

CUSTER COLLEGE

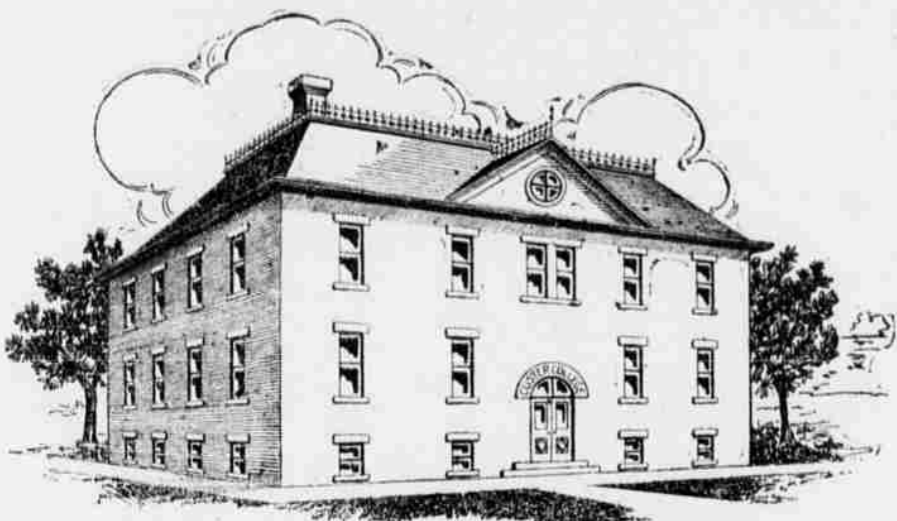

A CREDIT TO CUSTER COUNTY
AND TO BROKEN BOW.
A NEW BUILDING.

HAS SEVEN DIFFERENT DEPARTMENTS

An Institution Where The Young Men
and Women Can be Fitted For
Almost Any Calling in Life.
A Strong Faculty For
Ensuing Year.

There are but few people, perhaps who have taken time to consider what the new college building in Broken Bow means to our city. Its value to the city and surrounding country would be hard to estimate in dollars and cents and we are not going to try to fix the amount. But we do believe that it has a greater value to our community than will ever be appreciated by a ma-

building is three stories, 40 x 60 feet with the rooms arranged as follows: The upper floor has a hall 17 x 20 feet, Recitation room 17 x 20 feet, Business study rooms 40 x 43 feet. The second floor has a Hall 20 x 23 feet, an office 13 x 15, a cloak room 7 x 15 feet, a Normal room 20 x 40 feet, Shorthand room 20 x 24 feet, Typewriting room 12 x 20 feet separated by a glass partition.

NEW BRICK BUILDING

majority of our citizens. But few towns in the United States the size of Broken Bow are privileged to have an institution of learning such as Custer College and none, perhaps, have as fine a college building as the one which is being rapidly pushed to completion in order to be ready for the fall term, which will start September 21st. This office is printing 2000 catalogs for college and you can have one of them by addressing Loren Cornett, President, at Broken Bow.

The lower floor has a Hall 9x20 feet, a music room 15 x 20 feet, a Gymnasium room 36 x 40 feet and a furnace room 20 x 24 feet. Every room is well lighted and is especially adapted for the comfort of the students who attend college. The building is a credit to Broken Bow and is a great improvement to our city and adds one more fine edifice to the many beautiful buildings which now attract the eyes of the strangers who visit the best town in central Nebraska.

The New Building.

Will Become Large School.

Students who attend Custer

With this well equipped build-

THE FACULTY

College in the future will have the advantage of a new modern brick building, which is not only the prettiest building in Custer county, but with its large campus, will make the nicest home for a business college of any like institution in Nebraska. The

ing, its excellent location, a strong faculty and its host of friends, Custer College will become one of the large schools of the state. The prospect for the coming year is very encouraging to the management as a large number of young people have ex-

pressed their intention of attending.

Made Custer College Possible.

