He was following behind a mowing machine and in some manner stumbled and fell with his hand in front of the sickle bar which cut his right arm off at the wrist. Guy is an industrious boy and that he will be compelled to make his way in this world with only one hand is a sad thing.—Ansley Argosy.

BOY CHOKED LEAVES HOME.

SIXTEEN YEAR OLD BOY TAKES PONIES AND LEAVES FOR KANSAS.

STOPPED TUESDAY IN THIS CITY

Sheriff Kennedy Stops a Sixteen Year Old Lad Who Ran Away From His Home Near Almyra. His Father Came Tuesday.

Because his father beat and choked him Sunday afternoon, a sixteen year old boy took his ponies and left his home near Almyra Monday to go to Gray county, Kansas, where he has a brother living. The lad's story as told to Sheriff Kennedy, Deputy Sheriff Craig and the Editor is in substance as follows: "My cousin and his sister and myself and sister were playing croquet Sunday, and us boys were beating the girls. Father came out and helped the girls beat us by showing them how. This was before dinner. After dinner we were playing again and father came and helped the girls. We asked him not to and he said he would not, but he did, and I quit playing and went to the barn to curry my team and get it ready to go to Almyra to attend Epworth League. While I was currying my horse father came into the barn and choked me till I was hardly able to stand up then he slammed me up against the side of the barn. He told me to go back and play croquet and I did. But I got to thinking the matter over and made up my mind I would run away and go to Gray county, Kansas, and see my brother. I suppose I was hasty, for I have a hot temper just like father."

When asked if the ponies he had with him were his, he said they were and told how he had come in possession of them. He also said when asked that he would not have run away if his father had not choked and abused him, and said that he would no doubt meet the same fate when he got back home. There were great tears in the lad's eyes as he told his story and frequently he would break down.

This young man should not have left his home, and on the other hand his father should not have choked him, but should have made a confidant of him, or a partner, so to speak, and corrected him in the right way. Most any boy will take a judicious thrashing from his father and love him all the more for it. But there are few boys of today who like to be choked and kicked around like a dog.

Democratic Support.

The Baltimore Sun, the leading democratic paper in Maryland, has come out strongly in support of Taft for president, believing he is better fitted and in all respects more capable than Bryan to safeguard and promote the welfare of the country.

Here is one of its editorials: "It is the judgement of the Sun that the material welfare of the people of the United States— industrial and financially—would be promoted to a greater degree by the election of Mr. Taft than by the election of Mr. Bryan, that their rights would be safeguarded as carefully by Mr. Taft as by Mr. Bryan.

"The Sun is convinced that the arm of the law personified by a president of balanced judgement, with a thorough knowledge of law—a man of steady purpose just and resolute—would prove a better defender of the rights of the people and would do more to promote their material welfare than the big stick has done in the hands of Mr. Roosevelt or than the big club could do in the hands of Mr. Bryan. It is our deliberate judgement that for the next four years the material interest of the people of this country would be safer with Mr. Taft at the head of the national government than with Mr. Bryan.

"We further believe that while a law breaker would be brought to account by Mr. Taft with a little fear or favor as Mr. Bryan could display, the methods employed by Mr. Taft would not curtail the workingman's opportunities for employment by disturbing the business of law abiding men and corporations as has been witnessed in the last few years. Mr. Taft's experience in important administrative posts, his judicial temperament, his patience and thoroughness in investigation, justify the belief that as president he would execute the law faithfully and well

but not spectacularly. And while this type of man should be in the White House all the time he seems to be especially needed now, when the country is emerging from an industrial and financial depression which brought distress and suffering into many homes."

WARNING TO Women

Dont be swindled by so-called "beauty doctors" who palm off worthless and often harmful preparations at exorbitant prices. Many have been poisoned or disfigured for life by these so-called "beauty doctors."

If you feel the need of a hair invigorator, skin tonic or freckle remover, buy a reliable preparation that your druggist will recommend.

We handle all Velvetina preparations.

Alfred Sloggett done a rapid job of threshing last Thursday and Friday. He threshed fourteen stacks of oats which yielded 207 bushels and six stacks of alfalfa which run 140 bushels of seed, in eleven hours, setting the machine five times. His machine was a J. I. Case.

S. H. Reed and family came down from Anselmo to attend the fair Wednesday morning and left at this office a fine large watermelon which the force enjoyed. We regret that the

season for water melons does not extend through the whole year and that Mr. Reed could not make a trip every day to our office.

The Custer county fair is now on. The races are full for today and tomorrow and you will see

the best ever if you attend. Everything advertised is here and the management is doing all they can to more than make good.
