't turn; without publicity trade comes to a standstill. It pays to throw silver out of the window that gold may come in at the door.

A Horse's Good Fortune.

A spiritualist came to our house some time ago and claimed to be able to locate our lost friends if we desired. We had an old horse which we had sold years ago and my mother wanted to know where he was. Mother began:

"We had a very good friend who always did all our work. He passed from us several years ago and the last we heard of him was that he was in Los Angeles. I would like to know if he is still living."

The spiritualist made certain motions and knocked on the table and then said:

"Your friend is in Los Angeles and is married to a rich young woman."—Judge.

FAMILY FOOD.

Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the food by the advice of his physician. She says:

"They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in our family regularly."

"My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk."

"Well, it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible on Grape-Nuts."

"Sometime ago several of the family were stricken with LaGrippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us."

"We all appreciate what your famous food has done for our family." "There's a Reason." Read "The Road to Wellville," in pkgs.

A Foine Bird.

An Irishman who wasn't much of a hunter went out to hunt one day, and the first thing he saw to shoot at was a blue jay sitting saucily on the top of a fence. He blazed away at the bird and then walked over to pick it up. What he happened to find there was a dead frog, which he raised carefully at arm's length, looking at it with a puzzled air. Finally he remarked: "Well, begobs, but ye was a devil of a foine looking burd befur Ol blew ther fithers off o'yers!"—Judge's Library.

Had a Cheer Coming.

Years ago, when the G. A. R. annual department encampment was held in Boston, as the veterans were marching along one of the avenues a lady, who had secured an elevated position on a wagon in a side street, became conspicuous by the enthusiasm she displayed, and was dissatisfied with the lack of it in the by-standers. "Cheer!" said she. "Why don't you cheer? I guess you'd cheer if you'd lost two husbands in the war as I did."—Life.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

Tripped.

Gunner—So you think the DeBlowers are faking about their extended European tour?

Guy—I should say so. They said there were so many Americans in Venice that many had to walk in the middle of the street.

Gunner—Well?

Guy—Why, the streets of Venice are canals.

Little Son's Explanation Seemed to Cover the Case.

Little son, aged seven, whose training has been of the most painstaking and conscientious, rather took away his mother's breath in describing the dog's game of ball. He ended with: "And, mother, Topsy caught the ball in her mouth, and then just ran like h—!"

"Like what?" cried the startled mother.

"Why, like h—, don't you know, mother?" innocently.

"No, I don't believe I do. Just how is that, dear?" she asked faintly.

"Well, I don't know jus' what it means, myself," he confessed, "but it's a whole lot faster than 'flecty-split!'"

CASE OF ECZEMA IN SOUTH.

Suffered Three Years—Hands and Eye Most Affected—Now Well and is Grateful to Cuticura.

"My wife was taken badly with eczema for three years, and she employed a doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and her left eye were badly affected, and when she would stop using Cuticura Soap and Ointment the eczema came back, but very slightly, but it did her a sight of good. Then we used the entire set of Cuticura Remedies and my wife is entirely recovered. She thanks Cuticura very much and will recommend it highly in our locality and in every nook and corner of our parish. I. M. Robert, Hydrópolis, La., Jan. 5 and Sept. 1, 1906."

Tom Ochiltree's Moon.

After Tom Ochiltree, that able congressman raconteur and laugh generator for the afflicted rich, settled in New York as the amuser of the John W. Mackay family, he effervesced in a thousand different directions, and was as good in some ways as Sam Ward. One night he escorted John Mackay's friend, the Count de Biscout, down to the Battery to show the sight of New York. The moon was grand, and the count went into raptures as "her maiden reflection rippled over the pearly waters." He cried: "Eet iss grand! Eet iss grand! Dair iss no such moon in all Italy!" "Count," said Ochiltree, solemnly, as befitted the occasion, "you just ought to see the moon in Texas!"

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Wedding Customs.

She—Do all places have the same custom as we have in New York of throwing rice at the newly married couple?

He—No; in Boston I believe they throw beans, and in Milwaukee I have heard they throw beer!