The following are the names of the subscribers that made it possible for Broken Bow to have

such a beautiful building and Custer College an ideal home:

the feeling created by the failure of the old business college, the outlook was anything but encouraging. In fact in some quarters he received discouragement even although not in any way connected with the old school. But he was not to be baffled and with optimistic spirit and ardent faith in the success of his undertaking, by means of hard work and persistent effort, he has accomplished his purpose, with the aid of

ience which proves a great advantage to him as a commercial teacher.

Miss May Bernschein, principal of the Shorthand and Typewriting Department, is a teacher of more than ordinary qualifications. She is mistress of three leading systems of shorthand, has had actual experience in the business office and the advantage of four years experience as a teacher of shorthand. She is es-

To Attend Golden Wedding.

Mr. and Mrs. E. C. House and children left for Canton, South Dakota, today where they go to be present at the golden wedding anniversary of N. J. House and wife on September 1. N. J. is a brother of E. C.'s and is twenty-two years older than Ed. Mr. and Mrs. House will visit in Sioux City and Omaha before returning. They expect to be absent about ten days.

Joyner-Garton.

Married, Tuesday evening, August 25, 1908, at the home of the groom's parents, Mr. and Mrs. D. V. Joyner, of Broken Bow, Mr. Harold R. Joyner and Miss Emma Garton, Rev. J. D. Brady officiating. The Republican joins their many friends in wishing them many years of wedded bliss. Mr. and Mrs. Joyner will make their home in Merna where Harold is manager of his father's elevator.

The Republican believes in boosting every enterprise or improvement which is a benefit to our city and for this reason we have devoted considerable space to Custer College and its faculty this week. With our two fine High school buildings and the new College building, all of which have the best of teachers, Broken Bow can rank with the best as an educational city.

Mrs. Sarah F. Brady, who has been visiting her son, Rev. Brady, for the past two months, left last Thursday for Owenemo, Kansas.

GRADUATING CLASS

those who so liberally subscribed, and made it possible to have a college and a building of which all may be proud.

Enrollment Increasing.

The enrollment at first was only twenty-six, but friends of the school began to multiply and by the close of the year the number enrolled had reached eighty-seven. Pleased students proved to be the best kind of advertisement and people began to gain confidence in the school, so that by the close of last year the total enrollment in all departments reached over two hundred and thirty-one. This is certainly a most remarkable showing and more than the most sanguine could have hoped for.

Seven Departments.

The college maintains seven departments: Business, Normal, Agricultural, Shorthand and Typewriting, Music, Academic, Elocution and Oratory. It has the advantage of having as able a corps of teachers as any similar school in the state.

The Faculty.

Prof. Loren Cornett, the president of Custer College, has charge

pecially fitted for teaching the Gregg system, having had John

A SHORTHAND CLASS

R. Gregg, the author, as instructor.

Mrs. Tottie Cornett, principal of the Academic department, is a thorough scholar and a very successful teacher. Students in this department will certainly be well pleased with her work and will profit by her instructions.

A. P. Vannice, who has charge of the Normal work, has been teaching for a number of years and is well known by many Custer County teachers. He spent several years as a student in high school and college. His experience in Summer schools and his large knowledge of the problems with which the teachers has to deal thoroughly fits him for his position.

Miss Hattie E. Speake and Miss Virginia L'Ameraux have charge of the Elocution and Violin work respectively. They are ladies of culture and refinement and thoroughly trained in their lines of work and are acknowledged

Harvey L. Sams of Scottsbluff and a candidate for Commissioner of Public Lands and Buildings, on the Republican ticket, was in the city Monday looking after his chances. He is the only candidate in the western part of Nebraska asking to be elected to a state office. Mr. Sams is a graduate of the State University and was Superintendent of Schools at Red Cloud for some years, and is no doubt well qualified for the position which he is aspiring to fill.

Nebraska railroads, with one exception have granted a fare of three cents for the round trip where the fare exceeds \$1. to the State Fair at Lincoln, Aug. 31st to Sept 4th.

Mrs. Nancy Lang, who recently purchased the residence property north of Attorney Shinn's residence, is visiting her son, Warren Lang west of this city.
