Wm. Ransley, who resides twelve miles southwest of Broken Bow, was a pleasant caller at our office Tuesday while in the city.

COAL FOUND IN CUSTER COUNTY.

ON FARM OF JOHN MILLER FIVE MILES SOUTH OF ANSLEY.

AT A DEPTH OF 180 FEET

Street Brothers Again Find Coal While Digging a Well. May Mean Great Things For Custer The Banner County of Nebraska.

Custer county, with its fertile soils, its rolling prairies, its numberless hills on which stock can graze almost the year round, its numerous valleys and table lands, the productiveness of which is hard to excel, may have greater wealth producing avenues than all these added to the county's resources before many months have passed into history. An addition which would benefit every man, woman and child, and would bring many miners to our county to bring the black diamonds to the surface where coal could be bought cheaper than it is now. It would be hard to estimate in round numbers just what value several coal mines would mean to Custer county, but it is safe to say that a vein of six inches at a depth of 180 feet is sufficient evidence to warrant prospecting for a vein that would pay to work. In March 1905 Street Bros found a three inch vein of coal on the farm of W. T. Ransley, fourteen miles southwest of this city at a depth of fifty feet. The six inch vein was found recently while putting down a well for John Miller, who resides five miles southwest of Ansley. They first struck rock at a depth of 100 feet and went through thirteen layers ranging in thickness from four inches to four feet before they struck coal. The vein is about six inches in thickness and is underlaid with sand, gravel and rock. A sample of this coal can be seen at Street Bros. Shop.

Fly Chaser

Don't let your horses and cattle suffer from flies when you can prevent it for almost nothing. I have a remedy called Fly Chaser that comes in quart, half gallon, and gallon cans. Buy a small can to try it and then get a gallon.

S. R. Lee
The Busy Druggist

Much of the Comfort

Of a man's home enjoyment depends upon his surroundings — his conveniences. A cosy arm-chair will make his pleasure all the more certain. We have them in all kinds—for in-door or veranda use. Fine wicker rockers and arm-chairs that positively look inviting. They resemble vigilant policemen in the sence of inviting a rest, but a rest in them is welcome.

D. C. KONKEL.

THE FURNITURE MAN.

Frightened For a Moment.

While walking along the street the other day we noticed a crowd of men listening to a politician who was making some assertions and telling them what would be the result in Custer county this fall. One of his broad assertions was that every man in the county old enough would vote for Bryan at the coming election except those who were drawing a salary, they, of course, would vote for Taft. As we were new here the assertion kind of staggered us just a little and we wondered if it was not time for Chairman Pigman and Vice-Chairman Myers, the balance of the Central Committee and the few salaried men in the county to get busy and see if they could not counteract such calamity. After reasoning for a short time we came to the conclusion that the politician was about right in his remarks for every man in the county, be he merchant, clerk, banker, farmer, lawyer, carpenter, etc., is virtually working for a salary—the proceeds he derives from his business. Desiring to know who this politician was we hunted up an old resident and pointed him out and were told that the initials of his first name was Jess and his last name Gandy. Now, we are resting perfectly easy.

Let us be your printer.

Fresh cream puffs Saturdays at the City Bakery.

Short Horn Cattle
Herd Headed By
CHIMSON SCOTT No. 717035.
J. G. BRENZER, Breeder of
Pure Scotch and Scotch Topped Short Horn Cattle. My herd numbers 40 cows. Will compare in breeding and quality with any west of Chicago. My experience has taught me that to give good satisfaction, breeding cattle must be raised to this attitude. I expect to raise them here the equal of anything raised in the U. S. I now have 25 bulls suitable for this and next year's service. My cows weigh from 1500 to 2000 pounds. Come and see them.

BROKEN BOW, NEBRASKA

Now For the County Fair.

The year 1908 promises for Custer County a banner year. We have had a most seasonable year for one of the best crops ever raised in the County. The only thing now necessary to make the Custer County Fair a grand success is for every man, woman and child to put their shoulder to the wheel and prepare something to bring to the Fair. Pick out a few hills of corn—a bundle of wheat, oats, barley or rye and tie it up nicely hanging it up with heads downward, gather a variety of Custer County grasses, help the children earn a premium by getting up some special designs out of grains, grasses etc, thus teaching them industry skill and progressiveness.

The Custer County Fair will be held on the beautiful grounds adjoining Broken Bow. Is a growing industry with a greatly increased premium list with many special premium offers. You can help increase them for another year by pushing the Fair. Show your interest by your presence, bring something, see your neighbors and ask them to prepare something, join together and form a neighborhood display, pull together, show what you have in your locality, take a premium, show your products; you have something, display it. Boost for Custer County.

Be a live one, arrange to bring the family for an outing, write, telephone, and send word to your friends to meet you at the Fair. Your eyes were made for seeing; come and see what Custer County can do, inspire a "want-to-know" feeling within yourself and neighbors, discuss the Fair in perpetuating the higher interests of Custer County. The management have arranged for some excellent attractions to amuse and entertain the crowds.

One of the special attractions for this year is Homer Wilson with his famous eight act Cowboy trick riding, bronco breaking and roping. This feature alone will be worth your time and money, besides you will see a good many races, the fine stock exhibits and have a chance to win some of the grand sweepstake prizes which are offered.

H. H. Myers of Merna came down to mingle with the old settlers yesterday and to look after business matters. He called at this office to have us push his subscription date ahead.

Merritt Johnson of Westerville was a pleasant caller at this office yesterday and while in had the date on his paper put a notch in advance. This was Mr. Johnson's first visit to the city in three years.

BUSINESS POINTERS.

Dr. C. M. Headrick treats all chronic disease. Next visit to Broken Bow will be Aug 12th.

Apples Peaches Plums Pears Berries Etc.	Everything In The Grocery Line You Can Wish For.
--	---

Fruits by the crate or in smaller quantities.

Just right for canning.

J. N. Peale

Broken Bow, Nebraska.

Storm at Dunning.

Reports from Dunning say that a livery barn was blown down and several houses unroofed during a heavy rain storm last night. The depot also suffered as several windows were blown in. No loss of life reported.

A Chautauqua should be liberally patronized for it is a great benefit to a community, but we believe it should be handled by home people and not by foreign syndicates. Either the Commercial Club or the Civic Improvement Club or both should have charge of the Chautauqua in Broken Bow next year. It can be run as profitably as our county fair. This should be looked into at once and commence dating speakers. If this is done the profits will remain at home and will help in a good cause.

White Dishes For Harvest

I have just received a large shipment of White Dishes for Harvest and Threshing time. It will pay you to see them and get my prices.

Bread, Nice and White

Is the kind you have when you use Lexington Flour. Every sack guaranteed for Quality and Price.

J. W. SCOTT,

Hardware, Furniture, Flour and Feed.
